(9) To promulgate such rules and regulations as may be necessary to effectively administer a state-funded soil and water conservation cost-share program. Any rule or portion of a rule promulgated under the authority of sections 278.060 to 278.300 shall become effective only if it has been promulgated pursuant to the provisions of chapter 536, RSMo.

6. Unless prohibited by any federal or state law, the commission may grant individual variances to any rule or regulation promulgated thereto, upon presentation of adequate proof, that compliance with sections 278.070 to 278.300, or any rule or regulation, standard, requirement, limitation or order of the commission will have an arbitrary and unreasonable impact on landowners participating in soil and water conservation eligible practices. HOUSE CONCURRENT RESOLUTION NO. 33

WHEREAS, Agramarke Quality Grains, Inc., a Missouri cooperative association, will provide economic development for the St. Joseph area; and

WHEREAS, the United States Department of Agriculture emphasizes the importance of guiding agriculture toward value-added opportunities; and

WHEREAS, agricultural producers will own 100% of the facility, provide over 110 jobs in the area, and realize between three and five million dollars per year in profits and premiums; and

WHEREAS, the facility purchase price is far below the price of new construction and will provide a new purpose for the Quaker Oats facility which has been in existence since 1926; and

WHEREAS, the United States Department of Agriculture provides many beneficial programs which will be crucial to the success of the project; and

WHEREAS, without the assistance of the United States Department of Agriculture programs, this young company may never develop; and

WHEREAS, the United States Department of Agriculture maintains a community population requirement of 50,000 for use of rural development economic incentive programs; and

WHEREAS, the city of St. Joseph remains not far above the threshold with a population of approximately 75,000:

NOW, THEREFORE, BE IT RESOLVED that the members of the House of Representatives of the Ninety-first General Assembly, First Regular Session, the Senate concurring therein, hereby urge the United States Department of Agriculture to grant a waiver for Agramarke Quality Grains, Inc., for development in St. Joseph, Missouri, to allow Agramarke to qualify for rural development economic incentive programs; and

HOUSE COMMITTEE SUBSTITUTE
FOR
SENATE CONCURRENT RESOLUTION NO. 28

WHEREAS, recent high fuel prices have alerted us to the need to improve our nation's policies on fuel production; and

WHEREAS, the Organization of Petroleum Exporting Countries (OPEC) has recently suggested that they will reduce crude oil production again in an attempt to manipulate prices; and

WHEREAS, reductions in crude oil production have resulted in sharp increases in prices for natural gas, gasoline and home heating oil; and

WHEREAS, the United States has become dangerously dependent on foreign petroleum; and

WHEREAS, Missouri consumers are experiencing higher prices at the pump and in home heating costs, and the economic stability of many areas of the state which rely on tourism may be jeopardized if the number of persons traveling to Missouri's vacation destinations is significantly reduced due to increased gasoline prices; and

WHEREAS, the trucking industry, heavily dependent on the availability and price of gasoline and diesel fuel, has been especially hard hit by the increase in fuel costs that have resulted in a significant increase in the transportation costs associated with the delivery of consumer goods throughout the state. Such an increase in cost to the trucking industry will inevitably be passed along to consumers as an increase in the price of consumer goods; and

WHEREAS, the increased petroleum fuel costs is particularly detrimental to Missouri family farmers because it comes at a time when overall market prices are low; and

WHEREAS, fuel prices could be reduced by improving energy efficiency and increasing domestic production and encouraging the development of renewable alternative fuels; and

WHEREAS, the Missouri Statewide Energy Study, completed in 1993, found that more than eighty percent of Missourians' expenditures for energy go immediately out of state without contributing further to Missouri's economy; and

WHEREAS, investment in energy efficiency creates jobs and has additional economic benefits within the Missouri economy; and

WHEREAS, energy efficiency measures reduce future energy expenditures and thereby make our state economy more energy efficient and thereby more competitive in the global economy; and

WHEREAS, tax and other incentives are useful in promoting greater energy efficiency:

NOW, THEREFORE, BE IT RESOLVED that the members of the House of Representatives of the Ninety-first General Assembly, First Regular Session, the Senate concurring therein, hereby urge the United States Congress to actively address the issue of energy demand and fuel prices, and take immediate actions necessary to increase energy efficiency and reduce our nation's dependency on foreign petroleum sources and boost our own economy by:

(1) Encouraging and creating incentives for energy efficiency investments that create jobs and improve Missouri's economic competitiveness; and

(2) Encouraging and creating incentives for research, development and use of alternative fuel sources, including ethanol and other fuels made from renewable materials that would not only reduce our dependency on foreign petroleum, but also have the potential to improve environmental protection and boost local economies; and

(3) Enacting reasonable measures to support the utilization of solar and other alternative fuel sources and to provide for exploration for domestic petroleum sources in a manner that does not adversely impact the environment; and

BE IT FURTHER RESOLVED that the Chief Clerk of the Missouri House of Representatives be instructed to prepare properly inscribed copies of this resolution for the Speaker of the United States House of Representatives, the President of the United States Senate and each member of the Missouri Congressional delegation.

WHEREAS, the state and political subdivisions have imposed taxes, fees and other assessments on various telecommunications and energy services which vary widely based on locality and, within a locality, may vary widely due to increasingly related and competitive services, such as telephone and cable television; and

WHEREAS, the current nationwide effort to establish competition in the production, distribution and sale of energy, including electricity, natural gas and other energy sources has potential benefits and adverse effects on energy producers, distributors, retailers, customers and the citizens of this state; and
