

HB 2503 -- RENEWAL OF CONCEALED CARRY PERMITS

SPONSOR: Johnson

This bill will allow a concealed carry permit holder to renew his or her permit by submitting an application through any sheriff of any county in Missouri, rather than just the sheriff of the applicant's county of residence. This bill will also require the sheriff's office processing a permit renewal to notify the sheriff of the applicant's county of residence of the permit renewal and transfer any documents or information necessary for records of the renewal. All such documents and information shall be maintained by the sheriff of the applicant's county of residence. In all cases, a sheriff issuing a permit renewal to a nonresident of the county shall follow the same rules and regulations as a sheriff renewing a permit for a resident of the county.
