State Representative

September 29, 2005

Dear House Members:

I believe you will find this fourteenth edition of *Budget Fast Facts* a valuable resource for you and your staff. Developed by the House Appropriations Staff, it pulls together basic information and key elements of our state budget to create a comprehensive reference document of Missouri's budget.

Budget Fast Facts includes basic information regarding Missouri's budget and finances, current appropriations compared with past and often-requested data on the various departments. Further, it explains certain relevant terms and acronyms, a list of Appropriations staff members and their assigned budget areas, as well as a list of contact numbers for all departments.

I am very grateful for the confidence and support you have given me during these challenging times. Being the House Budget Committee Chairman is a humbling experience, but one that reminds me every day why we are here representing and working for the people of Missouri. Thank you for this opportunity.

I also want to thank the Appropriations staff, who are too often under appreciated, for the countless hours they devote to their jobs and the excellent work product they produce. It is my hope that *Budget Fast Facts* will provide you with the answers to the most commonly asked budget questions.

If you have any comments or suggestions regarding *Budget Fast Facts*, you may reach our Director of Appropriations, Marga Hoelscher at (573) 751-3972. Additionally, please do not hesitate to contact me at (573) 751-9465 if I may be of assistance.

Thank you.

Sincerely,

A handwritten signature in black ink that reads "Brad Lager".

MISSOURI'S TOBACCO SETTLEMENT

In November 1998, Missouri joined with 46 other states, the District of Columbia and U.S. Territories in announcing a national settlement with tobacco companies. The agreement is the largest settlement ever achieved by the State of Missouri.

The agreement provides for the settlement of all past, present, and future smoking-related claims for health care costs against the tobacco companies in exchange for payments to the States. The agreement also imposes specific tobacco advertising and marketing restrictions.

The agreement requires annual payments in perpetuity. The state will receive an estimated \$4.5 billion from the settlement through FY 2025. TAFP House Bill 14, 91st General Assembly First Regular Session, authorized the initial spending plan for FY 2002.

The following table provides a quick summary of how the tobacco proceeds were spent during FY 2004 and FY 2005 and how they are appropriated for FY 2006.

General obligation bonds can only be issued through voter-approved amendments to the state constitution.

The principal and interest amounts are transferred one year in advance from the General Revenue Fund to the debt service funds from which principal and interest payments are made. Four types of general obligation bonds are currently authorized and outstanding.

Water Pollution Control Bond proceeds help local governments construct wastewater and stormwater control facilities and improve drinking water systems. There will be no new water pollution control issuances in FY 06. FY 06 debt service cost is \$24.1 million.

Third State Building Bonds provide funds to improve State facilities and for local economic development projects. All \$600 million of bonds authorized were issued. FY 06 debt service cost is \$50.1 million.

HB 2 – DEPARTMENT OF ELEMENTARY AND SECONDARY EDUCATION

Desegregation Costs

Court supervision of the St. Louis and Kansas City School Districts ended in 1999. State desegregation payments in the Kansas City case ended in FY 1999 pursuant to a settlement in 1997. With passage of SB 781 (1998), local voter approval of matching funds in February 1999, and court approval in March 1999, St. Louis desegregation operating budget payments were ended in FY 1999 while transfer costs and capital improvement payments are to be phased out.

The FY 2002 and FY 2003 budgets included \$20 million in payments for capital outlays in St. Louis. The payment for FY 2005 was decreased to \$15,000,000 due to the court ordered sliding scale of payments that will cease in FY 2010. The FY 2006 appropriated amount is \$13,000,000.

The following graph and table show the annual expenditures for St. Louis and Kansas City since Fiscal Year 1981:

Missouri has a total of 83 State Parks and Historic Sites and the Roger Pryor Pioneer Backcountry. The State Parks and Historic Sites cover approximately 140,000 acres and the Roger Pryor Pioneer Backcountry covers approximately 61,000 acres. These acres are maintained by more than 1,170 park employees.

The people of Missouri passed in 1984, 1988 and 1996, a one tenth (1/10) of one percent sales tax to be used for parks and soil conservation. The revenue raised from this sales tax is to be divided evenly between parks and soil conservation. In FY 2005, Missouri State Parks received approximately \$38,608,924 from this sales tax for Missouri State Parks and Historic Sites.

HB 7 – DEPARTMENT OF ECONOMIC DEVELOPMENT

Missouri Division of Tourism

Tourism continues to remain one of the top three industries in Missouri. The Division's source of funding is through a GR transfer to the Tourism Supplemental Revenue Fund (TSRF). In statute the Missouri Division of Tourism is funded through the use of a formula whereby an amount equal to one-half of the state sales tax generated above a 3% growth in retail sales of tourism-oriented goods and services will be added to the prior year's funding. Those items that fall into this category are drawn from 17 Standard Industrial Classification (SIC) codes representing restaurants, lodging, tourist attractions and activities.

DEPARTMENT DATA

In Fiscal Year 2004, there were 37.7 million visitors to Missouri. During that period, the tourism industry was responsible for over \$13.4 billion of Missouri's economy. For Fiscal Year 2004, taxable sales from the specific SIC codes amounted to a record \$8.1 billion.

GENERAL INFO

LEASING COSTS

The state leases more than 480 facilities including offices, warehouses, parking, schools and labs totaling in excess of 3.9 million square feet. These leases provide workspace for approximately 12,700 state employees.

The Division of Facilities Management in the Office of Administration is the state agency responsible for centralized leasing functions. The initiative to centralize leasing functions evolved from recommendations by the General Assembly. These recommendations included centralization of the procurement, budgeting, appropriation and payment processes of real property leases.

From FY 2002 thru FY 2005, the Missouri General Assembly appropriated leases using a biennial appropriations process. The FY 2006 leasing budget was approved as an annual budget rather than a biennial budget.

The State of Missouri uses a competitive public bid and negotiations process to acquire leased space. House Bill 13 includes all leases except those entered into by the Department of Conservation, Department of Transportation, higher education institutions, the Judiciary and the General Assembly. The totals for Leasing included in the budget for FY 2006 are as follows:

	FY 2006
	<u>After Veto</u>
General Revenue	\$24,809,742
Federal Funds	13,607,866
Other Funds	<u>4,997,725</u>
TOTAL	\$43,415,333

CAPITAL IMPROVEMENTS

The Missouri budget uses a biennial appropriations process for capital improvement projects. This permits the state to more efficiently and economically complete projects, improves capital planning, and recognizes that most capital improvements take two or more years to complete. During the second year of the biennium, an appropriations bill is authorized to provide funding for critical projects unforeseen at the time of the adoption of the biennial budget, projects required by legislation, and for use of one-time resources that become available during the second year of the biennium. The following is a summary of the FY 2006 -2007 Capital Improvements budget:

GAMING REVENUES

The Missouri Gaming Commission is responsible for licensing and regulating excursion gambling boats and for licensing and regulating bingo activities. Revenues generated from the Gaming industry in Missouri provide for the operation of the Commission as well as providing funds for education.

Missouri imposes an 18% tax on the adjusted gross receipts (AGR) of riverboat gaming operators. In addition, a local tax of 2% on AGR is collected by the state and distributed to each home dock city or county. Receipts from the 18% tax are used for education. The Gaming Commission receives \$1 of the \$2 boarding fee to support the operation of the Gaming Commission. The remainder of the boarding fee is distributed to the home dock community.

The Commission's share of the boarding fee is deposited into the Gaming Commission Fund along with revenues generated from licensing and administrative fees, penalties, and reimbursements. These revenues support the operation of the Gaming Commission and the transfers authorized by Section 313.835, RSMo.

Effective August 28, 2003, HB 444 revised Section 313.835 RSMo by changing the distribution of the net proceeds. If net Gaming Commission fund proceeds (net of Commission expenses) are equal to or less than \$28 million, then the following transfers are authorized in this order: \$4.5 million to the MO College Guarantee Fund; \$3 million to the Veterans' Commission Capital Improvement Trust Fund; \$3 million to the Missouri National Guard Trust Fund; and the remaining to the Early Childhood Development, Education and Care Fund.

If the net proceeds are greater than \$28 million, additional transfers to the MO College Guarantee Fund (\$500,000), Veterans' Commission Capital Improvement Trust fund (\$3 million), and MO National Guard Trust Fund (\$1 million) are allowed by statute. The Early Childhood Development, Education and Care Fund would be guaranteed a transfer of no less than \$23.5 million plus whatever net proceeds remain after the second set of transfers.

The following chart reflects how excess moneys in the Gaming Commission Fund were allocated since inception:
