

HB 424 -- TERMINATION OF MO HEALTHNET BENEFITS FOR PARTICIPANTS  
RESIDING OUT OF STATE

SPONSOR: Burlison

If the Department of Social Services receives information that a MO HealthNet participant resides out of state, this bill requires the participant's MO HealthNet benefits to be temporarily suspended pending an investigation by the department to determine if the participant is a Missouri resident. If the department determines the participant is no longer a Missouri resident, it must notify the participant that his or her benefits will be terminated in 30 days and the department must terminate the participant's benefits 30 days after the notification.
