

HB 637 -- GIFTED EDUCATION

SPONSOR: Pfautsch

This bill modifies provisions relating to gifted education.

The bill prohibits school districts from determining whether a child is gifted based on the child's participation in an advanced placement course or international baccalaureate course. Whether a child is gifted must be determined using the statutory definition of "gifted children" (Section 162.720, RSMo).

Beginning in the 2015-2016 school year, a school district will incur a reduction in funding if it experiences a decrease in its gifted program enrollment of more than 20% from its 2014-2015 gifted program enrollment. An amount equal to the product of the percent reduction in the district's gifted program enrollment multiplied by the funds generated by the district's gifted program in the 2014-2015 school year will be subtracted from the district's current year payment amount (Section 163.031).

The bill repeals a similar obsolete reduction in funding for districts with reductions in gifted program enrollment. This reduction in funding provision expired at the end of the 2011-2012 school year (Section 163.031).

The reduction in funding provision and repeal of the obsolete reduction in funding provision will become effective on July 1, 2016.
