

HB 1263 -- Contributions to Child Advocacy Centers

Sponsor: Wildberger

This bill establishes the Child Advocacy Center Fund. It allows individuals or corporations who are entitled to a state tax refund to designate a portion of their refund to the fund. If they are not entitled to a tax refund, individuals or corporations may make a contribution along with their payment or send the contribution in separately. The Director of the Department of Social Services is responsible for establishing a procedure for distributing the moneys in the fund to the qualifying child advocacy centers.
