This program offers a no-cost service for Missouri's small businesses that assists employers in recognizing, evaluating and controlling workplace hazards in an effort to reduce occupational injuries, illnesses and deaths. This program helps to lower workers' compensation premiums, decrease potential Occupational Safety and Health Administration (OSHA) fines, penalties and other litigations and protects the safety and health of working Missourians. In addition, the program offers educational outreach to small employers. This program is 90% OSHA funded with 10% GR match.

Labor Standards - Mine Safety Health Training Program (MSHT)
Section 7.830

Budget Book Page 65

This program trains and retrains miners in the practice of implementing safe and healthy working habits in the mining workplace. Each miner in Missouri has to be compliant in the training rules and regulations of the Mine Safety and Health Administration (MSHA) to be able to work in the mine. Each miner must receive an initial regimen of safety and health training and an annual refresher thereafter. Program instructors travel to the mine site, conduct a safety and health audit, prepare lesson plans that are site specific and correspond to the training plan of the company and then present the training topics to the miners. This program is funded 80% federal Mine Safety and Health Administration and 20% state match.

Section 7.835

Under this program, a quasi-judicial Board administers the Public Sector Labor Law, which covers many public employees who seek union representation. The Board is organized into three programs: Pre-Filing Assistance, Public Sector Bargaining, and Technical Assistance. The Board has statutory authority to provide a forum where representatives from management and labor in the public sector may meet and bargaining disputes may be heard. The Board is responsible for conducting and certifying the results of elections where public employees are permitted the right to vote for or against unionization. Jurisdiction encompasses all counties, municipalities, school districts, and departments of state government with a few exclusions. These exclusions include police, deputy sheriffs, highway patrolmen/women, National Guard, and all teachers. Pursuant to Executive Order 05-16, the duties of the Board were transferred to the Labor and Industrial Relations Commission, but Executive Order 07-28 rescinded 05-16 and separated the Board back out.

Workers' Compensation - Administration
Section 7.840

Budget Book Page 82

The workers' compensation system in MO was established to ensure employees with work-related injuries receive medical care to treat the injury, partial wage replacement benefits if the employee misses work due to the injury and disability benefits if the injury results in a permanent disability. The division provides an informal administrative forum to resolve disputes that may arise between the injured worker and the employer. The division also regulates employers who are authorized to self-insure their workers' compensation liability, investigates allegations of fraud and noncompliance, and administers benefit payments from and collection of surcharge payments to the Second Injury Fund. Since the division has a mechanism to hear and resolve disputes, it also administers the Tort Victims' Compensation Program. The Crime Victims' Compensation Program previously administered by the Division has been transferred by Executive Order 07-07 to the Department of Public Safety. However, HB 583 (2007) allows parties aggrieved by any decisions of DPS regarding crime victims' compensation to have the decision heard by an administrative law judge of the Division of Workers Compensation.

Workers' Compensation – Second Injury Fund
Section 7.845

Budget Book Page 118

The Second Injury Fund (SIF) compensates injured employees when a current work-related injury combines with a prior disability to create a permanent total disability. The employer at the time of the last injury is only liable for the compensation due from that most recent injury. The remaining compensation to the employee is paid from the Second Injury Fund. The State Treasurer is the custodian of the fund and the Attorney General defends the fund. The Second Injury Fund provides compensation for death, permanent total disability, second job wage loss benefit, medical bills, and limited physical rehabilitation benefits.

Basic Civil Legal Services Fund Transfer
Section 7.870

Budget Book Page 156

The Division of Workers' Compensation is required to transfer 26% of all payments received into the Tort Victims' Fund to the Legal Services for Low-Income People Fund. In previous years, this transfer appropriation appeared in the DSS budget; however, when the related program in DSS was reorganized and moved to the Office of the State Courts Administrator, the transfer appropriation was inadvertently eliminated. Before FY08, this has been done using OA miscellaneous transfer authority. SB 1621 (2008) dissolved the Legal Services for Low-Income Person Fund and directed this transfer to the Basic Civil Legal Services Fund.

Allegations of discrimination are reviewed and investigated and a determination is made whether there is probable cause to believe discrimination has occurred. If discrimination is found then conciliation is attempted. If the complaint is not resolved in conciliation, a public hearing may take place to adjudicate the matter.

The Missouri Human Rights Act seeks to eliminate discrimination in the workplace, public accommodations and housing. Discrimination can be based on race, color, religion, national origin, ancestry, sex, physical/mental disability, age and familial status. The program also offers training to public and private employers, organized groups, school districts and housing providers on topics such as sexual harassment prevention, cultural sensitivity, disability sensitivity and fair housing information.
