

HB 1161 -- Teacher Strikes

Sponsor: Cunningham (86)

This bill adds participation in a strike to the list of reasons for which a tenured teacher may be dismissed. If a teacher participates in a strike and the school district remains in operation, the teacher is prohibited from using leave to cover any missed days. If the district does not remain in operation, the teacher must make up the missed days. The bill also contains notice procedures that a labor organization must follow when it is preparing to vote on a strike.
