FISCAL ANALYSIS

ASSUMPTIONS

Officials from the **Office of Administration - Division of Purchasing and Materials Management** (DPMM) assume this proposal would require DPMM to develop bid language that requires the bidders to certify that only citizens of the United States and persons authorized to work in the United States pursuant to federal law shall be employed in the performance of services under state contracts or any subcontract awarded under the contracts.

Contract costs may increase due to the additional costs incurred by the contractors to recruit and hire only those individuals that meet the stated requirements of this bill. In addition, this would require state agencies to monitor the contractors' staffing to ensure compliance by the contractors.

Oversight assumes that any increased costs resulting from this proposal would be minimal and could be absorbed. If multiple measures are adopted creating additional administrative costs or if unforeseen costs are incurred, they could be addressed through the normal budget process.

ASSUMPTIONS (continued)

Officials from the **Office of Administration, Division of Personnel and Division of Design and Construction**, the **Department of Conservation**, the **Department of Mental Health**, the **Department of Social Services**, and the **Department of Transportation** assume the proposal would have no impact on their organizations.

Officials from the **Office of the Secretary of State (SOS)** assume the proposal would require that all state service contracts awarded after 8/28/05 include a requirement that employees of contractors be citizens of the United States. This proposal may result in the Office of Administration or Department of Natural Resources promulgating rules to implement this legislation. Those rules would be published in the Missouri Register and the Code of State Regulations. Based on experience with other divisions, the rules, regulations and forms issued by the Office of Administration or Department of Natural Resources could result in as many as 10 pages in the Code of State Regulations. The estimated cost of a page in the Code of State Regulations is \$27. For any given rule, roughly half again as many pages are published in the Missouri Register as in the Code because cost statements, fiscal notes and the like are not repeated in the Code. The estimated cost of a page in the Missouri Register is \$23. The impact of this legislation in future years is unknown and depends upon the frequency and length of rules, filed, amended, rescinded, or withdrawn. $((10 \times \$27) + (15 \times \$23) = \$615)$

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process. Any decisions to raise fees to defray costs would likely be made in subsequent fiscal years.

<u>FISCAL IMPACT - State Government</u>	FY 2006 (10 Mo.)	FY 2007	FY 2008
	<u>\$0</u>	<u>\$0</u>	<u>\$0</u>
 <u>FISCAL IMPACT - Local Government</u>	 FY 2006 (10 Mo.)	 FY 2007	 FY 2008
	 <u>\$0</u>	 <u>\$0</u>	 <u>\$0</u>

FISCAL IMPACT - Small Business

This proposal could impact small businesses which contract or subcontract to perform services for the State of Missouri.

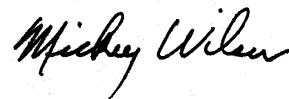

DESCRIPTION

This proposal would require that all state service contracts awarded after 08/28/05 include specifications that employees of contractors or subcontractors be citizens of the US.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
