

HB 1101 -- Internet Use in Public Schools

Sponsor: Harris (23)

This bill establishes the Child Internet Protection Act which requires school districts to file Internet use policies with the Department of Elementary and Secondary Education beginning with the 2008-2009 school year. The bill specifies the required components of the policy including measures to prevent sending, receiving, viewing, or downloading illegal material and instruction on Internet safety at all grade levels. The department must issue guidelines on Internet safety which districts must incorporate into their curricula.
