

HB 223 -- Transportation Oversight Advisory Committee

Sponsor: Bland

This bill requires the Department of Transportation to create an oversight advisory committee to examine traffic congestion problems in Kansas City at the intersections of U. S. Highway 71 at 52nd Street, 55th Street, and 75th Street. The department along with the Highways and Transportation Commission must conduct a feasibility study to determine whether an overpass system should be established at these intersections and explore other alternatives to help alleviate congestion. A report summarizing the department's findings must be submitted to the General Assembly by December 1, 2005.
