FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Public Safety – Director’s Office** and the **Office of the State Public Defender** assume the proposal would have no fiscal impact on their agencies.

Officials from the **Office of the Attorney General** assume any potential costs arising from this proposal can be absorbed within existing resources.

Officials from the **Office of State Courts Administrator** assume the proposed legislation would have no fiscal impact on the courts.

Officials from the **Department of Corrections (DOC)** assume the penalty provision, the component of the bill to have potential fiscal impact for DOC, is for a class D felony.

DOC cannot currently predict the number of new commitments which may result from the creation of the offense(s) outlined in this proposal. An increase in commitments depends on the utilization by prosecutors and the actual sentences imposed by the court.

If additional persons are sentenced to the custody of the DOC due to the provisions of this legislation, the DOC will incur a corresponding increase of direct offender costs either through incarceration (FY08 average of \$15.64 per offender per day, or an annual cost of \$5,709 per inmate) or through supervision provided by the Board of Probation and Parole (FY08 average of \$2.47 per offender per day, or an annual cost of \$902 per offender).

The following factors contribute to DOC’s minimal assumption:

- DOC assumes the narrow scope of the crime will not encompass a large number of offenders;
- The low felony status of the crime enhances the possibility of plea-bargaining or imposition of a probation sentence; and
- The probability exists that offenders would be charged with a similar but more serious offense or that sentences may run concurrent to one another.

In summary, supervision by the DOC through probation or incarceration would result in some additional costs, but it is assumed the impact would be \$0 or a minimal amount that could be absorbed within existing resources.

ASSUMPTION (continued)

Officials from the **Office of the Secretary of State (SOS)** assume many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this proposal for Administrative Rules is less than \$2,500. The SOS recognizes this is a small amount and does not expect additional funding would be required to meet these costs. However, SOS also recognizes that many such bills may be passed in a given year and that collectively the costs may be in excess of what the SOS can sustain with their core budget. Any additional required funding would be handled through the budget process.

Officials from the **Office of Prosecution Services** assume the proposal would have no measurable fiscal impact the Office of Prosecution Services or county prosecutors.
