

HB 1680 -- IMMUNITY FROM CIVIL LIABILITY FOR ASSISTING A TRAPPED
CHILD IN A MOTOR VEHICLE

SPONSOR: Solon

The bill specifies that a person shall be immune from civil liability for any damage resulting from the forcible entry into a locked motor vehicle for purposes of removing a child that is in imminent danger of suffering harm.

The person shall contact emergency services prior to entry and place notification on the vehicles windshield of his or her contact information, the reason entry was made, location of the child, and that the authorities have been contacted.

Such person shall remain with the child out of the elements and as reasonably close to the vehicle as possible until emergency services arrive. Nothing shall effect the person's civil liability if the person attempts to render aid to the child.
