

HB 1364 -- Specialty License Plates

Sponsor: Cunningham (86)

Currently, the Joint Committee on Transportation Oversight must have an unanimous vote for approval of an application for a specialty license plate, and no application is approved if a signed petition showing opposition to the proposed plate is submitted by five members of the House of Representatives or two members of the Senate. This bill allows a majority vote of committee members at a meeting at which at least a quorum is present for approval of a speciality license plate.
