### FISCAL ANALYSIS

#### ASSUMPTION

Officials from the **Department of Economic Development - Division of Finance** state the bill requires the Director of Finance to establish procedures to assist financial institutions in preventing the use of its facilities or instruments in online or internet gambling transactions. This will require additional duties on the Division of Finance, but the Division feels they could handle the additional duties with existing staff. Therefore, the proposal has no fiscal impact on their agency.

Officials from the **Office of Secretary of State (SOS)** state many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$1,500. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with the core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.
