

FIRST REGULAR SESSION

HOUSE BILL NO. 458

95TH GENERAL ASSEMBLY

INTRODUCED BY REPRESENTATIVES STEVENSON (Sponsor), RUCKER, CURLS, HUGHES, CHAPPELLE-NADAL, LeVOTA, STREAM, BROWN (73), NOLTE, SCHAD, FLANIGAN, VOGT, CORCORAN, WEBB, MEINERS, TALBOY, COLONA, JONES (63), LIPKE, McCLANAHAN, HODGES, LOW, LAMPE, WALSH, DOUGHERTY, KUESSNER, KINGERY, RUESTMAN, SCHARNHORST, JONES (117), TILLEY, THOMSON, JONES (89), WALLACE, DIEHL, PARKINSON, DENISON, POLLOCK, WASSON, SPRENG, KANDER, KIRKTON, SKAGGS, SATER, NIEVES, FRANZ, DAY, GUEST, STORCH, SMITH (14), COX, WOOD, VIEBROCK, FAITH, SALVA, OXFORD, WILDBERGER, BROWN (30), MUNZLINGER, GATSCHENBERGER, COOPER, SCHAAF, LOEHNER, SANDER, FUNDERBURK, BROWN (149), WRIGHT, SUTHERLAND, FISHER (125), WILSON (130), FLOOK, STILL, SCHLOTTACH, DIXON, SILVEY, ICET, WELLS, CUNNINGHAM, HOBBS, CALLOWAY, DIECKHAUS, DUGGER, LEARA, CASEY, FISCHER (107), CARTER, SCHUPP, LeBLANC, HARRIS, YAEGER, BRINGER, NANCE, PRATT, LAIR, SCHOEMEHL AND ROORDA (Co-sponsors).

1178L.04I

D. ADAM CRUMBLISS, Chief Clerk

AN ACT

To amend chapter 376, RSMo, by adding thereto five new sections relating to pharmacy benefits, with penalty provisions.

Be it enacted by the General Assembly of the state of Missouri, as follows:

Section A. Chapter 376, RSMo, is amended by adding thereto five new sections, to be
2 known as sections 376.388, 376.389, 376.1460, 376.1462, and 376.1464, to read as follows:

376.388. 1. A pharmacy benefits manager shall:

2 **(1) Remit to the covered entity each individual claim, the prescription number, the**
3 **eleven-digit National Drug Code (NDC) number, the quantity and the amount the**
4 **pharmacy benefits manager actually paid each pharmacy or pharmacist, and the amount**
5 **charged to the person, business, or other entity that is purchasing pharmacist's services**
6 **through the pharmacy benefits manager; and**

7 **(2) Itemize by individual claim the amounts the pharmacy benefits manager**
8 **actually paid each pharmacy or pharmacist for pharmacist's services on any invoice,**
9 **statement, or remittance.**

EXPLANATION — Matter enclosed in bold-faced brackets [thus] in the above bill is not enacted and is intended to be omitted from the law. Matter in **bold-face** type in the above bill is proposed language.

10 2. A pharmacy benefits manager shall not:

11 (1) Automatically enroll or passively enroll the pharmacy in a contract, or modify
12 an existing contract without affirmation from the pharmacy or pharmacist. The pharmacy
13 shall sign a contract before assuming responsibility to fill prescriptions;

14 (2) Require that a pharmacy or pharmacist participate in one pharmacy benefits
15 manager contract in order to participate in another contract; or

16 (3) Discriminate between pharmacies or pharmacists on the basis of copayments
17 or days of supply.

18 3. When a pharmacy benefits manager calculates the charge for a prescription to
19 the recipient of the drug and the covered entity, the pharmacy benefits manager shall use
20 the same NDC price used when calculating the reimbursement to the dispensing pharmacy.

21 4. When an insured presents a prescription to a pharmacy in the pharmacy benefits
22 manager's network, the pharmacy benefits manager shall not reassign such prescription
23 to be filled by any other pharmacy. When the pharmacy benefits manager contacts the
24 prescribing health care practitioner to affirm or modify the original prescription which has
25 been delivered to a participating pharmacy, the affirmed or modified prescription shall be
26 filled at the pharmacy to which the insured presented the original prescription.

 376.389. 1. A health benefit plan or health care services contract that covers
2 prescription drugs shall not limit, reduce, or deny coverage for any drug if, prior to the
3 limitation, reduction, or denial of coverage:

4 (1) Any insured was using the drug;

5 (2) Such insured or insureds were covered under the plan or contract; and

6 (3) The drug was covered under the plan or contract for such insured individual
7 or individuals.

8 2. A limitation, reduction, or denial of coverage includes removing a drug from the
9 formulary or other drug list, imposing new prior authorization or other utilization
10 management tools, or placing the drug on a formulary tier that increases the patient's cost-
11 sharing obligations or otherwise increases the patient's cost-sharing obligations.

12 3. Nothing in this section shall prohibit an insurer from making uniform changes
13 in its benefit design that apply to all covered drugs, uniformly removing a drug from the
14 formulary list for all insureds, or increasing cost-sharing obligations merely due to a
15 percentage coinsurance payment that necessarily increases with an increase in the
16 underlying drug prices.

 376.1460. 1. As used in sections 376.1460 to 376.1464 the following terms shall
2 mean:

(1) "Health carrier", the same meaning as such term is defined in section 376.1350; except when such health care services are provided, delivered, arranged for, paid for, or reimbursed by the department of social services or the department of mental health;

(2) "Pharmacy benefit manager" or "PBM", a person or entity other than a pharmacy or pharmacist acting as an administrator in connection with pharmacy benefits;

(3) "Switch communication", a communication from a health insurance carrier or PBM to a patient or the patient's physician that recommends a patient's medication be switched by the original prescribing health care professional to a different medication than the medication originally prescribed by the prescribing health care professional.

2. Any time a patient's prescribed medication is recommended to be switched to a medication other than that originally prescribed by the prescribing practitioner, a switch communication shall be sent to:

(1) The patient and shall provide information about why the switch is proposed and the patient's rights for refusing the recommended change in treatment; and

(2) The plan sponsor and shall inform such sponsor of the cost, shown in currency form, of the recommended medication and the cost, shown in currency form, of the originally prescribed medication.

3. Such switch communication shall:

(1) Clearly identify the originally prescribed medication and the medication to which it has been proposed that the patient should be switched;

(2) Explain any financial incentives that may be provided to, or have been offered to, the prescribing health care professional by the health carrier or PBM that could result in the switch to the different drug. In particular, cash or in-kind compensation payable to prescribers or their professional practices for switching patients from their currently prescribed medication to a different medication shall be disclosed to the patient as well as incentives that may be provided through general health care professional compensation programs used by the health carrier or PBM;

(3) Explain any financial incentive that a health carrier or PBM may have to encourage the switch to a different drug;

(4) Advise the patient of his or her rights to discuss the proposed change in treatment before such a switch takes place, including a discussion with the patient's prescribing practitioner, the filing of a grievance with the health carrier to prevent the switch if such a switch is based on a financial incentive and the filing of a grievance with the department of insurance, financial institutions, and professional registration; and

(5) Explain any cost sharing changes for which the patient is responsible.

38 4. Switch communications to health care providers shall disclose financial
39 incentives or benefits that may be received by the health carrier or PBM.

40 5. Switch communications to health care providers shall direct the prescriber to
41 advise the patient that is subjected to a switch by the prescriber of any financial incentives
42 received by the prescriber or other inducements from the health carrier or PBM that may
43 influence the decision to switch.

44 6. A copy of any switch communication sent to a patient shall also be sent to the
45 prescribing practitioner.

46 7. Health insurance payers, including employers, shall be notified of medication
47 switches among plan participants. Such notification shall include any financial incentive
48 the health carrier or PBM may be utilizing to encourage or induce the switch. Information
49 contained in the notification shall be in the aggregate and must not contain any personally
50 identifiable information.

51 8. The department of insurance, financial institutions and professional registration
52 shall create one form for health carriers and pharmacy benefit managers to use in switch
53 communications to patients, prescribing practitioners, and health insurance payers
54 including employers.

55 9. The department shall promulgate rules governing switch communications. Such
56 rules shall include, but not be limited to the following:

57 (1) Procedures for verifying the accuracy of any switch communications from
58 health benefit plans and pharmacy benefit managers to ensure that such switch
59 communications are truthful, accurate, and not misleading based on cost to the patient and
60 plan sponsor, the product package labeling, medical compendia recognized by the MO
61 HealthNet program for the drug utilization review program, and peer-reviewed medical
62 literature, with appropriate references provided;

63 (2) Except for a substitution due to the Food and Drug Administration's
64 withdrawal of a drug for prescription, a requirement that all switch communications bear
65 a prominent legend on the first page that states: "This is not a product safety notice. This
66 is a promotional announcement from your health care insurer or pharmacy benefit
67 manager about one of your current prescribed medications.";

68 (3) A requirement that, if the switch communication contains information
69 regarding a potential therapeutic substitution, such communication shall explain that
70 medications in the same therapeutic class are associated with different risks and benefits
71 and may work differently in different patients.

72 10. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo,
73 that is created under the authority delegated in this section shall become effective only if

74 it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if
75 applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable
76 and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo,
77 to review, to delay the effective date, or to disapprove and annul a rule are subsequently
78 held unconstitutional, then the grant of rulemaking authority and any rule proposed or
79 adopted after August 28, 2009, shall be invalid and void.

376.1462. 1. Issuing or delivering or causing to be issued or delivered a switch
2 communication that has not been approved and is not in compliance with the requirements
3 of section 376.1460 is punishable by a fine not to exceed twenty-five thousand dollars.

4 2. Providing a misrepresentation or false statement in a switch communication
5 under section 376.1460 is punishable by a fine not to exceed twenty-five thousand dollars.

6 3. Any other material violation of section 376.1460 is punishable by a fine not to
7 exceed twenty-five thousand dollars.

376.1464. 1. When medications for the treatment of any medical condition are
2 restricted for use by a health carrier or PBM by a step therapy or fail first protocol, a
3 prescriber may override such restriction if:

4 (1) The preferred treatment by the health carrier or the PBM has been ineffective
5 in the treatment of the covered person's disease or medical condition; or

6 (2) Based on sound clinical evidence and medical and scientific evidence:

7 (a) The preferred treatment is expected to be ineffective based on the known
8 relevant physical or mental characteristics of the covered person and known characteristics
9 of the drug regimen, and is likely to be ineffective or adversely affect the drug's
10 effectiveness or patient compliance; or

11 (b) The preferred treatment has caused or based on sound clinical evidence and
12 medical and scientific evidence is likely to cause an adverse reaction or other harm to the
13 covered person.

14 2. The duration of any step therapy or fail first protocol shall not be longer than
15 a period of fourteen days when such treatment is deemed clinically ineffective by the
16 prescribing physician.

17 3. For medications with no generic equivalent and for which the prescribing
18 physician in their clinical judgment feels that no appropriate therapeutic alternative is
19 available a health carrier or PBM shall provide access to United States Food and Drug
20 Administration (FDA) labeled medications without restriction to treat such medical
21 conditions for which an FDA labeled medication is available.

22 4. Nothing in this section shall require coverage for a condition specifically excluded
23 by the policy which is not otherwise covered by law.
