FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Public Safety – Missouri State Highway Patrol** assume the proposal would have no fiscal impact on their agency.

Officials from the **Office of State Courts Administrator** assume the proposed legislation would have no fiscal impact on the courts.

Officials from the **Office of Prosecution Services** assume the proposal would not have a significant direct fiscal impact on county prosecutors, although it may lead to an increase in prosecutions and caseloads.

Officials from the **Office of the State Public Defender (SPD)** assume existing staff could not provide competent, effective representation for any cases arising where indigent persons were charged with the proposed enhanced crime of making a false report, a class D felony. SPD assumes this new crime will require more SPD resources. While the number of new cases (or cases with increased penalties) may be too few or uncertain to request additional appropriations for this specific bill, the SPD will continue to request sufficient appropriations to provide competent and effective representation in all its cases.

ASSUMPTION (continued)

Oversight assumes the Office of the State Public Defender (SPD) could absorb the costs of the proposed legislation within existing resources. Oversight assumes any significant increase in the workload of the SPD would be reflected in future budget requests.

Officials from the **Department of Corrections (DOC)** assume this proposed legislation increases the penalty for making a false report from a class B misdemeanor to a class D felony.

The DOC doesn't supervise probation on class B misdemeanors, which is the existing penalty provision for this statute. Office of State Courts Administrator reported 199 cases in 2004 and 169 in 2005 throughout the state for making false reports. These numbers do not include cases from the 450 MO municipalities which prosecute misdemeanor cases.

Currently, the DOC cannot predict the number of new commitments which may result from the enhancement of the offense(s) outlined in this proposal. An increase in commitments depends on the utilization by prosecutors and the actual sentences imposed by the court.

If additional persons are sentenced to the custody of the DOC due to the provisions of this legislation, the DOC will incur a corresponding increase in operational cost either through incarceration (FY05 average of \$39.13 per inmate, per day or an annual cost of \$14,282 per inmate) or through supervision provided by the Board of Probation and Parole (FY03 average of \$3.15 per offender, per day or an annual cost of \$1,150 per offender).

At this time, the DOC is unable to determine the number of people who would be convicted under the provisions of this bill and therefore the number of additional inmate beds that may be required as a consequence of passage of this proposal. Estimated construction cost for one new medium to maximum-security inmate bed is \$55,000. Utilizing this per-bed cost provides for a conservative estimate by the DOC, as facility start-up costs are not included and entire facilities and/or housing units would have to be constructed to cover the cost of housing new commitments resulting from the cumulative effect of various new legislation, if adopted as statute.

In summary, supervision by the DOC through incarceration or probation would result in additional costs and although the exact fiscal impact is unknown, it is estimated that potential costs will be in excess of \$100,000 per year.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

DESCRIPTION

The proposed legislation increases the penalty for the crime of making a false report from a class B misdemeanor to a class D felony.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
