MISSOURI HOUSE OF REPRESENTATIVES

July 2006

Dear Fellow Missourians,

Missouri legislators recently marked the conclusion of the 2006 regular legislative session of the 93rd General Assembly. It was a productive session where your representatives continued the tradition of passing legislation that both benefits Missourians and builds upon Missouri's tradition as a great place in which to live and work.

Newly drafted laws will curb the use of eminent domain for solely economic development purposes and will send a message to child sex offenders that their actions are not welcome in our state. Reforms to the medical malpractice industry will stabilize costs for doctors and, in turn, patients. Missouri's thriving economy gave us a modest budget surplus and allowed us to put \$6.1 million toward helping low-income Missourians with utility costs. Finally, a flexible standard for Missouri fuels to consist of 10% ethanol blend by January 1, 2008, will provide jobs for rural Missouri, decrease our dependence on foreign oil, and establish our state as a leader in the renewable fuels industry.

This booklet contains summaries of all the bills passed in the 2006 session. It is being distributed by the House of Representatives so that you may be better informed of the work of the General Assembly. All legislation passed and signed by the Governor will take effect August 28, 2006, unless it has a specific effective date or an emergency clause as noted in the summary.

If you have questions or would like to obtain additional copies of this booklet, please contact your State Representative or House Research, Room B-38, State Capitol, Jefferson City, Missouri 65101-6806, (573) 751-2979.

Sincerely,

A handwritten signature in black ink, reading "Rod Jetton".

SCS HCS HB 977 — ELECTION OF MUNICIPAL OFFICERS

This bill allows fourth class cities with a population of 1,000 or less to elect aldermen at-large instead of dividing the city into wards.

SCS HCS HB 978 — VIETNAM WAR MEDALLION PROGRAM

This bill establishes the Vietnam War Medallion Program. Every veteran who honorably served during this war is entitled to receive a Vietnam War medallion, medal, and a certificate of appreciation if the veteran is or was a legal resident of Missouri when he or she entered or was discharged from military service or at the time of his or her death. Any spouse or eldest living survivor of a deceased veteran who is entitled to the medallion may receive it on behalf of the deceased veteran.

The Adjutant General will administer the program. Applications for the medallion can be filed with the Office of the Adjutant General at any time after January 1, 2007. Medallions will be awarded until the supply is exhausted. The Adjutant General must notify the General Assembly when the supply of medallions is less than 100.

The bill creates the Vietnam War Veterans' Recognition Award Fund which will be administered by the Adjutant General. The fund will consist of gifts, donations, and funds transferred to the Veterans Commission Capital Improvement Trust Fund from any remaining balances in the World War II Veterans' Recognition Award Fund and the Korean Conflict Veterans' Recognition Award Fund. The moneys in the fund will be used to solicit designs and to manufacture and distribute the medallion, medal, and certificate.

HB 983 — DISPLAY OF FLAGS

This bill requires the United States and the Missouri state flags to be flown at half-staff on all government buildings on September 11 of each year.

HB 984 — DISPLAY OF THE POW/MIA FLAG

This bill encourages all government buildings, businesses, and Missouri residents to display the POW/MIA flag on Memorial Day, July 4, September 11, and Veterans Day.

SS SCS HCS HB 1026 — FUNERAL PROTESTS

This bill makes it a class B misdemeanor to picket or protest in front of or about any location at which a funeral is held within one hour prior to the commencement and until one hour following the cessation of any funeral. Any subsequent violation will

be a class A misdemeanor. Currently, a person is prohibited from picketing or protesting in front of or about any church, cemetery, or funeral establishment.

The bill contains an emergency clause.

HCS HB 1053 — ARREST RECORDS

Currently, when a case is dismissed or nolle prossed or when the accused is found not guilty or imposition of sentence is suspended, access to official court records for persons arrested and charged is limited to law enforcement agencies, child care agencies, residential care facilities, and skilled nursing facilities. This bill authorizes access to official court records to victims of offenses against the family found in Chapters 566 and 568, RSMo. The official records will be released only for use in the victim's own judicial proceeding.

HCS HB 1138 — POLICE MILITARY LEAVE

This bill allows members of the Police Retirement System of Kansas City to receive service credit for time spent in military service during a war. Members will not be required to pay member contributions for this service time.

SCS#2 HCS HB 1149 — REGULATION OF WATER

This bill changes the laws regarding the regulation of water. In its main provisions, the bill:

(1) Authorizes the Board of Fund Commissioners, in addition to the amounts authorized prior to August 28, 2007, to issue bonds for grants and loans under Article III of the Missouri Constitution. The additional amounts authorized are \$10 million for water pollution control, improvement of drinking water systems, and storm water control; \$10 million for rural water and sewer; and \$20 million for storm water control in first classification counties and St. Louis City;

(2) Increases the maximum amount of fees that can be charged by the Department of Natural Resources in order to comply with the federal Safe Drinking Water Act. The Safe Drinking Water Commission may charge lower fee amounts at its discretion. The authorization to impose fees is extended until September 1, 2012;

(3) Authorizes public water supply districts, sewer districts, and municipalities to install and maintain sewer and water lines in public highways, roads, and streets subject to the reasonable rules of the jurisdictional governing body. The Highways and Transportation Commission retains ultimate authority to monitor construction in the right-of-way of any state highway;

(4) Authorizes the Clean Water Commission of the State of Missouri to provide listings required by Section 303(d) of the federal Clean Water Act to the federal Environmental Protection Agency. Procedures are

specified in the bill and include public notice and judicial review requirements;

(5) Allows the department director or the commission to require a bond for the construction of innovative wastewater treatment facilities that have not been approved by any federal agency or another state's environmental regulatory agency;

(6) Extends the authorization for certain permit fees under Sections 644.052 and 644.053, RSMo, until December 31, 2009;

(7) Revises the definition of "point source" in Section 644.016 to exclude agricultural storm water discharges and flows from irrigated agriculture; and

(8) Exempts the new St. Louis baseball stadium from the equal number of men and women's restroom requirement until one year after its completion.

HCS HB 1180 — SCHOOL TRANSPORTATION

This bill allows school districts that can demonstrate certain unsafe traffic conditions to provide transportation to students who live less than one mile from school without incurring an administrative penalty from the State Board of Education.

HCS HB 1182 — JURISDICTION OF JUVENILE COURTS

This bill allows a parent, legal guardian, or other person having legal custody of a child who is at least 15 years of age to petition a court to extend the jurisdiction of a juvenile court until the child is 18 years old. These provisions will not apply to a child who has received a high school diploma or its equivalent.

Law enforcement officers, juvenile officers, school personnel, or court personnel will not be held civilly or criminally liable if their action or failure to act was based on a good faith belief that a child was not under the jurisdiction of a juvenile court.

HB 1204 — DUTIES OF JAILERS

This bill authorizes jailers to serve arrest warrants on individuals who are already inmates in the custody of the facility in which the jailer is employed.

HB 1222 — SPECIAL DEPUTY CORONERS

This bill allows a coroner or medical examiner to appoint a special deputy coroner or special deputy medical examiner in the event of any natural disaster, mass casualty, or other emergency situation. All appointees will be directly supervised by the coroner or medical examiner, will not serve more than 30 days, and will not receive compensation for services rendered. However, any necessary expenses incurred in the performance of official duties will be reimbursed.

The coroner or medical examiner making the special appointment must file a record of the appointee's full name, address, date of birth, date of appointment, and date of termination with the county clerk.

HB 1234 — NURSING STUDENT LOAN REPAYMENT PROGRAM

This bill changes the laws regarding the Nursing Student Loan Repayment Program. "Eligible student" is defined as a person who has been accepted as a full-time nursing student, rather than a person who has applied for admission. Currently, 25% of the loan is forgiven for each year of employment. The bill revises the repayment provision to allow forgiveness through employment without a specific schedule.

HB 1245 — SCHOOL NURSES

This bill allows each school board to authorize a school nurse to keep on hand and administer prefilled syringes of epinephrine in two dosage strengths. The nurse may administer the medication when, based on training, he or she believes a student is having an acute anaphylactic episode. HCS HB 1256 — STATE OBSERVANCE

This bill establishes February 4 each year as "Rosa Parks Day" and makes it a state observance.

CCS SCS HCS HB 1270 & 1027 — MISSOURI RENEWABLE FUEL STANDARD ACT

This bill establishes the Missouri Renewable Fuel Standard Act which requires, by January 1, 2008, that all gasoline sold in Missouri contain at least 10% agriculturally derived, denatured ethanol by volume unless exempted by the federal Environmental Protection Agency, by a rule promulgated by the Director of the Department of Agriculture, or by an executive order issued by the Governor. Any regional waiver will be implemented so as not to give any region a competitive advantage or disadvantage. The provisions of the bill do not apply to premium gasoline, E75-E85 fuel ethanol, bulk transfers between terminals, or gasoline sold for use in aircraft.

If a distributor is unable to purchase fuel ethanol or fuel ethanol-blended gasoline at the terminal from a position holder or supplier at the same or a lower price as unblended gasoline, the purchase of unblended gasoline by the distributor and the sale of the gasoline at retail will not be a violation of the gasoline-content requirement.

All fuel terminals in the state except those that only offer federal reformulated gasoline for sale must offer fuel ethanol, fuel ethanol-blended gasoline, and unblended gasoline.

Fuel retailers, wholesalers, distributors, and marketers are allowed to purchase fuel ethanol from any terminal, position holder, fuel ethanol producer, fuel ethanol wholesaler, or supplier. If a court of competent jurisdiction determines that this provision does not apply to or improperly impairs existing contractual relationships, it will apply only to future relationships.

A “Missouri qualified biodiesel producer” is defined as a facility that is at least 51% owned by Missouri resident agricultural producers who are actively engaged in agricultural production for commercial purposes or a facility that uses at least 80% Missouri feedstock in the production of biodiesel. The feedstock requirement may be waived by the Director of the Department of Agriculture on a month-to-month basis if the facility provides verification that an adequate supply of Missouri feedstock is not available.

The Missouri Qualified Biodiesel Incentive Fund will expire December 31, 2009. Producers receiving incentive grants prior to the expiration date will be eligible to receive all remaining incentive grants as specified in the bill.

HCS HB 1339 — REAL ESTATE BROKERS

This bill changes the laws regarding real estate brokers. In its main provisions, the bill:

- (1) Defines “advertising”;
- (2) Exempts Internet advertising communications from licensing requirements when the advertising of real estate is incidental to its operation;
- (3) Requires an applicant for a real estate broker’s license to work as a real estate salesperson for at least two years instead of the current one-year requirement prior to making application for a license; and
- (4) Requires any notice of appeal for the revocation of a license to be sent to the Administrative Hearing Commission by certified mail.

HCS HB 1343 — CIRCUIT COURT FACILITIES IN LEWIS COUNTY

This bill repeals the requirement that the City of Canton provide the resources and space for a circuit court in Lewis County. The procedural responsibilities of the circuit court are also repealed.

The bill becomes effective December 31, 2006.

HCS HB 1344 — FIREMEN’S RETIREMENT SYSTEM OF ST. LOUIS

The bill contains an emergency clause.

SCS HCS HB 1380 — MISSOURI PUBLIC-PRIVATE PARTNERSHIPS TRANSPORTATION ACT

This bill establishes the Missouri Public-Private Partnerships Transportation Act and authorizes the Highways and Transportation Commission to form a public-private partnership to use private sector innovation and investments to build a new Mississippi River bridge in St. Louis.

Potential private partners may submit to the commission an unsolicited request for approval of a project to finance, develop, and/or operate the bridge.

The commission must establish a process to accept and review requests and may approve the project if it determines the bridge will improve the state highway system and is a needed addition. To promote and support the objectives of the United States foreign policy regarding terrorism, the commission must establish, prior to the receipt and review of any request for the approval or response to a request for proposal, a policy that prohibits a private partner from entering into an interim or comprehensive agreement with the commission to finance, develop, and/or operate the project if the private partner, its subsidiaries, or affiliated entities are known to sponsor terrorism or aid the government of countries that are known to sponsor terrorism. The commission is not required to select the proposal which has the lowest price but may consider price, design, financing plan, and other factors like the qualifications, industry experience, and financial capacity of the potential private partner to determine the best value for the state.

The commission may execute an interim agreement with a tentatively approved private partner to begin specific compensable activities to further the development of the project. The commission, as a condition for final approval, must execute a comprehensive agreement with the private partner. The agreement requirements are specified in the bill. The commission may terminate negotiations with a potential private partner during the interim or comprehensive agreement phase as well as reject any and all requests for approval.

Any information submitted to the commission by potential private partners in requests for approval or responses to a request is a closed record under the state’s Sunshine Law. After a comprehensive agreement

is executed by a private partner and the commission, the agreement and other materials submitted to the commission by the private partner will be open records.

Private partners will have the power:

- (1) To contract with any public or private entity;
- (2) To lease or operate the project for any term as provided in the comprehensive agreement;
- (3) To collect and enforce user fees; and
- (4) To issue corporate bonds, private activity bonds, refunding bonds, notes, and other obligations.

A private partner will be required to provide:

- (1) Securities and warranties satisfactory to the commission;
- (2) Audited financial statements in a form acceptable to the commission;
- (3) Evidence of sufficient commercial general liability insurance and workers' compensation insurance;
- (4) Performance and payment bonds acceptable to the commission; and
- (5) A detailed disadvantaged business enterprise participation plan that conforms to commission reporting requirements for the federal Disadvantaged Business Enterprise Program pursuant to federal law and regulations on federal-aid highway projects.

The commission may:

- (1) Delegate necessary powers of the commission to carry out the provisions of the bill;
- (2) Promulgate rules;
- (3) Make all final decisions concerning the performance and the acceptance of the work;
- (4) Impose a user fee;
- (5) Take any action to obtain federal, state, or local government or private sector assistance for a project and enter into contracts required for the assistance;
- (6) Lease the project and any interest it has in real property to the private partner; and
- (7) Exercise the powers of condemnation to acquire any real property required for the project.

The bill also establishes tort liability caps for the private partner and its employees and agents in amounts identical to those established in the sovereign immunity statutes and requires the commission to make an annual report to the Joint Committee on Transportation Oversight regarding the public-private partnership's method of financing, developing, and/or operating the project.

Pregnancy resource centers are nonresidential facilities that provide assistance and support to women with crisis or unplanned pregnancies and do not provide abortions or referrals for abortion services.

The tax credit may be taken against income tax, corporate franchise tax, insurance premium tax, financial institutions tax, and express company tax liability. The tax credit is not refundable, but can be carried forward and claimed for up to four taxable years.

The maximum credit a taxpayer can claim is \$50,000 per year, and the minimum contribution must be at least \$100. The statewide maximum of tax credits that can be taken in any one year is \$2 million. The Department of Social Services is to designate the centers and apportion the credits when the applications exceed the statewide cap.

The children in crisis tax credit has a cumulative cap equal to the unclaimed portion of the resident adoption tax credit. The amount available will be equally divided among the agencies, and any unused portion not used by an agency will be available to the remaining agencies. After all the children in crisis tax credits have been claimed, any remaining unclaimed portion of the reserved allocation will be made available for nonresident special needs adoption tax credits claims. (6) Allows the director to issue administrative orders and seek other remedies specified in the bill to assure compliance for violations of the provisions relating to reporting medical malpractice information;

(8) Prohibits an insurer from increasing malpractice insurance rates by more than 15% or refusing to renew a policy without at least 60 days' written notification unless requested by the insured or due to changes in the insured's practice or risk characteristics. Insurers cannot cease issuing policies in this state without 180 days' written notice to the insured and the director. If an insurer fails to give notice, the policyholder has the right to continue coverage under the policy; and

(9) Creates the Health Care Stabilization Fund Feasibility Board within the department to analyze medical malpractice data to determine whether a health care stabilization fund should be established in Missouri. The board will consist of 10 members including the department director, a medical doctor, a doctor of osteopathy, a licensed nurse, a representative of Missouri's hospitals, a family physician, and two members each from the Senate and House of Representatives. As part of its duties, the board will conduct a comprehensive study on whether a health care stabilization fund is feasible within Missouri, or specified geographic regions thereof, or for specific medical specialties. If the board determines that a fund is feasible, it will recommend to the General Assembly the structure, design, and funding. The director will appoint the members of the board, other than the General Assembly members, no later than January 1, 2007. The board will meet at least quarterly submitting annual reports on its progress with a final report and recommendations to the Governor and General Assembly by December 31, 2010, when the board expires.

CCS SS SCS HCS HB 1944 — EMINENT DOMAIN

This bill changes the laws regarding the use of eminent domain. The power of eminent domain will be vested in governmental entities or agencies whose governing body is elected or appointed by elected officials, private utility companies, public utilities, rural electric cooperatives, municipally owned utilities, pipelines, railroads, and common carriers. In its main provisions, the bill:

(1) Specifies that private property may only be taken through the use of eminent domain after determining blight of the property or the taking is for a public use and not without just compensation;

(2) Defines “fair market value,” “heritage value,” “farmland,” and “homestead taking”;

(3) Specifies that farmland will not be determined to be blighted;

(4) Requires that for all condemnations filed after December 31, 2006, just compensation for condemned property will be determined by fair market value, homestead taking which is fair market value multiplied by 125%, or heritage taking which is fair market value multiplied by 150%;

(5) Specifies that all displaced residential individuals eligible for assistance will receive a \$1,000 fixed moving expense payment or the actual reasonable costs of relocation not including the cost of replacement property. All displaced businesses eligible for relocation assistance can choose to receive a \$3,000 fixed moving expense or the actual costs of moving and up to \$10,000 for reestablishment expenses;

(6) Requires the circuit judge presiding over the condemnation to determine after the filing of the commissioners’ report whether a homestead taking has occurred and whether heritage value is to be paid to the property owner;

(7) Specifies that at least 60 days prior to initiating negotiations to acquire a property interest, the condemning authority must give a written notice to the owner of record identifying the interest in real property to be acquired; the purpose for which the property is being condemned; and a statement of the property owner’s rights including the right to seek legal counsel, to make a counteroffer and engage in negotiations, to obtain the landowner’s own appraisal, to contest the condemnation proceeding, and to have just compensation determined preliminarily by court-appointed condemnation commissioners and, ultimately, a jury. The jury will consider the same factors as those used for determining just compensation when blighted property or property for a public use is taken. If the property owner obtains his or her own appraisal, it must be delivered to the condemning authority within 60 days from the date of the notice;

(8) Specifies that a written offer must be presented to the property owners of record at least 30 days before filing a condemnation petition;

(9) Requires that before a condemning authority may proceed with a condemnation, there must be a court determination that proper and timely notice was given to all property owners, an initial offer no lower than the appraisal amount was given, and that the landowner was given an opportunity to obtain his or her own appraisal from a state-licensed or state-certified appraiser of his or her choice. If the court finds good faith negotiations have not taken place, the court must dismiss the condemnation petition and order the condemning authority to reimburse the owner for his or her actual reasonable attorney fees and costs;

(10) Requires the court to order payment of the landowner's legal fees and expenses and award damages accruing as a direct and proximate result of the pendency of the condemnation if the condemning authority abandons condemnation prior to the final judgment of the court;

(11) Specifies that no condemning authority can acquire private property through the use of the power of eminent domain for solely economic development purposes and defines "economic development" to mean a use of a specific piece of property which would provide an increase in the tax base, tax revenues, employment, and general economic health for any political subdivision;

(12) Requires the condemning authority to individually consider each parcel of property in an area with regard to whether the property is blighted. If the condemning authority finds a preponderance of the area is blighted, it may proceed with the condemnation of any parcel in the area;

(13) Specifies that property interests acquired through eminent domain by private utility companies, public utilities, rural electric cooperatives, municipally owned utilities, or common carriers are fixed and determined by the particular use for which the property was acquired. Any expanded use of the property will require additional eminent domain proceedings to acquire the additional rights;

(14) Establishes an Office of Ombudsman in the Office of Public Counsel within the Department of Economic Development to assist citizens seeking information regarding the condemnation process and procedures;

(15) Specifies that blanket easements will be void as against public policy and will be unenforceable;

(16) Allows any financial gain to the property owner arising from a condemnation action to be deducted from the taxpayer's federal adjusted gross income when calculating his or her Missouri adjusted gross income;

(17) Specifies that any easements acquired after December 31, 2006, and abandoned in whole for a period in excess of 10 years may be vacated by a court of competent jurisdiction and upon the property owner paying monetary consideration equal to the original consideration paid by the easement holder. The holder of the easement must be a party to the action and may be allowed to maintain the easement upon a showing, in good faith, that the holder plans to make future use of the easement; and

(18) Specifies that within 30 days of the initial notice by the condemning authority, a landowner may propose an alternative location on his or her property which must be considered by the condemning authority.

HJR 55 — COMPENSATION AND DISCIPLINE OF PUBLIC OFFICIALS

Beginning January 1, 2007, this proposed constitutional amendment prohibits, upon voter approval, public officials from receiving any state pension if they are convicted of felonies while serving in office, removed from office for misconduct, or impeached.

The amendment requires a two-thirds majority vote by the General Assembly in order to veto the compensation schedule recommended by the Missouri Citizens' Commission on Compensation for Elected Officials. The requirement that the compensation schedule be subject to appropriations by the General Assembly is repealed. No compensation schedule approved by the commission will apply to members of the General Assembly until January 1, 2009.

SB 558 — EXPERIMENTAL TARIFFS OF GAS CORPORATIONS

SB 561 — EXCURSION GAMBLING BOAT ADMISSION FEE REVENUE

This bill limits the expenditures that can be made from funds derived from admission fees paid to the City of St. Charles and St. Charles County by excursion gambling boats to no more than the amount of revenue received from these fees in Fiscal Year 2007. If a new excursion gambling boat locates in the City of St. Charles or St. Charles County, the amount of expenditures from funds derived from admission fees cannot exceed the average revenue received by the city or county from admission fees during the first two fiscal years in which the boat is open for business. In the future, if the city or county collects admission fee revenue in excess of what it collected in Fiscal Year 2007, the revenue will be treated as if it were sales tax revenue; and the city or county must reduce its total general revenue property tax levy.

For fiscal years 2010 through 2014, at least 70% of the admission fee revenues must be used for expenses related to capital, cultural, and special law enforcement purposes. For fiscal years 2015 and beyond, the amount is increased to at least 80%.

HCS SCS SB 567 & 792 — HEALTH INSURANCE COVERAGE

This bill changes the laws regarding health insurance coverage.

HEALTH INSURANCE BENEFITS

Currently, an employer may provide or contract for health insurance at a reduced premium rate for employees who do not smoke or use tobacco products. The bill allows an employer to also provide or contract for health insurance at a reduced deductible level for employees who do not smoke or use tobacco products. Insurers or small-employer carriers offering these policies will not be in violation of any unfair trade practice.

HEALTH INSURANCE COVERAGE FOR CLINICAL TRIALS

The bill requires health insurers to cover routine patient care costs incurred as a result of phase II clinical trials for cancer treatment. Currently, coverage is only required for phase III or IV of these trials. The provisions regarding phase II of a clinical trial will not automatically apply, but must be an option to any individually underwritten health benefit plan.

HEALTH INSURANCE CO-PAYMENTS FOR PRESCRIPTION DRUGS

Health insurers will be required to charge only one co-payment on a prescription if the required single dosage is not available and a combination of dosage amounts must be dispensed to fill the prescription. This provision does not apply to prescriptions in excess of a one-month supply. If technology does not permit adjudication, the health carrier or health benefit plan will provide reimbursement forms for the patients.

The bill contains goals to accomplish the coordination. The group is required to report annually to the General Assembly and the Governor on their agencies’ actions and recommendations for initiatives and statutory changes.

HCS SS#2 SCS SB 583 — VEHICLE EMISSIONS INSPECTION PROGRAM

This bill revises the state’s vehicle emissions inspection program by creating a decentralized emissions inspection program in which only motor vehicle safety inspection stations and other entities

certified by the Air Conservation Commission will conduct emissions inspections. The program will apply consistently throughout the City of St. Louis and the counties of St. Louis, St. Charles, Jefferson, and Franklin.

Prior to September 1, 2007, the commission must develop a program which allows official emissions inspection stations to conduct onboard diagnostic testing on 1996 and newer vehicles. Before issuing a certificate of authorization to a prospective station, the commission must determine if the applicant will be properly equipped, has qualified emissions inspectors, and meets other requirements specified by the commission. Official inspection stations which are certified will be allowed to repair motor vehicles to bring them into compliance.

The Department of Natural Resources must issue a report to the General Assembly and the Governor regarding the progress of implementing the decentralized emissions inspection program. The report will include how many inspection stations or individuals the department expects to participate in the program and how many will be qualified by September 1, 2007, to conduct emissions inspections. The department will also be required to actively promote participation in the decentralized emissions inspection program among qualified motor vehicle dealers, service stations, and other individuals. After the implementation of the program, the department must monitor participation and attempt to ensure, through promotional efforts, that no more than 20% of all persons residing in the affected nonattainment area reside farther than five miles from the nearest inspection station.

The fee for an emissions inspection will not exceed \$24. Vehicle owners will not be charged an additional fee for a reinspection if completed within 20 days, excluding Saturdays, Sundays, and holidays. The commission must establish by rule a waiver amount not to exceed \$450. The waiver amount for an owner that performs repair work on his or her own vehicle will be \$400 if the cost of the parts used by the owner is equal to or greater than \$400. The cost for labor performed by the owner will not count toward the waiver limit. The commission may establish by rule a lower waiver amount for owners who provide reasonable and reliable proof that they are financially dependent solely on state and federal disability benefits and other public assistance programs. This proof must be submitted to the commission 30 calendar days prior to each subsequent emissions inspection before the lowered waiver amount is allowed. The Director of the Department of Revenue may verify a successful inspection electronically.

The bill exempts from the inspection requirements diesel-powered vehicles except light-duty, diesel-powered vehicles manufactured after 1996 with a gross

vehicle weight rating of 8,500 pounds or less; new motor vehicles not previously titled and registered for a four-year period following their model year of manufacture if the odometer reading is less than 40,000 miles at their first required biennial safety inspection; school buses; and motor vehicles driven fewer than 12,000 miles between biennial safety inspections. Vehicles which are inspected and approved prior to a sale or transfer will not be subject to another emissions inspection for 90 days after the date of sale or transfer.

The procedures for becoming an official emissions inspection station are specified. The commission may suspend a station's certificate of authority to conduct emissions inspections if the station is given due process as specified in the bill.

The Department of Natural Resources and the State Highway Patrol will provide oversight of the emissions inspection program. Beginning October 1, 2008, and every October 1 thereafter, the department and the patrol must jointly submit an annual report to the General Assembly detailing the oversight measures implemented for the program, data collected regarding compliance and incidents of fraud, and recommendations for improvements to the program.

The bill dissolves the Missouri Air Pollution Control Fund and transfers its moneys to the Missouri Air Emission Reduction Fund.

The bill becomes effective September 1, 2007.

HCS SS SCS SB 872, 754 & 669 — SAFE OPERATION OF MOTOR VEHICLES

This bill changes the laws regarding the safety of highway workers, emergency workers, and other motorists; child passenger restraints and safety belts; and chemical testing of intoxicated drivers.

HIGHWAY WORK ZONE SAFETY

The bill increases various penalties for offenses occurring within highway work zones or construction zones. Any person convicted of a second or subsequent moving violation within a work zone will be assessed a fine of \$75. A person convicted of speeding or passing a vehicle within a work zone when a highway worker is present a second or subsequent time will be assessed \$300 in addition to any other fines authorized by law. The crime of endangerment of a highway worker is created. If a person commits the crime but no injury or death results, the person will be subject to a fine of not more than \$1,000 and will have four points assessed against his or her driver's license. A person will be guilty of aggravated endangerment of a highway worker if a death or injury results. If a person injures or kills a highway worker in a work zone, he or she will be subject to a fine of not more than \$5,000 if there was an injury and not more than \$10,000 if a death resulted and will have 12 points assessed against his or her driver's license.

A person commits the crime of endangerment of a highway worker if the motorist:

(1) Exceeds the posted speed limit in a construction or work zone by 15 miles per hour or more;

(2) Passes another vehicle in a work zone causing the death or injury of a highway worker;

(6) Commits various offenses in which points may be assessed as specified in the bill.

FAILURE TO YIELD (CLUTCH'S LAW)

The bill imposes an additional penalty and driver's license suspension on any person failing to yield the right-of-way when the violation results in physical injury, serious physical injury, or death to a person.

MOVE-OVER LAW

The bill increases the penalty for failing to yield the right-of-way to an emergency vehicle from a class B misdemeanor to a class A misdemeanor. A person

commits the crime of involuntary manslaughter in the first degree if he or she fails to move over into another lane of traffic or slow down when he or she approaches a stationary emergency vehicle and with criminal negligence causes the death of an emergency worker. A violation will be a class B felony. A person commits the crime of assault in the second degree if he or she fails to move over into another lane of traffic or slow down when he or she approaches a stationary emergency vehicle and with criminal negligence causes injury to an emergency worker performing his or her official duties. A violation will be a class C felony.

SCHOOL BUSES

The penalties for motorists who fail to stop for school buses that are loading or unloading children are increased. Any person who fails to properly yield for a school bus and the failure results in the injury of any child will be guilty of a class D felony. Any person who fails to properly yield for a school bus causing the death of a child will be guilty of a class C felony.

CHILD PASSENGER RESTRAINTS AND SAFETY BELTS

The bill requires children of certain ages, weights, and heights to be restrained by either a child passenger restraint system, booster seat, or safety belt.

Children younger than four years of age, regardless of weight, are required to use an appropriate child passenger restraint system. Children weighing less than 40 pounds, regardless of age, are required to be secured in a child passenger restraint system appropriate for the child. Children who are four but less than eight years of age and who weigh at least 40 pounds but less than 80 pounds and are less than four feet nine inches tall must be secured in a child passenger restraint system or booster seat appropriate for the child. Children who weigh at least 80 pounds or children taller than four feet nine inches must be secured by a vehicle safety belt or booster seat appropriate for the child.

The bill allows a child to be transported in the back seat without a booster seat if the child is secured with a lap belt when the vehicle is not equipped with a combination lap and shoulder belt for booster seat installation.

A violation of the child passenger restraint/booster seat provisions will be an infraction with a fine up to \$50 plus court costs. The fine for violating the safety belt provision will be \$10. Charges for violating the child passenger restraint and booster seat provisions will be dismissed or withdrawn if the driver provides evidence prior to or at his or her hearing that he or she has acquired a child passenger restraint system or booster seat. The bill will not apply to public carriers for hire or students four years of age or older who are passengers on a school bus designed for carrying 11 passengers or more

and which is manufactured or equipped pursuant to Missouri's minimum standards for school buses.

The bill specifies that if there are more persons than there are seat belts in the enclosed area of a motor vehicle, the passengers who are unable to wear seat belts must sit in the area behind the front seat unless the vehicle is designed only for a front-seated area. Those passengers occupying the back seat location will not be in violation. This provision does not apply to passengers who are accompanying an intermediate driver's license holder. Currently, all passengers accompanying an intermediate driver's license holder must be properly restrained. The seat belt and child passenger restraint provisions of the bill will not be applicable to persons who have a medical reason for failing to have a seat belt fastened about their body or to persons operating or riding a motor vehicle being used in agricultural work-related activities.

A person who is tested will have the right to obtain full information concerning the test. Full information is limited to:

- (1) The type of test administered and the procedures followed;
- (2) The time the blood, breath, or urine sample was collected;
- (3) The numerical results of the test indicating the alcohol content of the blood, breath, and urine;
- (4) The type and status of any permit which was held by the person who performed the test; and
- (5) The date of the most recent required maintenance of any breath-testing instrument used.

Full information will not include manuals, schematics, or software of the instrument used to test the person, any other material that is not in the actual possession of the state, or information in the possession of the manufacturer of the test instrument.

The provisions in Section 304.351, RSMo, regarding failure to yield (Clutch's Law) become effective January 1, 2007.

(2) Prohibits industrial loan companies or industrial banks from establishing any deposit or loan production office or bank branch to conduct any banking business within the state;

(3) Requires a person seeking a repossession title to a motorboat, vessel, watercraft, or manufactured home to present a notice of lien receipt or the original certificate of ownership reflecting the holder's lien. The bill removes the requirement that the lienholder must present the original or photostatic copy of the security agreement and instead requires presentation of an affidavit that the lienholder has the written consent of all owners or lienholders of record to repossess the motorboat, vessel, watercraft, or manufactured home or has provided the parties with written notice of the repossession. The lienholder must give 10 days' written notice by first class mail to the owners and other lienholders;

(4) Increases the amount of a corporate surety bond that applicants for a license to sell travelers checks or money orders must have from \$25,000 to \$100,000. The bond will be used to secure the faithful performance of the obligations of the applicant and to pay the costs incurred by the Division of Finance within the Department of Economic Development to remedy any breach of the obligations of the applicant or to pay examination costs of the division that have not been paid. Upon license renewal, the bond amount will be either five times the highest outstanding balance or five times the greatest amount transmitted in a single day from the previous year with a minimum bond amount of \$100,000 and a maximum of \$1 million. The division director will be authorized to perform an examination of any person licensed under the bill if necessary; and

(5) Changes the reporting requirements of past due loan amounts that the board of directors of every bank and trust company must provide at their monthly meetings and allows lenders to accelerate maturity of an unpaid balance, take possession of the property, or enforce a security interest on a loan if a borrower has defaulted on a second mortgage three times.

CCS HCS SS SCS SB 894 — EDUCATION

This bill changes the laws regarding education. In its main provisions, the bill:

(1) Requires school districts, except the St. Louis Special School District, that have a levy lower than the performance levy of \$3.43 to certify to the Department of Elementary and Secondary Education that they are providing an adequate education. If the district asserts it is not providing an adequate education, the presumption is that insufficient local effort is causing the inadequacy (Section 163.021, RSMo);

(2) Revises the summer school penalty to a three-step phase-out, with the 2006-2007 threshold at 20%, 2007-2008 at 30%, and subsequent years until 2011-2012 at 35%. The penalty will be applied to any drop in summer school enrollment over the threshold level, rather than the entire drop from the base year 2005-2006 level. Small schools, as defined in the bill, are exempt from the penalty, and the penalty should not be construed to lower the amount of a hold-harmless payment. Summer school hours in physical education classes for grades 9 to 12 that do not count for graduation cannot be

counted for summer school average daily attendance. The formula adjustment for local effort is revised to reflect decreases in local revenue from the possible creation of a municipal court in St. Charles County on school districts located entirely within that county (Sections 163.011 and 163.031);

(3) Requires districts to adopt anti-bullying policies containing elements specified in the bill. The bill defines “bullying” and prohibits the listing of protected classes of students (Section 160.775);

(4) Requires the department to initiate a ready to work certificate for high school seniors who volunteer to meet standards that indicate they are ready for entry-level employment (Section 1);

(5) Establishes procedures for the City of St. Louis School District to report excessive absences, as defined in the bill, to the Children’s Division within the Department of Social Services for parental notification (Section 2); and

(6) Allows the State Board of Education to declare a district unaccredited if the district has been unaccredited within the last five years, achieved provisional accreditation, and goes back to unaccredited status. The lapse of the district will occur on June 30 or at a later date, as specified by the board. This provision becomes effective January 1, 2010 (Section 3).

SB 900 — DEAF AND HARD OF HEARING FUND

This bill removes the requirement that certain moneys in the Missouri Commission for the Deaf and Hard of Hearing Fund will revert to the credit of the General Revenue Fund.

SS SCS SB 912 — VIRTUAL PUBLIC SCHOOL

This bill requires the State Board of Education to establish a virtual public school by July 1, 2007. Any student in kindergarten through grade 12 may enroll, regardless of where the student lives within the state. For purposes of state school aid, the student will be considered as part of the enrollment of the district in which he or she physically resides if the parent chooses. The virtual public school will report aid-related data to the district of residence. A full-time equivalent student is one who completes six credits per regular term, and each virtual course will count as one class. The school district will retain 15% of the state aid for enrollees under Section 163.031, RSMo, related to the funding formula, and Section 163.043, related to the Classroom Trust Fund, attributable to the student. The virtual public school will receive 85% of the state adequacy target attributable to the student. The virtual public school must comply with all laws applicable to school districts including the state accreditation program, adequate yearly progress, annual performance report, teacher

certification, and curriculum standards. The Department of Elementary and Secondary Education must ensure that multiple providers are available from whom the curriculum may be obtained.

(1) Allows a county commission to reject the transfer of title of real property to the county by donation or dedication if it is in the best interest of the county to do so. The preparer of a document donating or dedicating real property to a county cannot submit the document for recording unless the grantee’s acceptance is proved or acknowledged (Section 49.292, RSMo);

(2) Establishes the salary schedule for public administrators in second, third, and fourth classification counties who choose to be paid by salary and who are considered full-time county officials as the base schedule for those officials, unless the current salary is lower than the compensation in the schedule (Section 50.327);

The county highway engineer is no longer required to examine and approve a road or road change before the county commission takes action on the road (Sections 228.040, 228.070, and 228.190); and

(8) Makes any term or provision in a contract unenforceable if it requires a public administrator who is acting as a guardian to personally pay or guarantee the debt of a ward or protectee (Section 473.748).

This bill increases the bonding limits for county library districts from 1% to 5% of the value of taxable, tangible property within the district.

SB 964 — APPOINTMENT AND DUTIES OF ASSISTANT ADJUTANTS GENERAL

The bill specifies that assistant adjutants general serve at the pleasure of the Adjutant General.

HCS SB 980 — NURSING AND TEACHING SCHOLARSHIPS

This bill changes the laws regarding the Nursing Student Loan Repayment Program. "Eligible student" is defined as a person who has been accepted as a full-time nursing student, rather than a person who has applied for admission. Currently, 25% of the loan is forgiven for each year of employment. The bill revises the repayment provision to allow forgiveness through employment without a specific schedule.

The bill also establishes the Urban Flight and Rural Needs Scholarship Program for up to 100 college education students who meet the grade point requirement and agree to teach in certain school districts. The scholarship may also be granted to certain community college students or individuals who have completed a bachelor's degree and make a commitment to pursue a career in teaching. The scholarship covers up to four years of tuition and fees at a Missouri college or university and is forgiven at a rate of one year of scholarship for every two years of teaching; otherwise, the scholarship is converted to a loan which is to be repaid at 9.5% interest a year. The Department of Elementary and Secondary Education will administer the program and provide 75% of the scholarship amount, subject to appropriations. The school district with which the recipient contracts will provide the remaining 25%. The department may defer interest under certain conditions and may sell the loan to the Missouri Higher Education Loan Authority (MOHELA).

The Urban Flight and Rural Needs Scholarship Program Fund is created and will consist of all moneys appropriated, gifts, contributions, grants, or bequests which are to be used solely for awarding scholarships under this program.

HCS SB 981 — STATE HIGHWAY PATROL

This bill allows the Superintendent of the State Highway Patrol to establish guidelines under which members of the patrol may accept secondary employment.

SB 990 — MEMORIAL HIGHWAYS

This bill designates a portion of State Highway 179 in Cole County between State Route C and U. S. Highway 54 as the “Wyman S. Basinger Memorial Highway” and a portion of State Highway H in Dent County from the intersection of State Highway 72 to the intersection of State Highway DD as the “Deputy Joann Barnes Memorial Highway.”

CCS HCS SCS SB 1001, 896 & 761 — DRIVERS' LICENSES

This bill changes the laws regarding the licensure of certain motor vehicle drivers.

LAWFUL PRESENCE

Applicants for a noncommercial driver's license who are 65 years of age or older and who were previously issued a Missouri driver's license, instruction permit, or nondriver's license will be exempt from showing proof of lawful presence. Any person who is not 65 years of age and does not have the required documents to prove lawful presence may be issued a one-year driver's license renewal. The renewal will only be issued to an applicant who has previously held a Missouri noncommercial driver's license, noncommercial instruction permit, or a nondriver's license for a period of 15 years or more and does not have the required documents to prove lawful presence. No further renewal will be issued without producing proof of lawful presence.

OUT-OF-SERVICE ORDERS

The Highways and Transportation Commission is allowed to suspend, revoke, or cancel the registration, license, permit, or other credentials issued to a motor carrier if a federal agency or the commission has issued an out-of-service order against the motor carrier. The law is applicable to out-of-service orders placing a motor carrier's entire operation out of service but does not apply to orders placing an individual driver or vehicle out of service.

If the commission issues an order, the motor carrier must not operate any commercial motor vehicle or allow an employee to operate any commercial motor vehicle in intrastate or interstate commerce. After the commission has issued an order, the motor carrier must surrender all license plates, motor carrier licenses, registrations, permits, and other credentials. After the commission has issued an order, the out-of-state motor carrier will not be eligible to apply for the issuance or reinstatement of any license, registration, permit, certificate, or other credentials until the out-of-service order has been rescinded or the orders have been set aside by a court of proper jurisdiction.

Any federal or state order will be admissible in administrative and court proceedings, and the orders will constitute prima facie evidence that the motor carrier violated federal regulations or that the motor carrier's operation of commercial motor vehicles poses an imminent hazard. The bill also changes the laws regarding the right to seek judicial review, law enforcement powers, and liability regarding an out-of-service order.

INTERMEDIATE DRIVER'S LICENSES

Beginning January 1, 2007, parents or legal guardians of applicants for a temporary instruction permit will be required to provide 40 hours of behind-the-wheel driving instruction including a minimum of 10 hours during the nighttime hours. Currently, only 20 hours are required.

For the first six months after the issuance of an intermediate driver's license, the driver cannot operate a vehicle with more than one passenger younger than 19 years of age who is not a member of the driver's immediate family. After the first six-month time period, the driver must not operate a vehicle with more than three passengers younger than 19 years of age who are not members of the driver's immediate family until he or she receives a full driver's license.

An intermediate driver's licensee will have 30 days before his or her eighteenth birthday to apply for and receive without further examination full driving privileges if he or she has had a clean record as specified in the bill for the preceding 12 months.

Any person who violates the provisions regarding intermediate drivers' licenses or temporary permits will be guilty of an infraction, but no points will be assessed against his or her driving record.

THIRD-PARTY TESTING

Beginning August 28, 2006, the Director of the Department of Revenue will only issue or renew third-party tester certification to junior or community colleges; private companies who own, lease, or maintain their own fleet and administer in-house testing to their employees; or school districts and their agents that administer in-house testing to their employees.

The provisions regarding lawful presence contain an emergency clause.

HCS SB 1002 — DRAINAGE DISTRICTS

This bill authorizes drainage district boards to impose an annual processing fee for assessed tracts when the board determines that the costs of preparing and processing the district's maintenance tax statement exceed the amount of taxes imposed. The fee will be set by the board at the district's annual maintenance tax hearing.

SCS#2 SB 1003 — CONVEYANCES OF STATE PROPERTY

This bill authorizes the Governor to convey state property located in St. Louis, Lincoln, Cole, Greene, St. Francois, Jackson, and Stoddard counties and the City of St. Louis.

The bill contains an emergency clause.

SCS SB 1008 — GOVERNOR'S ADVISORY COUNCIL ON AGRICULTURAL SCIENCE AND TECHNOLOGY

- (2) Identify the state's long-term needs regarding agricultural science and technology;
- (3) Provide scientific inquiry into regulatory matters upon request by the Governor; and
- (4) Identify potential economic opportunities for the state in the plant biotechnology industry.

CCS#2 HCS SS#2 SCS SB 1014 & 730 — ELECTIONS

This bill establishes the Missouri Voter Protection Act which changes the laws regarding elections. In its main provisions, the bill:

- (1) Specifies that for elections held on or before November 1, 2008, all eligible voters may cast a provisional ballot if they fail to meet the documentation or photographic identification requirements to cast a regular ballot. In order to vote a provisional ballot, a person must sign an affidavit and provide any state-issued identification, voter identification card, any identification issued by the United States, educational institution identification, non-Missouri driver's license, or other specified types of bills and documents. The provisional ballots will be confirmed by signature matching;
- (2) Requires that for any election after November 1, 2008, voters must establish their identity prior to voting by providing a nonexpired Missouri driver's license; a Missouri nondriver's license; certain specified documents; or photographic identification, without an expiration date, that is issued to members of the Missouri National Guard, the United States armed forces, or by the Veterans' Administration. A voter may cast a provisional ballot, but it will only count if he or she returns to the polling site with the appropriate identification during the election period;
- (3) Specifies that for all elections any person who has a physical or mental disability, has a religious belief

forbidding the use of photographic identification, or was born on or before January 1, 1941, may vote a provisional ballot upon signing an affidavit as specified in Section 115.427, RSMo;

(4) Requires that nondriver's licenses be provided free of charge to any eligible voter who lacks other means of identification. Mobile units will assist with issuing the nondriver's licenses, and the Director of the Department of Revenue will provide a report to the General Assembly on the number of nondriver's licenses issued for voting purposes and the reason for denying any request;

(5) Requires the Secretary of State to provide notice of the new voter requirements through major communications media such as radio, television, the Internet, and printed publications;

(6) Specifies that absentee ballots will not be mailed to voters who register by mail until they have voted in person or provided the newly required documentation or photographic identification to vote a regular ballot. Exceptions are allowed based on federal laws;

(7) Requires election authorities to create a list of legally registered voters using the process specified in Section 115.158. Precinct binders based on identification by election judges will no longer be sufficient for voter identification lists. Voter notification cards with the new photographic identification requirements will be mailed to registered voters;

(8) Specifies that challenges to the legitimacy of voter identification may be made only to election judges and election authorities as specified in Section 115.105;

(9) Provides the criteria for holding elections after natural or man-made disasters and authorizes three-judge panels formed by appellate court judges to allow the rescheduling of elections and to oversee elections. Appeals to the Missouri Supreme Court are allowed;

(10) Requires individuals registering more than 10 persons as new voters to register with the Secretary of State as voter registration solicitors. The process and requirements for registration are specified. Solicitors cannot be paid by the quantity of voters registered or the number of applications submitted, but the bill does not prohibit an hourly compensation. Failure to register will be a class three election offense;

(11) Specifies detailed criteria for counting different types of punch cards and optical scan ballots to help resolve disputes over how election authorities should judge ballots;

(12) Removes the ability to vote a straight party ticket;

(13) Gives election authorities in St. Charles County discretion on the number of ballots they print for elections. All other counties will be required to print a ratio of one and one-third times the number of ballots used in the specified types of previous elections held in those counties;

(14) Requires elections to be held for the board of trustees for community college districts even if the number of candidates is equal to the number of vacancies;

(15) Prohibits state courts from extending polling hours past those established by state law;

(16) Creates two new class one election offenses:

(a) Engaging in any acts of violence, destruction of property worth \$500 or more, or threats of violence with the intent of interfering with the right to vote; and

(b) Knowingly providing false information about election procedures for the purpose of preventing voting;

(17) Allows minor children to accompany their parents, grandparents, or guardians into a voting booth;

(18) Removes the ability to vote an advance ballot; and

(19) Removes the ability for voters to challenge the removal of their names from registration lists in circuit court.

The provision regarding the issuance of a nondriver's license at no charge contains an emergency clause.

This bill changes the deadline for a county commission to set the annual tax rate from August 10 to September 20.

The bill contains an emergency clause.

CCS HCS SB 1017 — AGRICULTURAL PROGRAMS

Currently, the Department of Health and Senior Services and the Department of Agriculture are responsible for ensuring appropriate and effective enforcement of the state milk standards based on an annual official rating survey. This bill replaces the state agencies with the State Milk Board as the official rating agency and requires that the surveys be conducted at least biannually.

The bill establishes the Family Farms Act which will allow small farmers who have obtained a loan for the purchase of breeding livestock a waiver of the interest payments for the first year. A small farmer will be eligible for one family farm loan, and the loan proceeds must be spent on one type of livestock. The maximum amount of a loan will be:

(1) \$75,000 for beef cattle;

(2) \$75,000 for dairy cattle;

(3) \$35,000 for swine; and

(4) \$30,000 for sheep and goats.

The Agricultural and Small Business Development Authority will administer the program and may charge a one-time fee of 1% of the loan amount. The bill will

allow a lender to apply to the authority for a tax credit in an amount equal to the amount of interest which would have otherwise been paid in the first year by the small farmer. Upon approval, the authority will issue a tax credit for taxes otherwise due in the year the credit was issued. The credit may be used to satisfy quarterly tax obligations, and any unused portion may be carried forward up to three years. The maximum amount of tax credits that can be issued in a year is \$150,000.

The bill contains small farmer qualification requirements and specifies the duties of the authority in administering the program.

The per-employee maximum amount of a loan under the Linked Deposit Program that an eligible job enhancement business may borrow from an eligible lending institution is raised from \$25,000 to \$50,000.

The bill also extends the expiration date on criminal court surcharges from August 28, 2006, to August 28, 2013.

SCS SB 1026 — VETERANS' PROGRAMS

The aggrieved party may, within 30 days after the party receives notice of the agency's decision, waive the independent review by the agency board and file a petition in circuit court for the de novo review of the agency's decision.

SB 1155 — TECHNICAL ADVISORY COMMITTEE ON THE QUALITY OF PATIENT CARE AND NURSING PRACTICES

HCS SS SCS SB 1229 — TAX CREDIT FOR CHILDREN IN CRISIS

To receive the credit, donations must be at least \$100, and the qualified agency receiving the contribution will

issue a contribution verification to the taxpayer to be attached to his or her income tax return.

In order to become a qualified agency, each year prior to December 31, an agency must apply to the Department of Social Services to verify its status. By February 1 of each year, the department will provide a list of qualified agencies to the Department of Revenue.

The children in crisis tax credit has a cumulative cap equal to the unclaimed portion of the resident adoption tax credit. The amount available will be equally divided among the agencies, and any unused portion not used by an agency will be available to the remaining agencies. After all the children in crisis tax credits have been claimed, any remaining unclaimed portion of the reserved allocation will be made available for nonresident special needs adoption tax credit claims. The bill allocates \$2 million of the tax credits for the adoption of special needs children who are residents of this state. The cumulative amount of tax credits that may be claimed for nonrecurring adoption expenses will not be less than \$4 million but may be increased by appropriation.

The bill removes the requirement that the Director of the Department of Revenue submit an annual report to the General Assembly on the income levels of taxpayers claiming the tax credit.

Applications for the adoption credit for special needs children must be filed between July 1 and April 15 of each fiscal year. The credit is not refundable, but can be carried forward and claimed for up to five consecutive years.
