

HB 1782 -- Missouri Economic Development Code

Sponsor: Richard

This bill establishes the Missouri Economic Development Code and specifies that if provisions of this code are inconsistent with the provision of any other law, the code will be controlling.

Each municipality or county may create a Missouri economic development code job creation commission, but it will only be able to conduct business if it is approved by the governing body by order or ordinance. In order to be approved, the governing body must make certain findings which are specified in the bill. Each commission will be governed by a board of commissioners.

This code cannot be used for any residential development project if the taxes that would normally go to the school district would be used to finance the project. In this case, all the school boards of all the school districts located in the area of the project must consent to the project.

This code cannot be used in conjunction with any other redevelopment program authorized under Chapter 99, RSMo. These programs include tax increment financing and the Missouri Downtown Economic Stimulus Act.

The bill specifies:

- (1) The board's membership and powers;
- (2) The items which must be included in a development plan and the findings which must be made for a municipality or county to adopt the plan. The findings must include a cost-benefit analysis of the economic impact the development plan will have on the municipality, county, and school districts that are within the development area. The initial development or redevelopment of a gambling establishment is prohibited. The development project must be completed and all debts retired within 25 years;
- (3) The requirements for public hearings related to the project;
- (4) The manner in which obligations may be issued and retired;  
and
- (5) The manner in which payments in lieu of taxes and economic activity taxes will be allocated during the time development financing is undertaken.
