AN ACT

To repeal sections 160.545, 173.1104, and 173.1105, RSMo, and to enact in lieu thereof three new sections relating to student financial assistance.

Be it enacted by the General Assembly of the state of Missouri, as follows:

Section A. Sections 160.545, 173.1104, and 173.1105, RSMo, are repealed and three new sections enacted in lieu thereof, to be known as sections 160.545, 173.1104, and 173.1105, to read as follows:

160.545. 1. There is hereby established within the department of elementary and secondary education the "A+ Schools Program" to be administered by the commissioner of education. The program shall consist of grant awards made to public secondary schools that demonstrate a commitment to ensure that:

(1) All students be graduated from school;

(2) All students complete a selection of high school studies that is challenging and for which there are identified learning expectations; and

(3) All students proceed from high school graduation to a college or postsecondary vocational or technical school or high-wage job with work place skill development opportunities.

2. The state board of education shall promulgate rules and regulations for the approval of grants made under the program to schools that:

(1) Establish measurable districtwide performance standards for the goals of the program outlined in subsection 1 of this section; and

(2) Specify the knowledge, skills and competencies, in measurable terms, that students must demonstrate to successfully complete any individual course offered by the school, and any course of studies which will qualify a student for graduation from the school; and

EXPLANATION — Matter enclosed in bold-faced brackets [thus] in the above bill is not enacted and is intended to be omitted from the law. Matter in **bold-face** type in the above bill is proposed language.

17 (3) Do not offer a general track of courses that, upon completion, can lead to a high
18 school diploma; and

19 (4) Require rigorous coursework with standards of competency in basic academic
20 subjects for students pursuing vocational and technical education as prescribed by rule and
21 regulation of the state board of education; and

22 (5) Have a partnership plan developed in cooperation and with the advice of local
23 business persons, labor leaders, parents, and representatives of college and postsecondary
24 vocational and technical school representatives, with the plan then approved by the local board
25 of education. The plan shall specify a mechanism to receive information on an annual basis from
26 those who developed the plan in addition to senior citizens, community leaders, and teachers to
27 update the plan in order to best meet the goals of the program as provided in subsection 1 of this
28 section. Further, the plan shall detail the procedures used in the school to identify students that
29 may drop out of school and the intervention services to be used to meet the needs of such
30 students. The plan shall outline counseling and mentoring services provided to students who will
31 enter the work force upon graduation from high school, address apprenticeship and intern
32 programs, and shall contain procedures for the recruitment of volunteers from the community
33 of the school to serve in schools receiving program grants.

34 3. A school district may participate in the program irrespective of its accreditation
35 classification by the state board of education, provided it meets all other requirements.

36 4. By rule and regulation, the state board of education may determine a local school
37 district variable fund match requirement in order for a school or schools in the district to receive
38 a grant under the program. However, no school in any district shall receive a grant under the
39 program unless the district designates a salaried employee to serve as the program coordinator,
40 with the district assuming a minimum of one-half the cost of the salary and other benefits
41 provided to the coordinator. Further, no school in any district shall receive a grant under the
42 program unless the district makes available facilities and services for adult literacy training as
43 specified by rule of the state board of education.

44 5. For any school that meets the requirements for the approval of the grants authorized
45 by this section and specified in subsection 2 of this section for three successive school years, by
46 August first following the third such school year, the commissioner of education shall present
47 a plan to the superintendent of the school district in which such school is located for the waiver
48 of rules and regulations to promote flexibility in the operations of the school and to enhance and
49 encourage efficiency in the delivery of instructional services in the school. The provisions of
50 other law to the contrary notwithstanding, the plan presented to the superintendent shall provide
51 a summary waiver, with no conditions, for the pupil testing requirements pursuant to section
52 160.257 in the school. Further, the provisions of other law to the contrary notwithstanding, the

53 plan shall detail a means for the waiver of requirements otherwise imposed on the school related
54 to the authority of the state board of education to classify school districts pursuant to subdivision
55 (9) of section 161.092 and such other rules and regulations as determined by the commissioner
56 of education, except such waivers shall be confined to the school and not other schools in the
57 school district unless such other schools meet the requirements of this subsection. However, any
58 waiver provided to any school as outlined in this subsection shall be void on June thirtieth of any
59 school year in which the school fails to meet the requirements for the approval of the grants
60 authorized by this section as specified in subsection 2 of this section.

61 6. For any school year, grants authorized by subsections 1 to 3 of this section shall be
62 funded with the amount appropriated for this program, less those funds necessary to reimburse
63 eligible students pursuant to subsection 7 of this section.

64 7. The commissioner of education shall, by rule and regulation of the state board of
65 education and with the advice of the coordinating board for higher education, establish a
66 procedure for the reimbursement of the cost of tuition, books and fees to any public community
67 college or vocational or technical school or within the limits established in subsection 9 of this
68 section for any two-year private vocational or technical school for any student:

69 (1) Who has attended a public high school in the state for at least three years immediately
70 prior to graduation that meets the requirements of subsection 2 of this section, except that
71 students who are active duty military dependents, and students who are dependants of retired
72 military who relocate to Missouri within one year of the date of the parent's retirement from
73 active duty, who, in the school year immediately preceding graduation, meet all other

173.1105. 1. An applicant who is an undergraduate postsecondary student at an
2 approved private or public institution and who meets the other eligibility criteria shall be eligible
3 for financial assistance, with a minimum and maximum award amount as follows:

- 4 (1) For academic years 2010-11, 2011-12, 2012-13, and 2013-14:

5 (a) One thousand dollars maximum and three hundred dollars minimum for students
6 attending institutions classified as part of the public two-year sector;

7 (b) Two thousand one hundred fifty dollars maximum and one thousand dollars
8 minimum for students attending institutions classified as part of the public four-year sector,
9 including State Technical College of Missouri; and

10 (c) Four thousand six hundred dollars maximum and two thousand dollars minimum for
11 students attending approved private institutions;

12 (2) For the 2014-15 academic year and subsequent years:

13 (a) One thousand three hundred dollars maximum and three hundred dollars minimum
14 for students attending institutions classified as part of the public two-year sector; and

15 (b) Two thousand eight hundred fifty dollars maximum and one thousand five hundred
16 dollars minimum for students attending institutions classified as part of the public four-year
17 sector, including State Technical College of Missouri, or approved private institutions;

18 (c) **The award amount of any student who has completed a minimum of thirty**
19 **semester hours or their equivalent in the previous academic year may be increased by ten**
20 **percent from the base amount in the subsequent academic year.**

21 2. All students with an expected family contribution of twelve thousand dollars or less
22 shall receive at least the minimum award amount for his or her institution. Maximum award
23 amounts for an eligible student with an expected family contribution above seven thousand
24 dollars shall be reduced by ten percent of the maximum expected family contribution for his or
25 her increment group. Any award amount shall be reduced by the amount of a student's payment
26 from the A+ schools program or any successor program to it. For purposes of this subsection,
27 the term "increment group" shall mean a group organized by expected family contribution in five
28 hundred dollar increments into which all eligible students shall be placed.

29 3. If appropriated funds are insufficient to fund the program as described, the maximum
30 award shall be reduced across all sectors by the percentage of the shortfall. If appropriated funds
31 exceed the amount necessary to fund the program, the additional funds shall be used to increase
32 the number of recipients by raising the cutoff for the expected family contribution rather than by
33 increasing the size of the award.

34 4. Every three years, beginning with academic year 2009-10, the award amount may be
35 adjusted to increase no more than the Consumer Price Index for All Urban Consumers (CPI-U),
36 1982-1984 = 100, not seasonally adjusted, as defined and officially recorded by the United States
37 Department of Labor, or its successor agency, for the previous academic year. The coordinating
38 board shall prepare a report prior to the legislative session for use of the general assembly and
39 the governor in determining budget requests which shall include the amount of funds necessary
40 to maintain full funding of the program based on the baseline established for the program upon

41 the effective date of sections 173.1101 to 173.1107. Any increase in the award amount shall not
42 become effective unless an increase in the amount of money appropriated to the program
43 necessary to cover the increase in award amount is passed by the general assembly.
