

HJR 22 -- Compensation of Public Officials

Sponsor: Ervin

Upon voter approval, this proposed constitutional amendment makes any schedule of compensation for state officials proposed by the Missouri Citizens' Commission on Compensation for Elected Officials invalid unless approved by a majority vote of the General Assembly before February 1 of the year following the filing of the schedule of compensation. Currently, the compensation schedule takes effect unless disapproved by a concurrent resolution adopted by a two-thirds majority vote of the General Assembly. The amendment also requires separate consideration and approval by a majority vote for compensation for state judges and public officials.
