FISCAL ANALYSIS

ASSUMPTION

Officials with the **Department of Agriculture, Department of Economic Development, and Department of Revenue** assume this proposal would have no fiscal impact on their agencies.

Oversight assumes that—under current statute—a contributor that receives Agricultural Products Utilization Contributor Tax Credits may not be a member, owner, investor or lender of an eligible new generation processing entity that receives financial assistance from the Missouri Agricultural and Small Business Development Authority (MASBDA), either at the time of the contribution or for a period of two years thereafter. This proposal removes such a restriction.

Oversight assumes this proposal increases the pool of prospective contributors that could receive tax credits and their marketability. However, **Oversight** assumes this proposal has no net impact on the state since it does not increase or reduce the amount of tax credits available.

<u>FISCAL IMPACT - Local Government</u>	FY 2006 (10 Mo.)	FY 2007	FY 2008

FISCAL IMPACT - Small Business

New generation cooperatives or entities could see an increase in available tax credits as a result of this proposal.

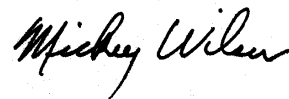

DESCRIPTION

This legislation removes the prohibition that a contributor receiving a tax credit for a cash contribution to the Agricultural and Small Business Development Authority cannot be an owner, member, investor, or lender of an eligible new generation cooperative or eligible new generation processing entity that receives financial assistance from the authority for a period of two years after the contribution.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
