

HB 705 -- MO HEALTHNET

SPONSOR: Hubrecht

This bill specifies that each MO HealthNet managed care organization in this state must, through an existing healthy behavior incentive program or establishment of a new healthy behavior incentive program, increase the limits of or allow for the combining of any or all healthy behavior incentive credits, moneys, reimbursement, or other similar rewards for covered recipients in an amount sufficient to include the purchase of the following infant and childcare items:

- (1) Infant and child car seats;
- (2) Playpens, safety gates and door barriers, and other similar safety items designed to provide a secure environment for infants and toddlers;
- (3) Diaper bags and diaper bags with diaper changing supplies included; and
- (4) Any other similar infant and childcare items, as designated by rule of the MO HealthNet division, that encourage healthy behaviors which improve the health and safety of infants and children.
