

HB 1019 -- Transportation Sales Tax in Kansas City

Sponsor: McCann Beatty

Currently, a portion of the mass transportation sales tax for the City of Kansas City expires on December 31, 2015. At this time, the system must be in full compliance with the Americans with Disabilities Act. This bill repeals the expiration of the mass transportation sales tax and repeals the requirement that the system be in compliance with the Americans with Disabilities Act on that date.
