

HJR 30 -- Tax Credits

Sponsor: Solon

Upon voter approval, this proposed constitutional amendment requires any law creating a tax credit program or extending the sunset date of an existing tax credit program, as defined by the Tax Credit Accountability Act of 2004, to contain provisions repealing, lowering the cap, or reducing the allowable amount of an existing state tax credit in an amount equal to or greater than the projected amount of state revenue to be reduced as a result of the new or extended tax credit program.
