

HB 75 -- Missouri Minority Business Advocacy Commission

Sponsor: Bland

This bill changes the laws regarding the Missouri Minority Business Advocacy Commission. The bill:

- (1) Requires two members to be added to the commission, with one representing labor and one representing non-minority business;
- (2) Requires the four legislative members of the commission (two from the House of Representatives and two from the Senate) to be selected from the minority party in each legislative body; and
- (3) Removes the maximum per diem amount which may be paid to commission members appointed by the Governor.

All state retirement plans are required to develop affirmative action plans for the utilization of minority and women money managers, brokers, and investment counselors.

The bill also moves the provisions governing the commission from Chapter 33, RSMo, to Chapter 37 and updates intersectional references accordingly.
