

HCS HB 354 -- EMISSIONS INSPECTION OF ELECTRIC DRIVE VEHICLES

This bill exempts a qualified plug-in electric drive vehicle from the state's motor vehicle emissions inspection program. A "qualified plug-in electric drive vehicle" means a plug-in electric drive vehicle that is made by a manufacturer, has not been modified from the original manufacturer's specifications, can operate solely on electric power, and is capable of recharging its battery from an on-board generation source and an off-board electricity source.
