

HB 1786 -- National Wild Turkey Federation Special License Plate

Sponsor: Burlison

This bill allows a member of the National Wild Turkey Federation to obtain a National Wild Turkey Federation special license plate for any vehicle except an apportioned motor vehicle or a commercial motor vehicle licensed in excess of 18,000 pounds gross weight.

To obtain the plate, a member must pay a \$25 emblem-use contribution to the foundation, submit an application to the Director of the Department of Revenue accompanied by an emblem-use authorization statement, and pay an additional \$25 fee. Any member who was previously issued a foundation plate and who does not provide an emblem-use authorization statement at a subsequent time of registration will be issued a new plate which does not bear the foundation's emblem.

Prior to the issuance of the specialty plate, a list of at least 200 potential applicants for the plate, the proposed art design of the plate, and an application fee not to exceed \$5,000 must be submitted to the department.
