

HB 1074 -- Initiative Petitions

Sponsor: Stevenson

This bill changes the laws regarding initiative petition procedures. In its main provisions, the bill:

- (1) Requires the Office of the Secretary of State to accept any portion of an initiative petition if the portion complies with the requirements of Section 116.100, RSMo. Petitions will no longer be accepted or rejected in whole;
- (2) Requires individuals circulating initiative petitions to attach an official summary statement instead of the official ballot title to each page of the petition; and
- (3) Allows individuals circulating initiative petitions to attach an official fiscal note summary to each page of the petition, but specifies that all signatures will be counted without regard to the legal status of the fiscal note summary.
