

HB 264 -- Undergraduate Student Tuition

Sponsor: Smith (14)

This bill freezes undergraduate tuition at any higher education institution that receives any state funds at the level the tuition was when the student enrolled for the four continuous years afterward, beginning with the 2005-2006 school year. If a student enrolls in a degree program that takes more than four years to complete, the tuition freeze will be for the customary time required to complete the program, as defined by the institution. If a student changes majors, tuition will be frozen at the level of tuition charged when the student first enrolled.
