

HB 666 -- College Tuition for Military Dependents

Sponsor: Witte

Currently, eligibility for in-state tuition as a military dependent is subject to administrative regulation and institutional policy. This bill requires a dependent, as defined in federal law, who is residing in Missouri and whose parent is assigned to permanent duty in the state to be eligible for in-state tuition as long as he or she is continuously enrolled in a Missouri higher education institution including any transfers from one Missouri institution to another or from an undergraduate to a graduate degree program.
