

House Concurrent Resolution No. 17

96TH GENERAL ASSEMBLY

INTRODUCED BY REPRESENTATIVES SCHIEFFER (Sponsor), FAITH, LOEHNER, GATSCHENBERGER, KORMAN, HOUGHTON, WRIGHT, PARKINSON, FUNDERBURK, QUINN, BLACK, MEADOWS, FALLERT, CASEY, AULL, HARRIS, SMITH (71), ATKINS, CONWAY (27), MONTECILLO, RIZZO, ZERR, McGHEE, McCANN BEATTY, LONG, SWEARINGEN, TALBOY, COLONA, WEBBER, HUMMEL, ELLINGER, SMITH (150), ANDERS, SHIVELY, PACE, FISHER, McNARY, WETER, SCHNEIDER, PHILLIPS, LAIR, CURLS, WALTON GRAY, KELLY (24), BROWN (50), FLANIGAN, DENISON, LANT, BAHR, ENTLICHER, LICHTENEGGER, SCHATZ, McNEIL, FITZWATER, SPRENG, NEWMAN, PETERS-BAKER, TAYLOR, NASHEED, CARTER, TILLEY, JONES (89), COX, CIERPIOT, BERNSKOETTER, KLIPPENSTEIN, FRANKLIN, COOKSON, DIEHL, PIERSON AND WHITE (Co-sponsors).

0884L.021

2 **WHEREAS**, the United States Corps of Engineers' five-year study of the Upper
3 Mississippi River Basin, which is everything north of Cairo, Illinois, failed to produce a plan for
4 flood control acceptable to stakeholders; and

5 **WHEREAS**, the Mississippi River Commission did recommend Plan H to the United
6 States Congress; and

7
8 **WHEREAS**, the Corps of Engineers has not recommended this plan to the United States
9 Congress, citing the expense of the construction of 500-year levees along these Rivers (estimated
10 to be \$6 billion) as it is not cost effective; and

11
12 **WHEREAS**, the Corps of Engineers additionally determined a need for a better data
13 based upon new hydrology and flow studies and the need to study tributaries to the Mississippi
14 River; and

15
16 **WHEREAS**, the Corps of Engineers indicated that ramifications of the additional 500-
17 year levees and their potential to cause additional flooding would need to be determined, and
18 affected populations and communities informed and advised of the potential impact; and

19
20 **WHEREAS**, the affected counties include the Missouri counties of Lincoln, Pike, and
21 St Charles; and

22
23 **WHEREAS**, Plan H designates only about half of the levees in the Missouri counties of
24 Lincoln, Pike, and St. Charles be raised, while to the north 500-year levees are recommended for
25 both sides of the River; and

26

27 **WHEREAS**, the stakeholders in the Missouri counties of Lincoln, Pike, and St. Charles
28 desire the protections provided by the 500-year levees; and

29

30 **WHEREAS**, Plan H, if implemented, denies the benefits of 500-year levees to those
31 making a living along the Mississippi River, negatively impacting agriculture, transportation,
32 businesses, industries, tourism, hunting, fishing, boating, infrastructures, and residences; and

33

34 **WHEREAS**, over 6,500 citizens have signed petitions opposing Plan H; and

35

36 **WHEREAS**, the Upper Mississippi River Basin should receive funding comparable to
37 funding for the Southern Mississippi River Basin from Cairo, Illinois, to New Orleans,
38 Louisiana:

39

40 **NOW, THEREFORE, BE IT RESOLVED** that the members of the House of
41 Representatives of the Ninety-sixth General Assembly, First Regular Session, the Senate
42 concurring therein, hereby strongly urge the United States Congress to support a comprehensive
43 plan for the Upper Mississippi River Basin that enhances system-wide flood control without
44 creating adverse impacts on existing levees, levee districts, rural communities, and metropolitan
45 areas. The plan should be based on analysis that quantify the impacts of enhanced flood control
46 measures and acknowledges the importance of keeping agricultural land in production. The
47 proposed Plan H making the Missouri counties of Lincoln, Pike, and St. Charles the lowest
48 points on the Mississippi River levee system is totally unacceptable and we ask the Missouri
49 Congressional Delegation to oppose this plan; and

50

51 **BE IT FURTHER RESOLVED** that the Chief Clerk of the Missouri House of
52 Representatives be instructed to prepare properly inscribed copies of this resolution for each
53 member of the Missouri Congressional Delegation.
