

HB 161 -- Waste Tires

Sponsor: Harris (110)

The waste tire fee expired on January 1, 2004. This bill reimposes the fee until January 1, 2010.

After that date, the fee will be reduced to 25 cents per tire; and all funds collected, less the Department of Revenue's collection cost, will go to the Department of Natural Resources for waste tire removal from illegal dumps, grants to persons developing uses for waste tires, and resource recovery activities.
