

HB 469 -- Renewable Energy Research Grant Program

Sponsor: Low

This bill establishes the Renewable Energy Research Grant Program, administered by the Department of Natural Resources, to conduct research for renewable energy or ways to improve the efficiency of renewable energy sources or for educational purposes. The program will fund projects of public and private nonprofit organizations involving solar power, photovoltaic energy, landfill gas, wind energy, biomass, hydroelectric energy, renewable fuels, municipal solid waste, weatherization, and conservation. The department may award grants for up to 10 years. No grant will be issued for private use or capital projects.
