**FISCAL IMPACT - Small Business**

This proposal may directly impact small business physicians and practice groups who provide services in third and fourth class counties.

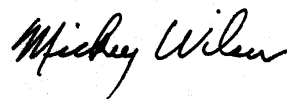

### DESCRIPTION

This proposal requires all insurers providing medical malpractice insurance to health care providers in third and fourth classification counties to establish premium rates based on the claims history in these counties. These rates can be adjusted for insurers who do not provide services exclusively to these counties.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
