FUND FINANCIAL SUMMARY**

DEPARTMENT: DESE

FUND NAME: Charter Public School Commission Revolving Fund

FUND NUMBER: 1860

Explanation of Unexpended Appropriation Amount	The fund has excess appropriation in the event they need to take over schools from other sponsors. The Commission holds a reserve in the event there is a need to close a school (and no longer gets the sponsorship fee) so staff can be paid out. This reserve is important because it demonstrates MCPSC never has to sponsor a school for the money, or not close a school for fear of losing money.

**STATE OF MISSOURI
FUND FINANCIAL SUMMARY**

DEPARTMENT: DHEWD

FUND NAME: Job Development and Training Fund

FUND NUMBER: 1155

Explanation of Unexpended Appropriation Amount	The unexpended amount allows for National Emergency and Disaster Grants that may be received from the U.S. Department of Labor on short notice. Additionally, most of the federal funds have a program period of three years, which means the department continues to spend on funds that were awarded over the two prior years.
Explanation of Other Amounts	N/A
Explanation of Outstanding Projects	N/A
Explanation of Cash Flow Needs	N/A
Other Notes	For FY 2025 budget, the DHEWD requested \$25,595,665 core reduction to reduce excess spending authority and to truly reflect actual available federal dollars and the Governor recommended the reduction. The General Assembly added an additional \$16.5 million in spending authority reductions, which significantly impacted the departments ability to receive additional grant funding and to respond quickly in the event of an economic downturn. DHEWD is requesting to add back the \$16.5 million spending authority for FY 2026.

Totals include Non-Counts.

DEPARTMENT: DHEWD

FUND NAME: Missouri Student Grant Program Gift Fund

FUND NUMBER: 1272

Explanation of Unexpended Appropriation Amount	This represents authority not used because of the direct deposit of funds into the Access Missouri Financial Assistance Fund (see Other Notes).
Explanation of Other Amounts	N/A
Explanation of Outstanding Projects	N/A
Explanation of Cash Flow Needs	N/A
Other Notes	For administrative ease, MOHELA deposits the annual \$50,000 via ACH directly into the Access Missouri Financial Assistance Fund referencing the Purdy Scholarship rather than transferring the funds into the Missouri Student Grant Program Gift Fund and then subsequently transferring those funds into the Access Missouri Financial Assistance Fund. However, the department has not received Purdy funds in several years.

Totals include Non-Counts.

FUND NUMBER: 1420

Revenue Source	Fees are received from out-of-state public institutions that seek to offer education in Missouri or from out-of-state public institutions that do not participate in the State Authorization Reciprocity Agreement (SARA). Receipts are sporadic depending on the date institutions are authorized and if the institutions choose to renew approval.
Fund Purpose	Section 173.005.2(14), RSMo, provides the Coordinating Board for Higher Education with the authority to charge and collect fees from out-of-state public institutions for the costs of reviewing and assuring the quality of programs offered by said institutions The fund is used to support unit activities related to review, approval, and maintenance of documents.
Explanation of Unexpended Appropriation Amount	Spending in this fund is monitored closely to manage cash flow given the uncertain nature of revenues. Many out-of-state public institutions joined SARA, and they are no longer required to pay the public out-of-state distance education fee. California (CA) is the only state not a member of SARA, and revenues from this fund are derived from CA institutions applying for approval. Unexpended appropriation amounts represent lapse due to cash balance.

FUND NAME: Fast Track Workforce Incentive Grant Fund

FUND NUMBER: 1488

Revenue Source	The primary revenue sources are lottery proceeds and general revenue in accordance with Article III, Section 39b of the constitution and Section 313.321, RSMo. Generally, 60% of the revenue from the aforementioned sources are transferred into the fund in the first quarter of the fiscal year with the remaining 40% transferred in the third quarter. A small portion of revenue may also result from school refunds, which are received periodically throughout the year.
Fund Purpose	These monies will be used to provide tuition reimbursement to adults who are seeking to upgrade or retool their skills in order to enter high demand, high wage occupations and who meet the criteria outlined in Section 173.2553-2554, RSMo.
Explanation of Unexpended Appropriation Amount	N/A
Explanation of Other Amounts	FY 2025 and FY 2026 include the standard three percent statutory reserve on the transfers to this fund from General Revenue and the Lottery Proceeds Fund.
Explanation of Outstanding Projects	N/A
Explanation of Cash Flow Needs	Many Fast Track academic programs do not follow a standard fall/spring academic year so payments will be required from July to June each year. As a result, a portion of the beginning cash balance is needed to make awards between July 1 and the August transfer each year. At this time, there are no cash flow needs for FY 2025 and FY 2026 due to remaining cash balance from unexpended funds.
Other Notes	This program, which is authorized by Section 173.2553, RSMO, was amended in 2022 to expand eligibility to students receiving training from additional eligible training providers and to eligible apprenticeships. The 2022 amendments also removed the loan-related components of the program, making the Fast Track Workforce Incentive Grant a traditional grant that does not require repayment. These changes are expected to increase utilization of the grant.

Totals include Non-Counts.

**STATE OF MISSOURI
FUND FINANCIAL SUMMARY**

DEPARTMENT: DHEWD

FUND NAME: Dual Credit Scholarship Fund

FUND NUMBER: 1541

Revenue Source	The primary source is general revenue. However, depending on appropriations, revenue may be from a variety of sources. Generally, 60% of the transfer occurs in the first quarter of the fiscal year with the remaining 40% transferred in the third quarter. Additional sources may include school refunds, although there is insufficient data at this time to project the amount.
Fund Purpose	This fund provides need-based financial aid to Missouri high school students taking dual credit and/or dual enrollment coursework.
Explanation of Unexpended Appropriation Amount	The unexpended appropriation amounts for FY 2025 and FY 2026 were calculated by subtracting the projected expenditures from the appropriation. Because of the remaining fund balance, only a partial transfer occurred in the fall of FY 2024; the spring transfer did not occur. For FY 2025, projected expenditures are based on estimated average awards of \$750 for an estimated 1,335 students. For FY 2026, projected expenditures are based on estimated average awards of \$760 for an estimated \$1,675 students.
Explanation of Other Amounts	FY 2025 and FY 2026 include the standard three percent statutory reserve on the transfer to this fund.
Explanation of Outstanding Projects	N/A
Explanation of Cash Flow Needs	N/A
Other Notes	This program, authorized by section 173.2505, RSMo in 2016, was funded for the first time in FY 2023. It replaces the Dual Credit/Dual Enrollment Scholarship authorized by section 160.545, RSMo that was administered in FY 2022 only.

Totals include Non-Counts.

Explanation of Outstanding Projects	N/A
Explanation of Cash Flow Needs	N/A
Other Notes	The cash balance in the fund is necessary to cover the continuing costs of regulating proprietary schools in the event of a shortfall in revenues

Totals include Non-Counts.

FUND FINANCIAL SUMMARY**

DEPARTMENT: DHEWD

FUND NAME: Proprietary School Bond Fund

FUND NUMBER: 1760

Fund Purpose	DHEWD holds a security deposit from each school certified to operate pursuant to sections 173.600 through 173.619, RSMo. The deposit is to indemnify students in cases of malfeasance by a proprietary school or to assist with preservation of student records if adequate provisions are not made by the school upon closure. This fund is necessary to ensure the authority to access those monies for indemnification and record preservation purposes in cases of malfeasance by a proprietary school.
Explanation of Unexpended Appropriation Amount	This fund serves as a contingency fund that must be available in the event of a precipitous school closure; unexpended appropriations are an essential component of this budget item.
Explanation of Other Amounts	N/A
Explanation of Outstanding Projects	N/A
Explanation of Cash Flow Needs	N/A
Other Notes	In FY 2022, the Legislature provided authority to spend PS and EE from this fund. These appropriations are used to support the record retention efforts for transcripts and related documents for students related to closed schools. DHEWD becomes the custodian of records for these closed institutions and manages student transcripts requests on an ongoing basis. This fund only receives monies when a certified proprietary school relinquishes a bond, therefore from FY 2024 to FY 2026, there is a declining cash balance.

Totals include Non-Counts.

FUND FINANCIAL SUMMARY**

DEPARTMENT: DHEWD

FUND NAME: Access Missouri Financial Assistance Fund

FUND NUMBER: 1791

Revenue Source	The primary revenue sources include transfers from general revenue, lottery proceeds in accordance with Article III, Section 39b of the constitution and Section 313.321, RSMo, gaming proceeds of \$5 million in accordance with Section 313.835, RSMo, the Missouri Student Grant Program Gift Fund (MOHELA) of \$2 million. However, depending on appropriations, revenue may be from a variety of sources. Generally, 60% of these transfers occur in the first quarter of the fiscal year with the remaining 40% transferred in the third quarter. Additional sources include other government entity donations, interest and school refunds. School refunds are received periodically throughout the year.
Fund Purpose	This fund provides need-based financial aid to eligible Missouri residents.
Explanation of Unexpended Appropriation Amount	Spending authority for this program exceeds appropriated transfers for FY 2025 and FY 2026 in order to allow for returns to be expended and in order to expend existing fund balances, if applicable. The unexpended appropriation amounts for FY 2025 and FY 2026 were calculated by subtracting the projected expenditures, including scholarship refunds expected to be re-spent, from the appropriation. Projected expenditures are based on awards at 100 percent of the statutory maximum and a student aid index (SAI) greater than the standard \$12,000 cutoff. Due to the delayed rollout of the 2024-25 FAFSA and missing student information from Federal Student Aid (FSA), the SAI cutoff for FY 2025 will be \$20,000 in the fall and a reduction to \$14,000 in the spring.
Explanation of Other Amounts	FY 2025 and FY 2026 include the standard three percent statutory reserve on the transfers to this fund.

Explanation of Cash Flow Needs	N/A

FUND NAME: Academic Scholarship Fund

Revenue Source	The primary revenue source is comprised of transfers from general revenue, generally with 60 percent transferred in the first quarter of the fiscal year and the remaining 40 percent transferred in the third quarter. Depending on appropriations, revenue may be from a variety of sources. A small portion of the revenue is from school refunds received periodically throughout the year.
Fund Purpose	This fund is used to provide scholarships based on academic achievement. The scholarship may be renewed until the first bachelor's degree is received or ten semesters, whichever occurs first. The scholarship includes two award levels based on ACT or SAT scores in the top three percent (a maximum award of \$3,000) or ACT or SAT scores in the top fourth and fifth percentiles (a maximum award of \$1,000). Students scoring in the top three percent must be awarded the \$3,000 maximum before students in the top fourth and fifth percentiles can be awarded.
Explanation of Unexpended Appropriation Amount	Spending authority for this program exceeds appropriated transfers in order to allow for returns to be expended and in order to expend existing fund balance, if applicable. The unexpended appropriation amount for FY 2025 and FY 2026 was calculated by subtracting the projected expenditures, including scholarship refunds expected to be re-spent, from the appropriation. Because of the remaining fund balance, only a partial transfer occurred in the fall for FY 2024; the spring transfer did not occur. In order to be fiscally responsible, the department will not request the spring transfer amount, if utilization of the programs does not exceed projections.
Explanation of Other Amounts	FY 2025 and FY 2026 include the standard three percent statutory reserve on transfers for this fund.

FUND FINANCIAL SUMMARY**

DEPARTMENT: DHEWD

FUND NAME: Guaranty Agency Operating Fund

FUND NUMBER: 1880

Revenue Source	Revenue sources for fund 0880 FY 2023 and prior included monthly reimbursement from the Department of Education for Teacher Loan Forgiveness payments and Treasury Offset refunds; quarterly payments from the Department of Education for Account Maintenance fees; daily interest deposits; and other sporadic refunds and rebates. Now, since the Student Loan Program ended October 2022, the only revenue coming into this fund is the daily interest and security interest deposits. DHEWD's share of student loan collections and default aversion assistance fees that remain since the program ended will be transferred from fund 0881, as authorized by federal statute.
Fund Purpose	The Guaranty Agency Operating Fund is used to pay the administrative costs of the DHEWD Student Loan Program and to pay other student financial aid related expenses. The major administrative costs associated with the fund were the costs of processing and servicing the loans that were guaranteed by the agency. Once the remaining funds are transferred from fund 0881, they will be used for the restricted purposes of outreach and financial aid.
Explanation of Unexpended Appropriation Amount	The unexpended appropriation is based on anticipated expenditures. DHEWD anticipates unexpended appropriation authority as the funds are restricted to be used for outreach activities and financial aid purposes.
Explanation of Other Amounts	N/A
Explanation of Outstanding Projects	N/A
Explanation of Cash Flow Needs	N/A

FUND FINANCIAL SUMMARY**

DEPARTMENT: DHEWD

FUND NAME: A Plus Schools Fund

FUND NUMBER: 1955

Revenue Source	The primary revenue sources for the A+ Scholarship are general revenue and lottery proceeds in accordance with Article III, Section 39b of the constitution and Section 313.321, RSMo. However, depending on appropriations, revenue may be from a variety of other sources. Generally, 60% of the revenue from the aforementioned sources are transferred into the fund in the first quarter of the fiscal year with the remaining 40% transferred in the third quarter. A small portion of revenue is also a result of school refunds, which are received periodically throughout the year.
Fund Purpose	These monies will be used to provide tuition reimbursement to eligible graduates of designated high schools to attend public community colleges, area career colleges or private career technical schools that meet the criteria outlined in Section 160.545, RSMo.
Explanation of Unexpended Appropriation Amount	Spending authority for this program exceeds appropriated transfers in order to allow for returns to be expended and in order to expend existing fund balance, if applicable. The unexpended appropriation amounts for FY 2025 and FY 2026 were calculated by subtracting the projected expenditures, including scholarship refunds expected to be re-spent, from the appropriation. For FY 2025, projected expenditures are based on an average award of \$4,100 for an estimated 14,000 students. For FY 2026, projected expenditures are based on an average award of \$4,185 for an estimated 14,000 students. However, actual expenditures may be more, depending on the number of students that enter the program in FY 2025 and FY 2026 as a result of the program's expansion to nonpublic high schools.
Explanation of Other Amounts	FY 2025 and FY 2026 include the standard three percent statutory reserve on the transfers to this fund.
Explanation of Outstanding Projects	N/A
Explanation of Cash Flow Needs	The A+ Scholarship allows payment for summer coursework. As a result, a portion of the beginning cash balance is needed to make summer awards until the fall transfer occurs each year. In the past, the cash flow needs for the summer term were met with a \$2 million MOHELA appropriation, but in the event the funds from MOHELA are delayed, the cash flows need for FY 2025 and FY 2026 is estimated to be \$1,568,496, which is the average of the FY 2022, FY 2023, and FY 2024 actual cash flow needs.
Other Notes	None

Revenue Source	Transfer from the State Lottery Fund (0682).
Fund Purpose	PS, fringes, E&E, advertising expenses, responsible gaming messaging, sponsorships and vendor payments to operate the State Lottery.

Totals include Non-Counts.

**STATE OF MISSOURI
FUND FINANCIAL SUMMARY**

DEPARTMENT: Missouri Lottery Commission

FUND NAME: Lottery Enterprise Fund

FUND NUMBER: 1657

Explanation of Unexpended Appropriation Amount	Unexpended Appropriation in FY 2024 due mainly to \$4.1 million unused Pull Tab Vendor Payments appropriation authority (sales less than expectations). Appropriation authority is based on 500 active dispensers and a theoretical win per unit of \$125/day. Number of locations and active dispensers at 6/30/2024 were 111 and 428, respectively, and a theoretical win per unit of \$100/day.
Explanation of Other Amounts	-
Explanation of Outstanding Projects	-
Explanation of Cash Flow Needs	Cash flow needs represent payments not yet made for administrative expenses. Any balance in the Lottery Enterprise Fund (0657) at any point in time is dependent on timing of transfers from the State Lottery Fund 0682 versus payment of salaries and benefits, vendor costs, and other administrative expenses.
Other Notes	The State Lottery Fund (0682) was created during the Senate Appropriations phase of the FY17 budget cycle. It was the Senate Approps chair's opinion that the State Lottery Fund referenced in Section 39b of the Missouri Constitution did not exist so this fund was created in HB 2004 (2016) to address his concern and to provide additional transparency.

Totals include Non-Counts.

Totals include Non-Counts.

**STATE OF MISSOURI
FUND FINANCIAL SUMMARY**

DEPARTMENT: Missouri Lottery Commission

FUND NAME: State Lottery Fund

FUND NUMBER: 1682

Explanation of Unexpended Appropriation Amount	Unexpended appropriation due to prizes, transfer for operations, and transfer to education being less than appropriated.
Explanation of Other Amounts	-
Explanation of Outstanding Projects	-
Explanation of Cash Flow Needs	Cash flow needs represent payments not yet made for administrative expenses, prizes, and transfers to the state. Any balance in the State Lottery Fund (0682) at any point in time is dependent on timing of weekly retailer sweeps into the fund versus payment of prizes, transfers to the Lottery Enterprise Fund (0657) to fund operations, and calculation of monthly transfer amounts to the Lottery Proceeds Fund.
Other Notes	This fund was created during the Senate Appropriations phase of the FY 17 budget cycle. It was the Senate Approps chair's opinion that the State Lottery Fund referenced in Section 39b of the Missouri Constitution did not exist so this fund was created in HB 2004 (FY17) to address his concern and to provide additional transparency.

Totals include Non-Counts.

Explanation of Outstanding Projects	N/A
Explanation of Cash Flow Needs	MoDOT has established a process in conjunction with the Office of Administration, State Treasurer's Office and State Auditor's Office, to maintain a minimum balance of approximately \$15 million.
Other Notes	The fiscal year 2025 and 2026 negative budget balance is the result of the transfer appropriation authority remaining high enough to transfer all excess revenues from the State Highways and Transportation Department fund to the State Road Fund once all expenditures for other state agencies are accounted for.

FUND NAME: Department of Transportation Federal Stimulus 2021 Fund

FUND NUMBER: 2443

Fund Purpose	The federal ARPA money is used for aviation and transit programs. Expenditures of ARPA funds will support the nation's public transportation systems as they continue to respond to the COVID-19 pandemic and support the President's call to vaccinate the U.S. population. Transit ARPA funds will be administered by MoDOT for rural public transit, Rural Transportation Assistance Program (RTAP) and Intercity Bus. **STATE OF MISSOURI
FUND FINANCIAL SUMMARY**

DEPARTMENT: OA

FUND NAME: Budget Reserve Fund

FUND NUMBER: 1100

Revenue Source	Pursuant to Article IV, Section 27(a), if sum of the ending balance of the Budget Reserve Fund and any amounts owed to the fund for repayments is less than seven and one-half percent of the net general revenue collections for the same year, the difference shall be transferred from General Revenue to the Budget Reserve Fund. In addition, this fund keeps interest income.
Fund Purpose	To provide short term cash flow borrowing from any state fund and for budget stabilization when there are revenue shortfalls that require the Governor to reduce expenditures by agencies below the level of their appropriations or when there is a budget need due to a disaster.
Explanation of Unexpended Appropriation Amount	The use of appropriation authority from this fund depends on the need to borrow for cash flow purposes which varies from year to year.
Explanation of Other Amounts	N/A
Explanation of Outstanding Projects	N/A
Explanation of Cash Flow Needs	The purpose of the fund is to provide short term cash flow borrowing from any state fund and for budget stabilization when there are revenue shortfalls that require the Governor to reduce expenditures by agency below the level of their appropriations or when there is a budget need due to a disaster.
Other Notes	The Commissioner of Administration may transfer moneys from the Budget Reserve Fund to the General Revenue or any other state fund without legislative action, if it's determined necessary for the cash requirements of this state. No transfer shall occur after May 15th of any fiscal year. If the balance in the fund at the close of the fiscal year exceeds 7.5% of the net general revenue collections of the previous fiscal year, it shall be transferred to the General Revenue Fund, unless the excess is a result of direct appropriations made by the General Assembly for the purpose of increasing the balance of the fund. However, if at the close of any fiscal year the excess is greater than 10%, the excess shall be transferred to the General Revenue Fund notwithstanding any specific appropriations made to the fund. Use of the fund for budget stabilization purposes requires a two-thirds majority vote of each house of the General Assembly.

Totals include Non-Counts.

**STATE OF MISSOURI
FUND FINANCIAL SUMMARY**

DEPARTMENT: OA

FUND NAME: OA Information Technology Federal and Other

FUND NUMBER: 1165

Fund Purpose	Consolidated agencies do not want OA spending directly from their federal funds because the agencies need to maintain strict control over federal spending. Agencies control their federal draw-downs and deposit the applicable receipts for IT into the OA ITSD federal fund using identifying revenue source codes so that ITSD can identify from which department/program the federal funds were received.
Explanation of Unexpended Appropriation Amount	This is a federal fund. The appropriation allows ITSD to purchase IT services and equipment from the applicable federal fund. This fund allows OA to pursue technological opportunities on behalf of the agencies served.
Explanation of Other Amounts	N/A
Explanation of Outstanding Projects	N/A
Explanation of Cash Flow Needs	This cash balance is necessary for monthly payroll, and due to fluctuations in the timing and size of expenditures to vendors, and the timeliness of payments from agencies. Note: this is federal cash and is obligated for specific agency projects allowable by specific federal grants as outlined in federal grant agreements.
Other Notes	N/A

Totals include Non-Counts.

FUND NAME: Office of Administration Revolving Administrative Trust Fund

FUND NUMBER: 1505

Fund Purpose	As established by RSMo 37.005(10), this fund receives moneys transferred or paid in return for goods or services provided by the Office of Administration to any governmental entity or to the general public.
Explanation of Unexpended Appropriation Amount	This is a revolving fund with various appropriations that are used by OA to provide statewide goods and services. OA monitors these appropriations yearly to ensure the state can continue to provide services as needed, at this time no reduction is sought. Approp Authority for Bid & Performance Refunds--this approp is only needed if a bidder submits a check for a security or performance deposit required on certain contracts issued by Purchasing. At this time, per bid language, the bidder has the option to submit a check or bond. Approp Authority for the \$5M Property Preservation Fund transfer would only be used to repair or replace certain state-owned or leased property damaged from natural or man-made events.
Explanation of Other Amounts	N/A
Explanation of Outstanding Projects	N/A
Explanation of Cash Flow Needs	The current fund balance represents capital necessary to manage the business operation. This includes the regular maintenance and refresh of equipment used to produce the services provided to state agencies. This is a revolving fund, and payments from the fund are supported by charges to using agencies for services rendered by the Office of Administration. The purpose of this fund is to allow for the central purchasing of products/services by OA such as central printing, fleet management, facilities management, mail services, training, and the subsequent billing of state agencies that benefit from these services. All state departments that utilize OA services are billed based on cost allocation. The state departments reimburse Fund 0505 for their share of costs using funds in their budgets which include federal funds, other funds, and general revenue funds. Any cash in the fund is obligated for the purposes that state agencies were charged for. Some cash balance is necessary due to fluctuations in the timing and size of expenditures to vendors and the timeliness of receiving payments from agencies.
Other Notes	As a revolving fund, payments from the fund are supported by charges to using agencies for services rendered by the Office of Administration. The purpose of this fund is to allow for the central purchasing of products/services by OA such as central printing, fleet management, facilities management, mail services, training, and the subsequent billing of state agencies that benefit from these services. FUND FINANCIAL SUMMARY**

DEPARTMENT: OA

FUND NAME: Childrens Trust Fund

FUND NUMBER: 1694

Explanation of Unexpended Appropriation Amount	Unexpended appropriations sometimes occur due to the timing of when grants are received and when funding is distributed.
Explanation of Other Amounts	N/A
Explanation of Outstanding Projects	N/A
Explanation of Cash Flow Needs	The CTF fund is a "revolving fund" where prior year cash balances are needed to supplement other funding sources in future years to ensure that there is enough cash to support ongoing appropriations. CTF's fiscal policy is to target a \$2 million fund balance from year to year to ensure that there is enough available funding to finish out multi-year award projects. In any given year there are grants that CTF has obligated/awarded to community-based organizations that have not yet been paid. Revenues into the fund are sometimes variable and a cash balance is also needed to ensure that there is enough funding to cover salary, fringes, and other normal monthly payments from the fund.
Other Notes	Exempt from the provisions of Section 33.080, RSMo. Until the amount in the Children's Trust Fund exceeds one million dollars, not more than one-half of the money deposited in the Children's Trust Fund each year from contributions made under Section 143.1000, plus all earnings from the investment of moneys in the trust fund credited during the previous fiscal year, shall be available for disbursement by the board in accordance with Sections 210.170 to 210.173 and Section 143.1000. When the State Treasurer certifies that the assets in the Children's Trust Fund exceed one million dollars, then, from that time on, all credited earnings plus all future annual deposits to the fund from contributions made under Section 143.1000 shall be available for disbursement by the board within the limits of appropriations and for the purposes provided by Sections 210.170 to 210.173 and Section 143.1000. The General Assembly may appropriate moneys annually from the Children's Trust Fund to the Department of Revenue to pay the costs incurred for collecting and transferring funds under Section 143.1000 and to the Office of Administration to pay the expenses incurred by the Office of Administration for budgetary, procurement, accounting, and other related management functions performed by it and to pay the expenses of members of the board and the salary of the executive director. Except as provided in Subsection 5 of 210.173, funds appropriated by the General Assembly from the Children's Trust Fund shall only be used by the board for purposes authorized under Sections 210.170 to 210.173 and Section 143.1000 and shall not be used to supplant any existing program or service.

**STATE OF MISSOURI
FUND FINANCIAL SUMMARY**

DEPARTMENT: OA

FUND NAME: Missouri Revolving Information Technology Trust Fund

FUND NUMBER: 1980

Revenue Source	Revenue to the Missouri Revolving Information Technology Trust Fund (Fund 0980) comes from monthly, quarterly & annual billings to state entities that utilize ITSD's services and equipment. Monies deposited into the fund come from General Revenue, Federal Funds and Other Funds. Funds may be deposited on a daily basis. In addition, a 1% fee is being imposed on statewide contract transactions beginning in FY 2015 that vendors pay quarterly. Revenue received via the statewide contract fee is being deposited into this fund and will be transferred to the eProcurement and State Technology Fund when needed
Fund Purpose	This account contains moneys transferred or paid to the Office of Administration by any state agency in return for information technology expenses to ensure the proper use and operation of any information technology equipment, software, or systems. Personal service and/or expense and equipment is used for such things as a centralized telephone billing system, data processing, and other IT related services. In addition, the 1% fee on contract transactions are collected into this fund until there is a need to transfer (Appropriation T979) funds from this fund to Fund 0495 as expenditures occur for the statewide eProcurement system.
Explanation of Unexpended Appropriation Amount	This is a revolving fund and does not generate a profit or loss. It is reviewed annually by the federal Department of Health and Human Services. The appropriation allows ITSD to purchase IT services and equipment which is then billed to State departments. Departments repay ITSD with their E&E appropriations.
Explanation of Other Amounts	None
Explanation of Outstanding Projects	N/A
Explanation of Cash Flow Needs	This is a revolving fund and does not generate a profit or loss. ITSD bills state agencies for statewide data center costs and telecom costs through this fund with a typical average monthly spend of over \$8 million. In addition to paying some salaries and fringe payments from this fund, there are also vendor payments for software and equipment that are billed to state agencies but are not paid out evenly throughout the year as a result of contract renewals and equipment refresh cycles. While billing for these costs occurs monthly, it can take 1-3 months for all the accounts to be fully received and ITSD needs cash on hand to make vendor payments and run payroll. As a result it is not uncommon for ITSD to operated with 90 days worth of cash needs in the fund.

**STATE OF MISSOURI
FUND FINANCIAL SUMMARY**

DEPARTMENT: Agriculture

FUND NAME: Agriculture Protection Fund

FUND NUMBER: 1970

Revenue Source	The Ag Protection fund (0970) has two primary revenue sources. Wine tax revenues (Section 311.550, RSMo) accounted for approximately 40% of total revenues in FY20 and are used to support the Director's Office, the Division of Ag Business Development, and the State Fair. The other 60% of revenues to the APF are from division fees (Section 261.200) and are used to cover operating costs of the divisions collecting the fee (Plant Industries; Weights, Measures and Consumer Protection; Grain Regulatory Services; Animal Health).
Fund Purpose	In total, seven different MDA divisions utilize APF funding to cover a portion of their operating costs. Per Section 311.550, the wine tax portion of the APF is used solely for agricultural business development and marketing related functions of the Department of Agriculture (i.e. Director's Office, Ag Business Development, State Fair). Per Section 261.200, the fee revenue portion of the fund is used solely by the Department of Agriculture for the purpose of carrying out its functions and responsibilities and for the administration of the program from which the fee was collected (i.e. Plant Industries; Weights, Measures and Consumer Protection; Grain Regulatory Services; Animal Health).
Explanation of Unexpended Appropriation Amount	Estimated appropriations exceed revenues, so some vacancies cannot be filled and expenses must be curtailed until revenues increase.
Explanation of Other Amounts	-
Explanation of Outstanding Projects	-
Explanation of Cash Flow Needs	Cash flow is based on two month's average expenditures in the previous fiscal year.
Other Notes	-

Totals include Non-Counts.

FUND FINANCIAL SUMMARY**

DEPARTMENT: DNR

FUND NAME: Volkswagen Environmental Mitigation Trust Proceeds Fund

FUND NUMBER: 1268

Revenue Source	In 2016, the federal government settled complaints against Volkswagen AG, et al. Pursuant to the federal settlement, Volkswagen is required to fund an approximate \$2.9 billion Environmental Mitigation Trust to provide impacted states, tribes, and U.S. territories with funds to implement actions that will mitigate the harms caused by the pollution resulting from Volkswagen selling vehicles with emissions defeat devices. Missouri's initial allocation from the Trust is approximately \$41 million.
Fund Purpose	The Department will administer these funds to reimburse individuals, companies, governments, or other entities for projects eligible under Missouri's beneficiary mitigation plan to reduce air pollution from mobile sources.
Explanation of Unexpended Appropriation Amount	N/A
Explanation of Other Amounts	N/A
Explanation of Outstanding Projects	N/A
Explanation of Cash Flow Needs	N/A
Other Notes	Revenues and expenditures began in FY 2019. The Department expects to fully draw and spend the remaining trust funds by the end of FY 2026. Due to timing differences of the awards, grantee expenditures, and reimbursements from the Department, it is possible that some funds may be drawn from the trust, but not expended from the fund until the following fiscal year.

Totals include Non-Counts.

FUND NUMBER: 1415

Explanation of Unexpended Appropriation Amount	Capital Improvement appropriations have been provided at a level that allows for encumbrance and payment of our commitments which often span multiple fiscal years causing high unexpended balances. Other unexpended balances result from staff turnover and operating or contractual expense and equipment, and cost allocation lapses.
Explanation of Other Amounts	N/A
Explanation of Outstanding Projects	Amounts reflect the next year's projected Capital Improvement (CI) spending. The projected ending cash balance in conjunction with future revenues will be used to fund these CI projects (which spend over multiple fiscal years) as well as park operations.
Explanation of Cash Flow Needs	N/A
Other Notes	Beginning in FY 2022, each fiscal year includes an approximate \$3.8 million debt service payment related to a \$60 million revenue bond sale. Additional revenue generation from these projects is expected to begin by FY 2025.

Totals include Non-Counts.

**STATE OF MISSOURI
FUND FINANCIAL SUMMARY**

DEPARTMENT: DNR

FUND NAME: Petroleum Storage Tank Insurance Fund

FUND NUMBER: 1585

Revenue Source	Primary revenue source is the transport load fee, assessed on all petroleum coming into Missouri for use in the state and collected by Department of Revenue. As of January 1, 2023, the fee was increased from \$28 to \$32 per 8,000 gallons. Participation fees, which range from \$100 to \$200 per tank, are also charged and deposited into the fund. Interest earnings also accrue to the fund. Reference(s): Sections 319.129, 319.132, 319.133, RSMo.
Fund Purpose	Reasonably-priced alternative for owners of aboveground and underground tanks to comply with state and federal requirement to have a "financial responsibility mechanism" to pay for cleanup of petroleum releases from tanks and required coverage for third party claims involving property damage or bodily injury. Also provides funding for cleanup of certain historic petroleum releases.
Explanation of Unexpended Appropriation Amount	Unexpended appropriation is primarily due to contractual E&E and claims pass-through lapses. The pass-through appropriation is set at a level to assure adequate appropriation authority to respond to all claims submitted.
Explanation of Other Amounts	N/A
Explanation of Outstanding Projects	The FY 2024 Outstanding Projects amount of \$90,853,274 reflects the short-term and long-term claim liabilities of posted in the SAM II system as of fiscal year end. The FY 2025 and FY 2026 Outstanding Project amounts represent the previous year's outstanding projects amount less the current year projected claim payments.
Explanation of Cash Flow Needs	N/A
Other Notes	<p>Legislation in 2022 extended the expiration of the fund to December 31, 2030.</p> <p>If, at the end of any quarter, the fund balance is above \$100 million, the board shall suspend the collection of the transport load fee. If, at the end of any quarter, the fund balance is below \$20 million, the board shall reinstate the collection of the transport load fee.</p>

Revenue Source

Primary revenue sources are fees paid by shippers of high-level and low-level radioactive waste, transuranic radioactive waste, spent nuclear fuel, or highway route controlled quantity shipments for transport through or within the state by rail or truck. Reference(s): Section 260.392, RSMo.

Totals include Non-Counts.

FUND FINANCIAL SUMMARY**

DEPARTMENT: DNR

FUND NAME: Environmental Radiation Monitoring Fund

FUND NUMBER: 1656

Fund Purpose	The fund shall be used for purposes related to the shipment of high-level radioactive waste, transuranic radioactive waste, highway route controlled quantity shipments, spent nuclear fuel, or low-level radioactive waste.
Explanation of Unexpended Appropriation Amount	Cash availability causes appropriation lapse in the fund.
Explanation of Other Amounts	N/A
Explanation of Outstanding Projects	N/A
Explanation of Cash Flow Needs	N/A
Other Notes	An unencumbered balance greater than \$300,000 is to be returned to shippers. During the 2012 legislative session, a statutory change revised the fee for high-level radioactive wastes from "per cask" to "per truck". The number of shipments (and therefore, revenue) has been declining in recent years. The revenue resulting from the revision is not sufficient to maintain the activity level of previous years.

Totals include Non-Counts.

**STATE OF MISSOURI
FUND FINANCIAL SUMMARY**

DEPARTMENT: DNR

FUND NAME: Hazardous Waste Fund

FUND NUMBER: 1676

Revenue Source	Primary revenue sources are hazardous waste fees (generator registration, tonnage fee, out-of-state fee, land disposal fee, and lead-acid battery fee) and brownfields voluntary cleanup cost recovery, as well as other cost recovery when a responsible party can be identified. This fund also receives General Revenue transfers appropriated to meet the state's 10% match obligations for remedial actions and 100% of operations and maintenance (O&M) for sites under Superfund state contracts. Reference(s): Sections 260.262, 260.370, 260.380, 260.395, 260.475, RSMo.
Fund Purpose	This fund is used to carry out the provisions of Sections 260.350 - 260.430, RSMo, Hazardous Waste Management, for the management of hazardous wastes, response to hazardous substance releases as provided in Section 260.500 - 260.550, RSMo, Hazardous Waste Cleanup, corrective actions at regulated facilities, and illegal hazardous waste sites.
Explanation of Unexpended Appropriation Amount	The majority of the unexpended appropriation is pass-through authority related to cleanup and management of hazardous wastes and substances. Current fee revenues are projected to be insufficient to fully fund the state's hazardous waste appropriations. The Department conducted stakeholder discussions in 2019 and 2020, and plans to initiate further discussions in the future.
Explanation of Other Amounts	N/A
Explanation of Outstanding Projects	<p>The Outstanding Projects line includes settlements, Leaking Underground Storage Tank (LUST) trust, and voluntary cleanup program monies held in reserve which can only be used for those activities or held in reserve for long-term operations and maintenance (O&M) at specific settlement sites.</p> <p>Balances consist of: Voluntary Cleanup Program approx. \$139 thousand, various settlements ranging from \$3.0 million to \$3.6 million, and superfund obligations/O&M approx. \$329 thousand.</p>
Explanation of Cash Flow Needs	The majority of the hazardous waste fee revenues are received in December and January, therefore one-half of the following fiscal year's operational expenditures are shown as cash flow needs.
Other Notes	Pursuant to Section 260.380(10)(d), RSMo, a revised fee structure became effective January 1, 2017. Projections include revenue reductions resulting from Red Tape rule revisions effective March 31, 2019. The remaining balance, in conjunction with future revenues, is needed to maintain operations through further evaluation and possible modification of the fee structure's overall and individual components, including the lead-acid battery fee. The battery fee currently sunsets December 31, 2029 (FY 2030).

**STATE OF MISSOURI
FUND FINANCIAL SUMMARY**

DEPARTMENT: Department of Natural Resources

FUND NAME: Abandoned Mine Reclamation Fund

FUND NUMBER: 1697

Fund Purpose	This fund shall be used to carry out the functions of Section 444.810, RSMo, including reclamation of lands mined prior to August 3, 1977.
Explanation of Unexpended Appropriation Amount	The Department is currently funding abandoned mined land grant activities through the Federal Fund (0140), therefore the minimal appropriations on this fund lapse.
Explanation of Other Amounts	N/A
Explanation of Outstanding Projects	This funding will be needed for phase-out costs once the Abandoned Mine Land federal grant funds are no longer available. Beginning in FY 2020, a portion of the Abandoned Mine Land grant has been set aside in this fund; projects are expected to include reclamation of acid mine drainage problems that currently exist in Missouri's abandoned mine land inventory.
Explanation of Cash Flow Needs	N/A
Other Notes	As of January 2025, the AML BIL federal grant program is paused. The department has received two awards in FY 2024 and one in FY 2025 and expects to deposit federal BIL/STREAM Act monies into the fund as each grant application is approved. However, since timing is uncertain, additional revenues and cash flow needs in FY 2025 and FY 2026 are not reflected above.

Totals include Non-Counts.

**STATE OF MISSOURI
FUND FINANCIAL SUMMARY**

DEPARTMENT: DNR

FUND NAME: Storm Water Loan Revolving Fund

FUND NUMBER: 1754

Fund Purpose	The fund is used to provide grants or loans for stormwater control plans, studies, and projects in counties of the first classification and in any city not within a county in an amount equal to the percentage ratio that the population of the recipient county or city bears to the total population of all counties of the first classification and cities not within a county as determined by the last decennial census. Funds further allocated and initially offered to any city with a population of at least twenty-five thousand inhabitants located in such counties of the first classification in an amount equal to the percentage ratio that the city's population bears to the total population of the county. After the initial offers have been made, any remaining funds may be reallocated to recipients of the initial offer who have eligible projects for such funds, allocated in an amount equal to the percentage ratio that the population of the eligible recipient bears to the total population of all other eligible recipients with remaining eligible projects.
Explanation of Unexpended Appropriation Amount	The department awarded \$2,414,979 in the form of grants during FY 2021. Funds have a draw period of two years after award date. No further grants are anticipated to be offered during FY 2025 or FY 2026. The department estimates the need for a fund balance of at least \$10 million before a loan offering could be made.
Explanation of Other Amounts	N/A
Explanation of Outstanding Projects	Until a loan offering can be made (once the fund balance reaches at least \$10 million), \$523,563 of the projected ending cash balance will be used to fund one ongoing project from the 2021 loan and grant offering and has therefore been reflected as an outstanding project.
Explanation of Cash Flow Needs	The remaining ending cash balance in conjunction with future revenues has been reflected as Cash Flow Needs.
Other Notes	N/A

Totals include Non-Counts.

**STATE OF MISSOURI
FUND FINANCIAL SUMMARY**

DEPARTMENT: Department of Natural Resources

FUND NAME: Multipurpose Water Resource Program Fund

FUND NUMBER: 1815

Explanation of Unexpended Appropriation Amount	Projects for development under the Multipurpose Water Resource Program Fund are typically multi-year projects. The appropriated investment will continue strides toward ensuring water supply access in Missouri communities by expediting development and support for important water resource projects, setting the stage for critical infrastructure and economic development in key parts of our state.
Explanation of Other Amounts	N/A
Explanation of Outstanding Projects	<p>Outstanding Project amounts (\$19 million, \$19 million, \$4 million) reflect the following year's planned spending based on existing award agreements (that include scope of work and timelines) and the department's current understanding of individual project statuses.</p> <p>Current Projects: Roy Blunt (East Locust Creek) Reservoir Little Otter Creek Reservoir Tri-State Water Resource Coalition (Stockton Lake) Additional Projects (City of Harrisonville, City of Moberly, Lake Viking, Macon)</p> <p>Although DNR has a general idea of the needs of each of these projects, the requests for funding for specific elements of the projects are dependent upon a number of factors beyond the state's control, such as timing of federal loan awards; timing of required federal permits; acquisition of resources (land/infrastructure); federal authorization of water storage reallocation; completion of current or future engineering planning; construction timing; etc. While this may not be a comprehensive list, it represents the more obvious factors that dictate when projects apply for funding.</p>
Explanation of Cash Flow Needs	Cash Flow Needs include remaining balances as funds are obligated to current and future water projects pursuant to the fund's purpose.
Other Notes	The fund was established in the 2013 legislative session.

Totals include Non-Counts.
