

HCS HB 192 -- ENVIRONMENTAL PROTECTIONS (Jones, 89)

COMMITTEE OF ORIGIN: Committee on Tourism and Natural Resources

This substitute changes the laws regarding environmental protection programs.

STATE DEPARTMENT CASH TRANSACTIONS (Sections 253.082 and 640.045, RSMo)

Upon a request from the Director of the Department of Natural Resources, the Commissioner of the Office of Administration is authorized to provide funds in an amount not to exceed \$500 each to the division directors of State Parks, Geology and Land Survey, or to any other division within the department to be placed in a revolving fund for the purpose of cash transactions involving the sale of items made by the divisions.

STATE PARKS EARNINGS FUND (Section 253.090)

The State Treasurer is authorized to deposit all of the moneys in the State Park Earnings Fund in any of the qualified depositories of the state and requires all these deposits to be secured in a manner provided by law relative to state deposits. Any interest earned on these deposits must be credited to the fund.

BATTERY AND HAZARDOUS WASTE FEES (Sections 260.262, 260.380, and 260.475)

The 50-cent fee that is collected on the retail sale of a lead-acid battery as well as the fees for any hazardous waste generated are extended from June 30, 2011, and December 31, 2011, respectively to December 31, 2015.

DISPOSAL OF USED TIRES (Section 260.269)

The state or any political subdivision or agency of the state is allowed to transfer possession and ownership of used tires, scrap tires, or tire shred to any in-state private entity to be lawfully disposed of or recycled if the tires or shred are not burned as fuel or disposed of in a landfill. The cost of transferring the tires or shred must be less than the cost the state, political subdivision, or agency would have otherwise incurred had it disposed of the tires or shred. The private entity must pay for the transportation of the used tires it receives.

DRY-CLEANING FACILITIES (Section 260.965)

The expiration date on the provisions regarding dry-cleaning

facilities and their operations is extended from August 28, 2012, to August 28, 2017.

UNDERGROUND STORAGE TANK OPERATOR TRAINING PROGRAM (Section 319.130)

Beginning April 1, 2012, the board of trustees of the Petroleum Storage Tank Insurance Fund must hold one or more public hearings to determine whether to establish and fund an underground storage tank operator training program. The substitute specifies the criteria the board must consider when making its decision. If after conducting the hearings, a majority of the board votes to establish and fund a program, the program at a minimum must:

- (1) Meet federal requirements;
- (2) Be developed in collaboration with the departments of Natural Resources and Agriculture, the board's advisory committee, and affected members of the private sector;
- (3) Be offered at no cost to the required participants;
- (4) Specify standards, reporting, and documentation requirements; and
- (5) Be established by rule.

The board can contract with a third party to establish a program; and it can, at any time, be modified or eliminated by the board adopting a rule. Any records regarding a program must be made public and readily available to the Department of Natural Resources.

MOTOR FUEL MEASURING DEVICES (Section 414.072 and Section 1)

The manufacturer's expiration date on motor fuel pump nozzles, hoses, and hose breakaway equipment must not be the sole factor in requiring their repair or replacement or in imposing a fine, penalty, or punishment by the state or any political subdivision. The manufacturer's expiration date on these items will not impose any new or additional liability on motor fuel retailers and wholesalers as well as the retailers and wholesalers of the devices and equipment.

Any automatic volumetric correction device for measuring certain motor fuel sold at retail fueling facilities is prohibited by state or national rules unless specifically authorized and required by state law. Any motor fuel mandate will also be prohibited unless authorized and required by state law.

Only the Department of Natural Resources is authorized to set stage 1 and 2 motor fuel vapor recovery fees which must be uniform across the state and which cannot be changed by political subdivisions or local law enforcement agencies.

WATER WELL REGULATIONS (Section 640.116)

Any water system that exclusively serves a charitable or benevolent organization will be exempt from all rules relating to well construction except those applying to multifamily wells and those requiring proof of water quantity drawn unless it is determined to present a threat to groundwater or public health. A water system cannot be exempt if it regularly serves an average of 100 people or more for at least 60 days of the year or if it serves a school or daycare facility.

If a system has three or more violations of the total coliform maximum contaminant level in a 12-month period or one acute violation of the maximum contaminant level, the system's owner must provide an alternative source of water, eliminate the source of contamination, or provide treatment that reliably achieves at least 99.99% treatment of viruses.

No facility can be required to replace, change, upgrade, or alter an existing well constructed prior to August 28, 2011, unless the well is determined to be a threat to groundwater or public health or contains certain contaminant levels.

CLEAN WATER COMMISSION (Sections 644.036 and 644.054)

The public notice requirements of the Clean Water Commission of the State of Missouri when listing any impaired waters of the state under Section 303(d) of the federal Clean Water Act are extended from August 28, 2010, to August 28, 2015.

The commission's authority to charge fees for construction permits, operating permits, and operator's certifications related to water pollution control is extended from December 31, 2010, to December 31, 2015.

The substitute contains an emergency clause for the provisions regarding the State Parks Earnings Fund, the battery and hazardous waste fees, and the Clean Water Commission.

FISCAL NOTE: Estimated Net Cost on General Revenue Fund of \$111,196 in FY 2012, \$82,868 in FY 2013, and \$70,400 in FY 2014. Estimated Net Income on Other State Funds of \$561,196 in FY 2012, \$1,200,633 to \$1,141,668 in FY 2013, and \$1,798,175 to \$1,739,300 in FY 2014.
