

HB 75 -- PARK SERVICES

This bill adds facility enhancement to the list of permissible activities for which the Department of Natural Resources may enter into cooperative agreements with nonprofit organizations and allows these organizations to provide services to any state park instead of only one state park. The department may provide incidental staff support if the organization reimburses the department for the actual costs of park facility space and staff support as well as demonstrates the fiscal, interpretive, educational, and facility enhancement benefits to the state. Proceeds from the sale of any services under a cooperative agreement must be used by the organization for interpretive or educational services in state parks.
