

HB 203 -- Administrative Rules

Co-Sponsors: Portwood, Myers, Hunter, Cunningham (86)

This bill allows proposed legislative measures that include authorization for the promulgation of administrative rules to include a statement of legislative intent. Administrative rules promulgated under a legislative measure must not exceed the scope of the statement of intent. The Joint Committee on Administrative Rules will review rules subject to statements of intent, and if it determines that an administrative rule exceeds the scope of the statement, the rule will be null and void.
