FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Elementary and Secondary Education (DESE)** assume that fiscal impact to school district school nutrition programs would vary depending on the foods purchased to meet the stated requirements. In general, food that are considered nutrient dense are usually of a higher cost. DESE stated their agency did not have the means to estimate the probable increase to local school districts.

Officials from the **Department of Health and Senior Services** state this section has no fiscal impact on their agency.

Officials from the **Special School District of St Louis County** state this proposed legislation would cost their district about \$22,000 in “ala carte sales” based on the nutritional limitations.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

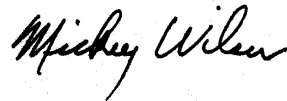

FISCAL DESCRIPTION

The proposed legislation appears to have no fiscal impact.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
