

HJR 48 -- Voter Identification

Sponsor: Cox

Upon voter approval, this proposed constitutional amendment requires any person seeking to vote in a public election to provide election officials a form of identification, including a government-issued photo identification, in order to show that he or she is a citizen of Missouri who is lawfully present in the United States.

The State of Missouri will provide at no cost at least one type of identification that is specified by statute as sufficient in order to vote. If any political subdivision incurs a cost for implementing any voter identification statute, the state will reimburse the political subdivision for the cost.
