

HB 830 -- Abandoned Motor Vehicles

Sponsor: Henke

This bill allows, after proper notification to the owner or lienholder, any towing company to dispose of abandoned property 90 days after the notification. If the property is not claimed, no other arrangements have been made for storage, or the owner has not requested a hearing as required by law, the towing company is authorized to sell the property on a bill of sale as prescribed by the Director of the Department of Revenue to a scrap metal operator for destruction only. The bill outlines requirements for the sale.
