**STATE OF MISSOURI
FUND FINANCIAL SUMMARY**

DEPARTMENT: Department of Natural Resources

FUND NAME: Energy Futures Fund

FUND NUMBER: 1935

Revenue Source	The primary source of the Energy Futures Fund (EFF) is repayment of principal and interest from the American Recovery and Reinvestment Act (ARRA) loans. Other sources include funds received from investor-owned utilities via cooperative agreements for the Building Operators Certification program and certain LIHEAP funds for PS & E&E. Additionally, funds received from out of the ordinary sources that do not fit into other categories are placed into this fund. For example, the Division of Energy was awarded over \$14.6 million of ARRA funds for schools and local government loans and waste water energy loans from the Department of Natural Resources' ARRA Fund (2280). As the principal and interest is paid back, those funds are to be utilized for energy efficiency revolving loan purposes. Due to the repayments of the original projects, the fund balance may increase until new loans are awarded.
Fund Purpose	The EFF was created to accommodate the receipt of American Recovery and Reinvestment Act (ARRA) funds as well as monies received from 'out of the ordinary' sources that do not fit into other existing fund categories such as gifts, donations or additional money from the federal government. More specifically, the EFF currently serves three functions including receiving repayment and reissuance of loans through the ARRA revolving loan program, the receipt investor-owned utilities funds via cooperative agreements to administer the Building Operator Certification (BOC) program, and to receive and process certain LIHEAP funds for PS & E&E. The majority of the funds found in this account constitute the principal and interest repayment of ARRA-sourced loans, due to the repayments of the original projects, and are encumbered for the purposes of administering the revolving loan program.
Explanation of Unexpended Appropriation Amount	The unexpended balance in conjunction with future revenues are considered encumbered in accordance with US DOE guidelines due to the nature of maintaining and operating a revolving loan fund and will be used to award additional revolving loans. Separately deposited monies were designated to provide funding for the BOC program. The entities that receive loans are not required to begin the repayment process for up to 18 months after the award, depending upon completion of the project. Depending on when the repayments start, the unexpended balance will decrease. Nearly all unexpended appropriation relates to the pass-through program, including \$2 million provided for encumbrance purposes only, which must lapse.

FUND NAME: Community Development Block Grant Pass Through Fund

FUND NUMBER: 1118

Revenue Source	The source is annual federal appropriation from Congress to the U.S. Department of Housing and Urban Development (HUD) which is then allocated to states and "entitlement" communities through a statutory formula ("block grant"). States share 30% of the appropriation and entitlements share 70%. The formula for allocation to the states is based on population, poverty, and housing demographics. Congress approves a federal budget each year and the Community Development Block Grant (CDBG) allocation to HUD differs from year to year for each state.
Fund Purpose	The purpose of the CDBG fund is to allow the DED to accept federal grants from HUD. These grants are provided to non-entitlement cities and counties for community development activities that: (1) benefit at least 51% low and moderate income persons; (2) eliminates blight; or (3) meet urgent threats to health and safety. Typical projects include infrastructure expansion and improvements (water, sewer, bridge, street, drainage), downtown revitalization, housing rehabilitation, housing finance, accessibility improvements to comply with Americans with Disabilities act, and community facility projects.
Explanation of Unexpended Appropriation Amount	The types of projects that CDBG funds to local governments are typically two and three year construction projects. Grantees do not access CDBG funds by lump sum drawdown, but rather through an agreement and a "line of credit" where funds are drawn after expenses are incurred. Therefore, given the time to project completion, unexpended, but obligated, funds appear annually in the budget process.
Explanation of Other Amounts	NA
Explanation of Outstanding Projects	NA
Explanation of Cash Flow Needs	NA
Other Notes	<p>The program is a formula block grant provided to the State of Missouri - 70% of which is provided to the entitlement cities and 30% of which is provided to the non-entitlement balance of the state. The 30% portion is administered by the DED. The federal statute creating CDBG funding is the Housing and Community Development Act of 1974. The federal statute creating the Neighborhood Stabilization Program is the Housing and Economic Recovery Act of 2008.</p> <p>There are hundreds of projects in various stages of completion that have been awarded funds under the CDBG program. Since projects occur at different timing intervals (environmental review period, construction timelines, job ramp up timelines, etc.) the funds must be available at the point that each community submits its draw request to DED. However, it is unlikely that a request would be received at the same time from all outstanding projects.</p>

Totals include Non-Counts.

Revenue Source	The revenue source is an annual federal appropriation from Congress to the U.S. Department of Housing and Urban Development (HUD) which is then allocated to states and "entitlement" communities through a statutory formula ("block grant"). States share 30% of the appropriation and entitlements share 70%. The formula for allocation to the states is based on population, poverty, and housing demographics.
Fund Purpose	The purpose of the Community Development Block Grant (CDBG) is to pay for the costs of administering the CDBG program at the State. HUD allows for a percentage of the annual allocation plus a state match requirement to be used for staff salaries and expense and equipment. These grants are provided to non-entitlement cities and counties for community development activities that: 1) benefit at least 51% low and moderate income persons; 2) eliminates blight; or 3) meets urgent threats to health and safety. Typical projects include infrastructure expansion and improvements (water, sewer, bridge, street, drainage), downtown revitalization, housing rehabilitation, housing finance, accessibility improvements to comply with Americans with Disabilities Act, and community facility projects.
Explanation of Unexpended Appropriation Amount	CDBG typically funds projects for local governments that are two and three year construction projects. Grantees do not access CDBG funds by lump sum drawdown, but rather through an agreement and a "line of credit" where funds are drawn after expenses are incurred. Therefore, given the time to project completion, unexpended, but obligated, funds appear annually in the budget process. The administration funds are supposed to be enough to cover the project oversight through its completion (not just one year).

Other Notes	<p>The program is a formula block grant provided to the State of Missouri - 70% of which is provided to the entitlement cities and 30% of which is provided to the non-entitlement balance of the state. The 30% portion is administered by the DED. Since projects occur at different timing intervals (environmental review period, construction timelines, job ramp up timelines, etc.) the funds must be available at the point that each community submits its draw request to DED and DED must have access to the administration funding to continue the project oversight responsibilities. There are hundreds of projects in a variety of stages of completion that have been awarded funds under the CDBG program. Therefore, administration and oversight of those projects is on-going.</p> <p>The federal statute creating CDBG funding is the Housing and Community Development Act of 1974. The federal statute creating the Neighborhood Stabilization Program is the Housing and Economic Recovery Act of 2008.</p>

FUND NAME: Community Service Commission Fund

FUND NUMBER: 1197

Revenue Source	<p>Per the National and Community Service Act of 1993; HR4854 the Missouri Community Service Commission (MCSC) receives an annual allocation of federal funding for AmeriCorps projects (by application) from the Corporation for National and Community Service (CNCS) which is appropriated by Congress, annually. The MCSC also applies for "competitive" rounds of funding from NCCS which allows for additional Missouri AmeriCorps activities.</p> <p>Beginning in FY2025, American Rescue Plan Act (ARPA) funding will be transferred directly into this fund.</p>
Fund Purpose	<p>The purpose of the Community Service Commission Fund is to accept appropriations by the General Assembly, gifts, contributions, grants, bequests or other aid from federal and private sources. The funds are used to support the Missouri Community Service Commission, which promotes volunteerism and community service. The commission staff administers National Community Service Programs including AmeriCorps, that are designed to engage citizens in education, public safety, environment and human needs services by fostering their civic responsibility and the ethic of participation in local community betterment.</p>
Explanation of Unexpended Appropriation Amount	<p>The MCSC budget is based upon the federal fiscal year which may cause funding to remain "unexpended" when compared to the state fiscal year. There is also an opportunity for multi-year projects awarded to grantees which may also indicate a balance when the states budget documents are prepared.</p>
Explanation of Other Amounts	NA
Explanation of Outstanding Projects	NA
Explanation of Cash Flow Needs	NA
Other Notes	<p>There is a \$1 for \$1 match requirement of the administrative portion of the funds. Qualifying organizations must provide match based on the amount of funds sub granted from MCSC starting at 24% in the first 3 years, gradually increasing to a 50% maximum.</p>

Totals include Non-Counts.

FUND NAME: Missouri Housing Trust Fund

FUND NUMBER: 1254

Fund Purpose	The Missouri Housing Trust Fund (MHTF) was created by the State Legislature in 1994 to financially assist the development of housing stock and to provide housing assistance to low-income persons and families. As the statutorily designated administrator of the MHTF, MHDC utilizes a competitive application process to grant funds to agencies, typically non-profits, that provide direct assistance to low-income persons and families; including rent and utility assistance, and home repairs/modifications. The MHTF works in collaboration with other programs to reduce, eliminate and prevent homelessness. MHDC will use two percent of the net annual revenues received from the fund to pay a portion of the costs incurred for the administration of this program.
Explanation of Unexpended Appropriation Amount	The Unexpended Appropriation line represents the difference between the appropriation amount and the amount transferred to MHDC; because the MHTF is funded through the collection of recording fees, MHDC may only spend the amount collected.

**STATE OF MISSOURI
FUND FINANCIAL SUMMARY**

DEPARTMENT: DED

FUND NAME: Missouri One Start Job Development Fund

FUND NUMBER: 1600

Fund Purpose	The Missouri One Start Job Development Fund provides training assistance to eligible businesses to retrain workers in existing jobs or train workers in newly created jobs. This training assistance ensures business viability and success in the new economy. The funds allow businesses to train their workers, thereby upgrading their skills.
Explanation of Unexpended Appropriation Amount	There is a 3% reserve on the General Revenue Transfer which makes it less than the spending authority appropriation.
Explanation of Other Amounts	NA
Explanation of Outstanding Projects	The outstanding projects amount is a combination of the following two items. First, a fund balance is maintained for "late" training bills that extend beyond or are submitted after the SAMII shutdown date. The payment documents are not processed until mid-July with those bills being reflected in the current fiscal period rather than the prior fiscal year. Second, occasionally a project(s) may have unanticipated low expenditures, which means a company may experience unplanned delays in hiring, training, or adding a new dependent.
Explanation of Cash Flow Needs	NA
Other Notes	NA

Totals include Non-Counts.

**STATE OF MISSOURI
FUND FINANCIAL SUMMARY**

DEPARTMENT: DED

FUND NAME: State Supplemental Downtown Development Fund

FUND NUMBER: 1766

Revenue Source	The statute provides for the ability to capture 50% of the state net new sales and withholding taxes generated inside an approved redevelopment area (downtown) for approved projects and divert those taxes back to the project to pay eligible redevelopment costs. Typically, notes are bonds (local, not state) which are issued at a point in the beginning of the project to pay for the redevelopment costs and the net new taxes are diverted for up to 25 years to pay off those local notes or bonds.
Fund Purpose	To assist in the revitalization of urban downtowns in the state. The fund is used to capture the state economic activity (net new local and state taxes) generated as a result of a planned redevelopment within a downtown area approved under the Missouri Downtown Economic Stimulus Act (99.915-99.980, RSMo). A portion of the net new state and local taxes are then used to fund eligible redevelopment costs that includes public infrastructure necessary to generate reuse of the properties.
Explanation of Unexpended Appropriation Amount	Annually, DED must estimate the amount of sales and withholding taxes and sales taxes that may be generated in the redevelopment area for the coming year in order to establish the request for the appropriation. Occasionally, the estimates are high, or projects do not perform as well as estimated; therefore, the funds may lapse. GR Transfer includes 3% reserve.
Explanation of Other Amounts	NA
Explanation of Outstanding Projects	NA
Explanation of Cash Flow Needs	NA
Other Notes	The increment to be generated each year is projected based on anticipated economic activity within the recognized Central Business District. The 2 active projects are: 1) Kansas City Live! and 2) Ballpark Village. The projects are scheduled to divert state taxes for a total of 25 years.

Totals include Non-Counts.

**STATE OF MISSOURI
FUND FINANCIAL SUMMARY**

DEPARTMENT: DED

FUND NAME: Missouri Supplemental Tax Increment Financing Fund

FUND NUMBER: 1848

Revenue Source	The statute provides for the ability to capture 50% of the state net new sales or withholding taxes generated inside an approved redevelopment area (blighted, economic development area) for approved projects and divert those taxes back to the project to pay eligible redevelopment costs. Typically, notes are bonds (local, not state) which are issued at a point in the beginning of the project to pay for the redevelopment costs and the net new taxes are diverted for up to 23 years to pay off those local notes or bonds.
Fund Purpose	To assist in the redevelopment of blighted areas. The fund is used to capture the state economic activity (net new taxes) generated as a result of a planned redevelopment within an approved project area. The net new taxes are then used to pay the debt service on the bonds issued for eligible redevelopment costs that includes public infrastructure necessary to generate reuse of the properties.
Explanation of Unexpended Appropriation Amount	Annually, DED must estimate the amount of sales or withholding taxes and sales taxes that may be generated in the redevelopment area for the coming year in order to establish the request for the appropriation. Occasionally, the estimates are high, or projects do not perform as well as estimated, therefore the funds may lapse. GR Transfer includes a 3% reserve.
Explanation of Other Amounts	NA
Explanation of Outstanding Projects	NA
Explanation of Cash Flow Needs	NA
Other Notes	The increment to be generated each year is projected based on anticipated economic activity within the recognized redevelopment area.

Totals include Non-Counts.

**STATE OF MISSOURI
FUND FINANCIAL SUMMARY**

DEPARTMENT: DED

FUND NAME: Downtown Revitalization Preservation Fund

FUND NUMBER: 1907

Revenue Source	To assist in the revitalization of downtowns in the state (the program was developed as a companion to MODESA for rural communities). The fund is used to capture the state economic activity (net new local and state sales tax only) generated as a result of a planned redevelopment within a downtown area approved under the Missouri Downtown Economic Stimulus Act (99.915-99.980, RSMo). A portion of the net new state sales and local sales taxes are then used to fund eligible redevelopment costs that includes public infrastructure necessary to generate reuse of the properties.
Fund Purpose	To assist with the redevelopment of downtowns in the state. To account for moneys generated annually by redevelopment projects and then used to reimburse cities for projects approved by the Department of Economic Development.
Explanation of Unexpended Appropriation Amount	Annually, DED must estimate the amount of sales and withholding taxes and sales taxes that may be generated in the redevelopment area for the coming year in order to establish the request for the appropriation. Occasionally, the estimates are high, or projects do not perform as well as estimated, therefore the funds may lapse. GR Transfer includes 3% reserve.
Explanation of Other Amounts	NA
Explanation of Outstanding Projects	NA
Explanation of Cash Flow Needs	NA
Other Notes	The county may opt out of this program where that is not a choice under TIF or MODESA and no local property taxes are included with this program. The increment to be generated each year is projected based on anticipated economic activity within the recognized Central Business District. The two current projects are: (1) College Station/Heer's Tower; and (2) Hannibal Clemens Redevelopment. The projects are scheduled to divert state sales tax for a total of 23 years.

Totals include Non-Counts.

**STATE OF MISSOURI
FUND FINANCIAL SUMMARY**

DEPARTMENT: DED

FUND NAME: Department of Economic Development Federal Stimulus Fund

FUND NUMBER: 2360

Revenue Source	The source is a federal appropriation from Congress to the U.S. Department of Housing and Urban Development (HUD) under the CARES Act Stimulus Funds, which is then allocated to states and "entitlement" communities through a statutory formula ("block grant"). This fund also receives federal grant funds from the U.S. Department of Commerce, National Telecommunications and Information Administration (NTIA), Broadband Infrastructure Program.
Fund Purpose	The purpose of the CDBG fund is to allow the DED to accept federal grants from HUD for CARES Act stimulus funds. The funds have mostly the same requirements as normal CDBG funds, but eligible projects must have a tieback to helping communities prevent, prepare for, and respond to COVID-19. Eligible categories include (1) public service activities; (2) special economic development assistance, including grants to small businesses; (3) infrastructure; and (4) grant administration and planning. The purpose of the Broadband Infrastructure Program to award funds for construction of high speed internet connections to underserved areas in the state.
Explanation of Unexpended Appropriation Amount	For the CDBG and NTIA, program funds are only drawn down as projects request the funds.

**STATE OF MISSOURI
FUND FINANCIAL SUMMARY**

DEPARTMENT: Commerce and Insurance

FUND NAME: Deaf Relay Service and Equipment Distribution Program Fund

FUND NUMBER: 1559

Revenue Source	Pursuant to Section 209.257 RSMo, local exchange telephone companies shall deduct and retain a percentage of a total surcharge amount collected each month to recover the billing, collecting, remitting and administrative costs attributed to the deaf relay service and equipment distribution program fund surcharge. All remaining deaf relay service and equipment distribution program fund surcharge money collected by local exchange telephone companies shall be remitted to the Public Service Commission (PSC), who shall use such money exclusively to fund the programs provided for in Section 209.253, but shall be applicable by appropriation of the General Assembly to the payment of expenditures for the dual-party relay service and equipment distribution program in the succeeding fiscal year. The PSC shall determine the appropriate percentage to be deducted and retained and shall include this percentage as part of its order establishing the deaf relay service and equipment distribution program fund surcharge. The commission shall review such surcharge no less frequently than every two years but no more than annually and shall order changes in the amount necessary to assure available funds for the provision of the program established in Section 209.253 RSMo, and assure just and reasonable compensation for the local exchange telephone company. The commission may suspend the surcharge for a period deemed appropriate if excess funds are available. Revenues from the surcharge fees are received into the fund on a monthly basis.
Fund Purpose	The fund allows for reasonable access to telephone services through a statewide dual-party system, using third-party intervention to connect deaf, hearing-impaired and speech-impaired persons with telecommunication devices for the deaf (TDDs), the telephone system and Interconnected Voice over Internet Protocol (VoIP), making available reasonable, comparable access to phone service to eligible subscribers who are unable to use traditional phone equipment due to disability, as authorized by Section 209.253 RSMo, including expenses associated with the administration of the program or incurred by members of any advisory committee appointed by the commission to help it administer the program authorized by Section 209.253 RSMo.
Explanation of Unexpended Appropriation Amount	An unexpended appropriation amount is maintained to offset funding shifts that may occur due to changes initiated by the Federal Communications Commission (FCC).
Explanation of Other Amounts	N/A
Explanation of Outstanding Projects	N/A
Explanation of Cash Flow Needs	Cash flow needs are to maintain a balance to cover the personal services requirement for one month.

Totals include Non-Counts.

FUND NUMBER: 1559

Other Notes

Section 209.259 RSMo states the PSC shall review the Relay surcharge no less frequently than every two years but no more than annually. In June 2024, a Commission Order became effective that changed the Relay surcharge from \$.10 to \$.06. There is a balancing act in determining the surcharge. It must be set at an amount that will not reduce the size of the fund so fast that an increase in the surcharge will be needed in a couple years, but also maintain it at a rate such that there will be sufficient funds to cover unusual events. For the past few years, the FCC has indicated it plans to shift additional Relay costs to the states. The unexpended appropriation amount is needed because funding must be maintained in case this shift occurs; if they are, sufficient time should be allowed to accommodate state funding mechanism requirements.

FUND FINANCIAL SUMMARY**

DEPARTMENT: Commerce and Insurance

FUND NAME: Manufactured Housing Consumer Recovery Fund

FUND NUMBER: 1909

Revenue Source	Revenues for the manufactured housing consumer recovery fund are transferred from the manufactured housing fund which was created under Section 700.040 RSMo. The total amount in the manufactured housing consumer recovery fund shall not exceed thirty-two percent of the amount of the annual appropriation of the manufactured housing fund from the preceding fiscal year. Moneys in the manufactured housing consumer recovery fund may be transferred back to the manufactured housing fund by appropriation. Interest earned from the investment of moneys in the fund shall be credited to the fund. Notwithstanding the provisions of Section 33.080 to the contrary, moneys in the manufactured housing consumer recovery fund shall not be transferred to the credit of general revenue fund at the end of the biennium.
Fund Purpose	The manufactured housing consumer recovery fund was established in Section 700.041 RSMo for the purpose of paying unsatisfied consumer claims under procedures the Public Service Commission (PSC) has promulgated at 20 CSR 4240-126.010 to CSR 4240-126.020. Claims approved by the commission under law may be paid from the fund subject to appropriation. No claims shall be considered by the commission until all other legal remedies have been exhausted.
Explanation of Unexpended Appropriation Amount	Expenditures are paid only upon the advisory committee's approval of a consumer's claim. A consumer will file a claim in a unique case where the dealer, installer, and manufacturer, do not properly address the consumer's concerns and the consumer outlays additional funds for qualifying repairs, and all other legal remedies have been exhausted. These claims cannot be anticipated, so an unexpected appropriation amount allows for a timely response to consumer claims.
Explanation of Other Amounts	N/A
Explanation of Outstanding Projects	N/A
Explanation of Cash Flow Needs	N/A
Other Notes	The spending authority for the Consumer Recovery Fund allows for an appropriation amount of \$192,000, however, at this time the fund balance is approximately \$50,000. This difference creates a negative Budget Balance. A transfer of additional funds from the Manufactured Housing Fund (1582) to the Consumer Recovery Fund (1909) will be made when needed to allow for any additional disbursements from this fund.

Totals include Non-Counts.

Revenue Source

In compliance with its federal cost allocation plan, the department transfers monies into this fund from four funding sources: GR, Federal, Workers' Compensation and Special Employment Security funds. Quarterly transfers are made from these funds at the beginning of each state fiscal quarter.

**STATE OF MISSOURI
FUND FINANCIAL SUMMARY**

DEPARTMENT: DOLIR

FUND NAME: Department of Labor and Industrial Relations Administrative Fund

FUND NUMBER: 1122

Fund Purpose	The Director and Staff pays Personal Services and Expense & Equipment expenditures from this fund. OA-ITSD also pays staff and expenses from this fund. By using the Administrative Fund, the department complies with the federal cost allocation requirements more efficiently in payment and payroll processing and procurement. In fact, the Administrative Fund reduces data entry by at least 67%. Fiscal, payroll, and procurement staff can input one-line accounting distributions rather than 3-line entries, formerly entered on cost-allocated transactions. The appropriated transfers into the fund include monies for OA-ITSD.
Explanation of Unexpended Appropriation Amount	The unexpended appropriation amount is unused because only the amount expected to be expended is transferred. The Department maintains some excess authority to ensure there is adequate funding for fringe benefits and ITSD support. It also provides the Department with the ability to "ramp up" support services should there be a sudden spike in unemployment claims, requiring additional staffing in the Division of Employment Security. With any "ramp up", additional administrative services would also be necessary.
Explanation of Other Amounts	-
Explanation of Outstanding Projects	-
Explanation of Cash Flow Needs	The department needs to keep enough cash in the fund between fiscal years to pay one month's expenses. If expenses are less than expected, transfers in will be less than the appropriated amount.
Other Notes	The transfer appropriations include additional authority from federal funds and Workers' Compensation Fund as these programs are more likely to require additional direct support from the department or from ITSD. Money in this fund shall not be transferred and placed to the credit of general revenue until the amount in the fund at the end of the fiscal year exceeds one and one quarter times the appropriations from the fund for the preceding fiscal year.

Totals include Non-Counts.

FUND FINANCIAL SUMMARY**

DEPARTMENT: DOLIR

FUND NAME: Martin Luther King Jr State Celebration Commission Fund

FUND NUMBER: 1438

Revenue Source	The fund consists of monies received in contribution for use of the Martin Luther King, Jr. "DARE TO DREAM" specialty license plate, as well as monies received from grants, gifts, bequests, the federal government, and other sources. Monies from the sale of license plates will be deposited to the fund whenever the transactions occur. Other revenues will be deposited into the fund when received. Revenues into the fund are sporadic and unpredictable
Fund Purpose	Section 301.3165, RSMo, authorized the Martin Luther King, Jr. "DARE TO DREAM" license plates. The legislation also creates the Martin Luther King Jr. State Celebration Commission Fund to collect the revenue generated by the sale of these plates and other monies received from grants, gifts, bequests, the federal government, and other sources. The fund shall be used solely for the purpose of funding appropriate activities for the recognition and celebration of Martin Luther King, Jr. Day in Missouri.
Explanation of Unexpended Appropriation Amount	It is difficult to predict the amount that will be donated each year. The original appropriation was set at a reasonable level based on potential donations after citizens become aware of the license plate availability. Until that time, there will be unexpended appropriation authority remaining when receipts are less than \$5,000.

**STATE OF MISSOURI
FUND FINANCIAL SUMMARY**

DEPARTMENT: Labor and Industrial Relations

FUND NAME: Tort Victims Compensation Fund

FUND NUMBER: 1622

Revenue Source	Revenue into the Tort Victims' Compensation Fund is generated by a portion of moneys paid as punitive damages in civil lawsuits in Missouri. Pursuant to section 537.675, RSMo, any party receiving a judgment final for purposes of appeal for punitive damages in any case filed in any division of any circuit court of Missouri shall notify the attorney general of such award. Missouri shall have a lien for deposit into this fund for 50% of punitive damages attached to any such case after deducting attorney fees and expenses. Revenue is deposited into the fund as punitive damages are paid; however, these amounts are unpredictable.
Fund Purpose	This fund helps compensate those who have been injured due to the negligence or recklessness of another and who have been unable to obtain full compensation for reasons specified in 537.675, RSMo. Twenty-six percent of all receipts into the fund and all interest revenues are transferred to the Basic Civil Legal Services Fund. The remaining seventy-four percent of all payments received by the fund are appropriated to the Division of Workers' Compensation to assist uncompensated and undercompensated tort victims.
Explanation of Unexpended Appropriation Amount	The 'E' was removed from the Tort Victim Compensation Payment appropriation in FY 2014, at which time the appropriation was set at an estimated level to cover potential claim payments.
Explanation of Other Amounts	N/A
Explanation of Outstanding Projects	N/A
Explanation of Cash Flow Needs	Since the receipts of the fund are unpredictable, DOLIR must retain enough cash in the fund at the end of each year to pay the next fiscal year's OA Cost Allocation amount.
Other Notes	Appropriations were increased in order to process deferred payments. The fund also received a substantial deposit in FY21 from the Johnson & Johnson case settlement.

Totals include Non-Counts.

FUND FINANCIAL SUMMARY**

DEPARTMENT: DOLIR

FUND NAME: Workers Compensation Fund

FUND NUMBER: 1652

Revenue Source	Receipts are generated by the Workers' Compensation Premium Tax which is calculated annually by the Department of Labor and billed by the Department of Commerce and Insurance. The Workers' Compensation Premium Tax, which cannot exceed 2%, is set annually, in accordance with Section 287.690, RSMo, and collected quarterly by the Department of Revenue.
Fund Purpose	The Workers' Compensation Administration Fund was created to pay the operating costs of the Workers' Compensation Program as authorized by section 287.710, RSMo.
Explanation of Unexpended Appropriation Amount	The appropriation authority has been requested at a level to allow DOLIR the ability to address fluctuations in revenue that are related to changes in the premium base. When the premium base is lower, less funding is available for program administration resulting in excess appropriation authority. There is a total of \$25,000,000 allocated for ITSD to design and implement modernization of the Workers' Compensation computer system in the next three years.
Explanation of Other Amounts	-
Explanation of Outstanding Projects	-
Explanation of Cash Flow Needs	Cash needs to be retained at the end of each year to meet expenses for the next two months since premium taxes are collected quarterly.
Other Notes	-

Totals include Non-Counts.

FUND FINANCIAL SUMMARY**

DEPARTMENT: DOLIR

FUND NAME: Workers Compensation Second Injury Fund

FUND NUMBER: 1653

Revenue Source	The Second Injury Fund (SIF) is financed by a surcharge on employers' workers' compensation premiums and equivalent premiums for self-insured employers payable to the fund on the 30th day following the end of the quarter. Pursuant to section 287.715, RSMo, the surcharge rate is capped at 3% and can be reduced or suspended when the balance in the SIF exceeds a certain amount. Effective August 29, 2021, a supplemental rate of up to 3% may be assessed for calendar years 2014 through 2022. For calendar year 2023, the supplemental surcharge rate may not exceed 2.5%.
Fund Purpose	The SIF was created by section 287.220, RSMo, to pay the costs of a second injury to a previously injured employee when the combined effect of the injury and the prior disability results in permanent total disability or increased permanent partial disability. The employer at the time of the last injury is liable only for the compensation for the most recent injury.
Explanation of Unexpended Appropriation Amount	The SIF has payment obligations due to claimants on a bi-weekly on-going basis. Therefore, the fund must maintain a sufficient cash balance to pay bi-weekly obligations to claimants and other operational expenses due between the end of the fiscal year and the July 30 surcharge due date. The fund also pays new awards that can be one-time or on-going payments. The program retains the unexpended authority to accommodate these new awards.
Explanation of Other Amounts	-
Explanation of Outstanding Projects	-
Explanation of Cash Flow Needs	The fund needs to maintain a cash balance of at least the amount due for the first month of claim payments, personal services, expense and equipment, and fringe expenses and the next fiscal year's cost allocation plan amount since July 30 is the first surcharge due date.
Other Notes	-

Totals include Non-Counts.

FUND FINANCIAL SUMMARY**

DEPARTMENT: DOLIR

FUND NAME: Line of Duty Compensation Fund

FUND NUMBER: 1939

Revenue Source	Pursuant to Section 287.243, RSMo, the Line of Duty Compensation Fund shall consist of moneys appropriated to the fund and any voluntary contributions, gifts, or bequests to the fund. In the absence of other monies, the fund relies on a transfer appropriation from General Revenue to fulfill the statutory obligation to pay line of duty benefits. No amount is transferred unless needed and only in the amount necessary to pay benefits that have been awarded.
Fund Purpose	The Line of Duty Compensation Fund provides a \$25,000 benefit payment to the families of emergency personnel killed in the line of duty. A claim for compensation for Line of Duty Benefits is filed by the estate of the deceased employee with the Division of Workers' Compensation no later than one year from the date of death of the emergency personnel. The division pays the benefit after conducting an investigation that finds the claimant is entitled to receive compensation.
Explanation of Unexpended Appropriation Amount	The 'E' was removed from this fund and the appropriation was set at \$450,000. The number of claims that will be filed with the division each year is difficult to predict; therefore, in any given fiscal year, there may be unexpended appropriations. No funds are transferred unless needed and only in the amount necessary to pay benefits that have been awarded.
Explanation of Other Amounts	-
Explanation of Outstanding Projects	-
Explanation of Cash Flow Needs	-
Other Notes	Any interest that is accumulated in the fund is used to make Line of Duty Compensation payments.

**STATE OF MISSOURI
FUND FINANCIAL SUMMARY**

DEPARTMENT: DOLIR

FUND NAME: Special Employment Security Fund

FUND NUMBER: 1949

Revenue Source	All interest and penalties collected under the provisions of Section 288.310, including moneys collected pursuant to Section 288.128 for the payment of interest due on federal advances received pursuant to Section 288.330; or subject to appropriation or supplemental appropriation by the General Assembly; amounts received pursuant to the credit instrument and financing agreement repayment surcharge pursuant to Section 288.128 related to the payment of principal, interest, and administrative expenses related to credit instruments issued under Section 288.330; or the payment of the principal, interest, and administrative expenses related to financial agreements under Subdivision (17) of Subsection 2 of Section 288.330; or the payment of the principal, interest, and administrative expenses related to a combination of credit instruments and financial agreements shall be paid into this fund. If the state is in borrowing status, monies received for the payment of federal interest are deposited into this fund in August and September for interest due September 30th of that year.
Fund Purpose	The Special Employment Security Fund can be expended in the administration of the Employment Security Law, which in DOLIR is the Unemployment Insurance program. By statute, the monies can be expended for the purpose of acquiring lands and buildings or for the erection of buildings on land already owned. It may also be used for any expense for which federal funds cannot be spent or which are not available. When the Unemployment Insurance Trust Fund is insolvent and borrowing from the federal government, employers are charged an interest assessment equivalent to the amount of interest owed to the federal government. It is deposited into the Special Employment Security Fund and then paid to the Bureau of Public Debt.
Explanation of Unexpended Appropriation Amount	Due to the elimination of estimated appropriations, DOLIR requested appropriation levels to cover potential needs, including emergency building repairs or the payment of other expenses for which there are not adequate federal funds. This results in unexpended appropriations when the DOLIR projects normal fund activity. In addition, the federal interest payment on amounts borrowed to pay unemployment benefits is due to the federal government by the end of September of each year. The Trust Fund is not currently in borrowing status.
Explanation of Other Amounts	-
Explanation of Outstanding Projects	-
Explanation of Cash Flow Needs	Funds are held in reserve for emergencies, including damages to buildings or Disaster Unemployment Assistance payments until federal funds are received and the fund is reimbursed. Funding for one-quarter of the administrative transfers is needed since the first quarter is transferred just after the beginning of the fiscal year. There is also funding reserved for one payroll and associated fringe benefits.
Other Notes	-

FUND NAME: Unemployment Automation Fund

FUND NUMBER: 1953

Revenue Source	During calendar years 2009 - 2011, funds were collected and deposited as required in Section 288.131.1, RSMo, which consisted of an annual unemployment automation surcharge in an amount equal to 0.05% of each liable employer's total taxable wages for the twelve-month period ending the preceding June 30th. **STATE OF MISSOURI
FUND FINANCIAL SUMMARY**

DEPARTMENT: DOLIR

FUND NAME: State Mine Inspection

FUND NUMBER: 1973

Revenue Source	Funds are received from mine operators quarterly as required in Section 293.030, RSMo. The fee charged varies by the type of mineral mined; however, the fees are based on tons shipped, sold or otherwise disposed of. Revenues are due 30 days after the end of a quarter. In addition, mine production is also driven by the season; therefore, revenue into the fund would likely be higher in the summer and lower in winter.
Fund Purpose	The monies collected finance a portion of the Mine Program inspectors, who travel to mine or show cave sites on a regular basis to inspect the property for safety and health hazards and unsafe processes or work procedures that could cause accidents, injuries or fatalities. The site is inspected for safety and health conditions and if any hazard to the employee or visitor is found, the company is required to abate the problem in a prescribed period of time. Cost-effective recommendations on how to abate any safety or health problems are offered. Mine and cave owners may request consultation on any concern to help them comply with state and federal laws, rules or regulations. Mine and cave owners are assisted in avoiding costly fines and penalties from the Federal Mine Safety and Health Administration (MSHA).
Explanation of Unexpended Appropriation Amount	Amounts are based on staff turnover, prior year expenditures, and the expectation that there will not be a sufficient balance in the fund subject to the biennial sweep.
Explanation of Other Amounts	-
Explanation of Outstanding Projects	-
Explanation of Cash Flow Needs	Due to the seasonal nature of the revenue and that revenue is due 30 days from the end of a quarter, it is projected the cash flow needs is the amount necessary for four months operating expenses.
Other Notes	-

Totals include Non-Counts.

FUND FINANCIAL SUMMARY**

DEPARTMENT: DPS

FUND NAME: Gaming Commission Fund

FUND NUMBER: 1286

Revenue Source	All revenue received by the gaming commission from license fees, penalties, administrative fees, and reimbursement by any riverboat gambling operators, suppliers or fantasy sport contest operators for services provided by the commission and admission fees authorized pursuant to the provisions of Sections 313.800 to 313.850, RSMo., except that portion of the admission fee, not to exceed one cent, that may be appropriated to the compulsive gamblers fund as provided in Section 313.820, RSMo., shall be deposited in the state treasury to the credit of the "Gaming Commission Fund" which is hereby created for the sole purpose of funding the administrative costs of the commission, subject to appropriation. Moneys deposited into this fund shall not be considered proceeds of gambling operations. Moneys deposited into the gaming commission fund shall be considered state funds pursuant to article IV, section 15 of the Missouri Constitution. All interest received on the gaming commission fund shall be credited to the gaming commission fund.
Fund Purpose	One pay cycle to reflect the continuing costs which will be needed in the upcoming fiscal year along with minimal expense funding.
Explanation of Unexpended Appropriation Amount	The largest amount of revenue to the Gaming Commission Fund comes from admission fees paid by the excursion boat operators. The fund has realized a significant decline in these fees over the last few years and the Commission does not anticipate the admission fees increasing in FY23. As a result of this decrease, the fund will not be able to expend all transfer appropriations.
Explanation of Other Amounts	n/a
Explanation of Outstanding Projects	n/a
Explanation of Cash Flow Needs	n/a

**STATE OF MISSOURI
FUND FINANCIAL SUMMARY**

DEPARTMENT: DPS

FUND NAME: Veterans Commission Capital Improvement Trust Fund

FUND NUMBER: 1304

Fund Purpose	The Veterans Commission Capital Improvement Trust Fund was created by statute to fund the construction, maintenance, renovation and capital needs of veterans' homes and cemeteries. It was also created to fund operations of the Veterans' cemeteries and to maintain the solvency of the Veterans' Home Fund. The statute also allows for funding administration of the Missouri Veterans Commission, Veterans' Service Officer grants and medals and medallions.
Explanation of Unexpended Appropriation Amount	Unexpended amounts include capital improvement appropriations. These CI projects must be appropriated in full prior to the federal VA awarding the Capital Improvements grants. Additionally, transfer authority to maintain Homes fund solvency is set at \$30M. In previous FYs, MVC has not needed the full authority, but as Homes fund experiences revenue shortfalls beyond the capability of this fund, MVC relies on other funding to support the operations of the Veterans Homes.
Explanation of Other Amounts	-
Explanation of Outstanding Projects	-
Explanation of Cash Flow Needs	-
Other Notes	MVC does not currently receive additional revenue support. Homes fund revenue shortfalls due to census reduction puts more strain on this fund which in turn decreases MVC's ability to focus this funding source on maintenance, repair and capital improvement projects.

Totals include Non-Counts.

**STATE OF MISSOURI
FUND FINANCIAL SUMMARY**

DEPARTMENT: DPS

FUND NAME: Missouri Veterans Homes Fund

FUND NUMBER: 1460

Fund Purpose	Fund operations of the seven Missouri State Veteran Homes
Explanation of Unexpended Appropriation Amount	Due to a drastic decrease in Gaming Commission revenue, and Veterans Administration per diem reimbursements, cash flow does not allow for full expenditure of appropriation.
Explanation of Other Amounts	-
Explanation of Outstanding Projects	-
Explanation of Cash Flow Needs	Governor has recommended General Revenue support to cover payroll increases as well as the Veterans Administration severe cash flow shortage which was caused by census reduction.
Other Notes	Homes program has made significant reductions in the operating budget to account for the severe revenue loss. MVC cannot continue to operate without additional funding support. Veterans Commission Capital Improvement Trust Fund was previously used to maintain fund solvency, but this has caused severe deferred maintenance at the Homes and Cemeteries. VCCITF cannot maintain Homes fund solvency.

Totals include Non-Counts.

Fund Purpose	This fund provides spending authority for the Department of Corrections to obtain and expend funds from Federal and other sources.

Totals include Non-Counts.

FUND FINANCIAL SUMMARY**

DEPARTMENT: DOC

FUND NAME: Department of Corrections Federal

FUND NUMBER: 1130

Explanation of Unexpended Appropriation Amount	The unexpended appropriation amounts have to do with grants that extend for more than one year or that are not received. Also, the DOC requests the full amount of the grants in order to maintain visibility of the whole grant. The fringe benefits are counted in the DOC appropriation as well as in the transfer appropriations, so this is accounted for. The DOC anticipates not spending \$1,532,244 in fringe benefit money in FY25.
Explanation of Other Amounts	N/A
Explanation of Outstanding Projects	N/A
Explanation of Cash Flow Needs	Because Fund 0130 is a federal fund, for most of our grants we must expend the money and get reimbursed, either from pass-through departments or directly from the federal government. Therefore, the DOC has a need to project cash flow so that there is enough money in the fund to meet our obligations and then wait for reimbursement.

**STATE OF MISSOURI
FUND FINANCIAL SUMMARY**

DEPARTMENT: DOC

FUND NAME: Inmate Canteen Fund

FUND NUMBER: 1405

Revenue Source	Revenues for the fund are generated by the purchase and resale of items to offenders. Prior to FY19 the department had ceased sales of all tobacco products in the Canteens, which had represented approximately 25% of all sales. The elimination of tobacco sales and the decline in the offender population has caused the revenues into the fund to be significantly reduced. The department had assumed a revenue increase in FY25 due to commissions had a new contract been put in place. That contract is currently on hold and an increase in revenues is uncertain.
Fund Purpose	This fund provides spending authority for the Department of Corrections to be expended by the appropriate division to support the costs of operating the canteens and for the use and benefit of the offenders in the improvement of recreational, religious, reentry, or educational services.
Explanation of Unexpended Appropriation Amount	The combination of the transition away from tobacco products and the decline in the offender population has reduced the amount of product that the canteens need to purchase for resale. These changes will result in unexpended appropriation authority.
Explanation of Other Amounts	N/A
Explanation of Outstanding Projects	N/A
Explanation of Cash Flow Needs	The Inmate Canteen has to purchase items and then resell them to offenders in order to generate revenue. Therefore, the DOC has a need to project cash flow so that there is enough money in the fund to purchase items in advance of sales and meet current operating expenses. Current needs are projected based on retaining one month of projected expenditures.
Other Notes	N/A

Totals include Non-Counts.

FUND NAME: Working Capital Revolving Fund

FUND NUMBER: 1510

Fund Purpose	Provide funds for the operation of the Missouri Vocational Enterprises (MVE). MVE develops and operates programs to increase employment and training opportunities for offenders assigned to correctional centers to promote productive and law-abiding conduct after release to the community. MVE industries and programs produce a variety of products and services for state agencies, city and county governments, political subdivisions, state employees and not-for-profit organizations.
Explanation of Unexpended Appropriation Amount	The unexpended appropriation authority is due to several factors. MVE needs to retain additional spending authority in order to expand if demand for their products increases. This happens when events such as reissuing state license plates occurs. MVE has to buy millions of dollars of materials in advance and hire additional staff in order to make the new products to sell and replenish the fund balance.
Explanation of Other Amounts	-
Explanation of Outstanding Projects	Since MVE operates as a business, there are typically funds encumbered to pay for operations as well as accounts receivable that are not reflected by the cash balance. There is on average about \$4 million in encumbered accounts and receivables that have to be accounted for to pay for materials and equipment to operate Missouri Vocational Enterprises.
Explanation of Cash Flow Needs	Cash flow is calculated as sufficient funds to pay for payroll and material purchases for three months of operations. The MVE has to generate revenues through the sale of items produced using Working Capital Revolving Funds and must purchase material and produce those items in advance.
Other Notes	-

FUND FINANCIAL SUMMARY**

DEPARTMENT: DMH

FUND NAME: Opioid Addiction Treatment and Recovery Fund

FUND NUMBER: 1705

Revenue Source	Fund revenues are generated from settlements reached between the Attorney General, drug manufacturers and distributors, and pharmacies to resolve an opioid-related cause of action against these entities. Additionally, any interest or other monetary gains from investing of these funds are deposited back into the fund. Opioid settlement payments from the manufacturers and distributors will be received annually.
Fund Purpose	<p>To account for moneys received as proceeds of any monetary settlements between the Attorney General's Office, drug manufacturers and/or distributors, and pharmacies as well as any funds appropriated by the general assembly, or gifts, grants, donations, or bequests.</p> <p>The fund will be used to pay for opioid addiction treatment and prevention services, health care, and law enforcement costs related to opioid addiction treatment and prevention.</p>
Explanation of Unexpended Appropriation Amount	Authority not utilized.
Explanation of Other Amounts	Not applicable.
Explanation of Outstanding Projects	Settlement payments will decrease in future years based on the agreements in place. To ensure there is enough funding for the remainder of the settlement payment period (through Calendar Year 2038), the entire obligated amount is for supporting the current programs appropriated.
Explanation of Cash Flow Needs	Cash flow needs consist of one month of year's operating appropriations for program payments and one payroll of PS and fringe benefits that are paid in the following fiscal year due to receiving projected settlements one time per year.
Other Notes	<p>Notwithstanding the provisions of section 33.080, RSMo., to the contrary, moneys in the fund at the end of any biennium shall not be transferred to the credit of the General Revenue Fund.</p> <p>The status of the settlements and estimated funding continues to change as settlements are finalized and companies file for bankruptcy. The revenues represent a snapshot of the best available information and is subject to change. It is difficult to project the exact payment amounts each year because of numerous factors.</p>

Totals include Non-Counts.

FUND FINANCIAL SUMMARY**

DEPARTMENT: Health and Senior Services
FUND NAME: Health Access Incentive Fund
FUND NUMBER: 1276

Fund Purpose	To account for monies appropriated and received as provided by law, gift, bequest, or devise. These monies shall be used to implement and encourage a program to fund loan repayments, start up grants, provide locum tenens, professional liability insurance assistance, practice subsidy, annuities when appropriate, or technical assistance in exchange for location of appropriate health providers, who agree to serve all persons in need of health services regardless of ability to pay.
Explanation of Unexpended Appropriation Amount	Unexpended appropriation authority for FY25 based on FY24 lapsed authority. With current appropriation transfer in revenues projections for FY25 and FY26, additional unexpended appropriation authority is a result of insufficient cash to support appropriation authority and provide cash flow needs for future Fiscal Years for program funded through the Health Access Incentive fund. Insufficient cash is a result of pay plan increases in the expenditures without a corresponding increase in transfer authority.
Explanation of Other Amounts	Not applicable.
Explanation of Outstanding Projects	Not applicable.
Explanation of Cash Flow Needs	Cash flow is based on one month of expenditures.
Other Notes	Not applicable.

Totals include Non-Counts.

**STATE OF MISSOURI
FUND FINANCIAL SUMMARY**

DEPARTMENT: Health and Senior Services

FUND NAME: Senior Services Growth and Development Program Fund

FUND NUMBER: 1419

Revenue Source	Beginning January 1, 2021, and each year thereafter, five percent of the premium tax collected under sections 148.320 and 148.370, RSMo., excluding any monies to be transferred to the state school monies fund as described in section 148.360, RSMo., shall be deposited in this fund. Note: The \$2,500,000 transfer that occurred in Fiscal Year 2023 is not from the premium tax collected. This transfer is from the Budget Stabilization Fund.
Fund Purpose	This fund is to be used solely for enhancing senior services provided by the area agencies on aging (AAA) in Missouri. Monies will be transferred to the AAAs utilizing the current federally required and approved intrastate funding formula.
Explanation of Unexpended Appropriation Amount	Unexpended appropriations authority for Fiscal Year 2024 is a result of our partner agencies being unable to fully expend awarded funds by June 30, 2024; therefore, those funds are being carried forward into Fiscal Year 2025. If the partner agencies utilize all funds available in Fiscal Year 2025, there would be surplus expenditure authority in Fiscal Year 2026; however, this is unlikely. Furthermore, the appropriated transfer in revenues in Fiscal Year 2024 included the arrears amount in addition to the annual amount. The Department anticipates the appropriated transfer to be ongoing; however, the Department understands the final transfer is dependent on a calculation after considering premium tax revenues.
Explanation of Other Amounts	Not applicable.
Explanation of Outstanding Projects	Not applicable.
Explanation of Cash Flow Needs	Not applicable.
Other Notes	Not applicable.

Totals include Non-Counts.

Explanation of Cash Flow Needs	Cash flow needs are based upon six months of expenditures. The cash flow coverage need has been increased to assure self-sustenance of the program.
Other Notes	As expected with the passage of Adult Use Marijuana, Medical Marijuana sales have decreased. The fund will have sufficient cash to make the \$13 million transfer to the Veterans Commission in FY25; however, the fund will experience cash flow issues in FY26 and the amount transferred will likely not be \$13 million.

Totals include Non-Counts.

**STATE OF MISSOURI
FUND FINANCIAL SUMMARY**

DEPARTMENT: SOS

FUND NAME: Election Administration Improvements Fund

FUND NUMBER: 1157

Fund Purpose	To implement Public Law 107-252 - Help America Vote Act, as well as other grants received by the Election Assistance Commission. The funds from general revenue are used to improve the administration of elections, as well as fund special elections, and reimburse the LEAs for transaction costs. This allows SOS to give grants, pay elections staff, MCVR maintenance, and other costs.
Explanation of Unexpended Appropriation Amount	Due to the passage of SB592, the state is now required to pay their proportionate share of all elections (not just specials and past presidential preference primary). Additionally, it is unknown when the EAC will grant additional federal funds. Also, the timing of when the State will use the federal grant funds affects the unexpended appropriation amount.
Explanation of Other Amounts	-
Explanation of Outstanding Projects	Special election costs are always unknown until they are called. SOS received the following grants from the EAC: 2018 \$7.2M, 2020 \$8.1M, 2022 \$1.2M, 2023 \$1.2M and 2024 \$1M. MCVR is also getting enhancements since it is over 10 years old.
Explanation of Cash Flow Needs	Due to the passage of SB592, the state is now required to pay their proportionate share of all elections (not just specials and past presidential preference primary). Additionally, it is unknown when the EAC will grant additional federal funds. Also, the timing of when the State will use the federal grant funds affects the unexpended appropriation amount..

Revenue Source

The source of revenue for this fund is the retainage of interest earnings as authorized by Section 30.605, RSMo.

Totals include Non-Counts.

**STATE OF MISSOURI
FUND FINANCIAL SUMMARY**

DEPARTMENT: STO

FUND NAME: State Treasurer's General Operations Fund

FUND NUMBER: 1164

Fund Purpose	This fund is used for the general operations of the Office of the State Treasurer excluding the Unclaimed Property Division (separately funded through the Abandoned Fund 0863) and MoScholars (separately funded through MESAP Fund 0278). The salaries and fringe benefits for employees performing investment, cash management and administrative duties as well as related expense and equipment costs are paid from this fund.
Explanation of Unexpended Appropriation Amount	The Treasurer's Office strives to keep unexpended appropriations low however, the current unexpended appropriation is needed to maintain the option to pay directly for banking services. Directly paying for banking services is something that has not been done yet.
Explanation of Other Amounts	N/A
Explanation of Outstanding Projects	The State Treasurer's Office has several in-house systems that require routine maintenance from in-house staff. These systems are sufficiently aged that updating of the systems and the source code are necessary to keep them functioning properly. The State Treasurer's Office plans to update these systems as resources and funding are available with both in-house and external programming staff.
Explanation of Cash Flow Needs	Because interest receipts can fluctuate greatly month-to-month based on the state's overall cash flow, the State Treasurer's Office manages the cash flow needs of this fund by striving to maintain a fund cash balance of half a fiscal year's budgeted expenditures. This is accomplished by reviewing the interest retainage calculations on a monthly basis and adjusting them as needed.
Other Notes	Notwithstanding the provisions of Section 33.080, RSMo moneys in the State Treasurer's general operations fund shall not lapse to the general revenue fund at the end of the biennium unless and only to the extent to which the amount in the fund exceeds the annual appropriations from the fund for the current fiscal year.

Totals include Non-Counts.

**STATE OF MISSOURI
FUND FINANCIAL SUMMARY**

DEPARTMENT: STO

FUND NAME: Abandoned Fund Account

FUND NUMBER: 1863

Fund Purpose	<p>This fund contains amounts remitted by holders to the state as Unclaimed Property. The fund is used to pay owner claims, and also enables the State Treasurer's Office (STO) to fulfill its advertising requirements for unclaimed property. The STO must mail notices, advertise in newspapers and utilize outreach programs (i.e. radio, television, internet website, booths at public events and other proactive activities) in an attempt to locate owners. The STO must conduct an auction of items received that need to be liquidated and pay out claims to the rightful owners of the unclaimed property. The fund pays for salaries and fringe benefits of the Unclaimed Property Division staff and related expense and equipment costs effective FY2006.</p>
Explanation of Unexpended Appropriation Amount	<p>Unexpended personal service dollars are the result of occasional staff turnover resulting in the division not being fully staffed for the entire fiscal year. Unexpended advertising and auction dollars are the result of cost savings achieved by competitive bidding.</p>
Explanation of Other Amounts	<p>N/A</p>
Explanation of Outstanding Projects	<p>N/A</p>
Explanation of Cash Flow Needs	<p>The Abandoned Fund's cash flow needs are to ensure sufficient cash balances to pay claims for unclaimed property. The State Treasurer's Office does possess appropriation authority to transfer funds from the General Revenue Fund should the cash balance in the Abandoned Fund become insufficient to pay claims.</p>
Other Notes	<p>At any time when the balance of the account exceeds one-twelfth of the previous fiscal year's total disbursement from the abandoned property fund, the Treasurer may, and at least once every fiscal year shall, transfer to the general revenue of the State of Missouri the balance of the abandoned fund account which exceeds one-twelfth of the previous fiscal year's total disbursement from the abandoned property fund, and notwithstanding the provisions of Section 33.080, RSMo to the contrary, no other moneys in the fund shall lapse at the end of the biennium.</p>

Totals include Non-Counts.

FUND FINANCIAL SUMMARY**

DEPARTMENT: AGO

FUND NAME: Missouri Office of Prosecution Services Federal Fund

FUND NUMBER: 1107

Fund Purpose	The fund is the mechanism through which the federal funds from various grants are received and expended for approved federal programs that we provide for the state's prosecutors. Specifically, we receive federal monies to administer the statewide prosecutor case management system (ProsecutorbyKarpel) and work with MSHP and OSCA in improving criminal history information and records; administer the John R. Justice Loan Repayment Program for prosecutors and public defenders; provide traffic safety programs for prosecutors and law enforcement professionals; and administer witness protection funds.
Explanation of Unexpended Appropriation Amount	Any unexpended amount would be a matter of timing on payment of bills. This account is a zero balance pass through fund- all monies received are spent on the various programs. We only receive funds in the exact amount of what we actually spend on a program.
