

# House Concurrent Resolution No. 43

## 95TH GENERAL ASSEMBLY

INTRODUCED BY REPRESENTATIVES ALLEN (Sponsor), FLANIGAN, WALTON GRAY, KIRKTON, FISHER (125), WILSON (130), WELLS, FUNDERBURK, JONES (89), ROORDA, GRISAMORE, SATER, BIVINS, DUSENBERG, PACE, LAMPE AND WALLACE (Co-sponsors).

4548L.02I

1 **Whereas**, the practice of school nursing began in the United States in 1902, when  
2 the initial role of the school nurse was to reduce absenteeism by intervening with students and  
3 families regarding health care needs related to communicable diseases; and  
4

5 **Whereas**, today, professional school nursing is a specialized practice that advances  
6 the well-being, academic success, and lifelong achievement of students. To that end, school  
7 nurses facilitate positive student responses to normal development, promote health and safety,  
8 intervene with actual and potential health problems, provide case management services, and  
9 actively collaborate with others to build student and family capacity for adaptation, self-  
10 management, and self-advocacy, and learning; and  
11

12 **Whereas**, seven roles have been identified by the National Association of School  
13 Nurses:

- 14 (1) Providing health care to students and staff;
- 15
- 16 (2) Providing leadership for the provision of health services;
- 17
- 18 (3) Providing screening and referral for health care;
- 19
- 20 (4) Promoting a healthy school environment;
- 21
- 22 (5) Promoting health;
- 23
- 24 (6) Serving in a leadership role for health policies and programs;
- 25
- 26 (7) Serving as a liaison between school personnel, family, community, and health care  
27 providers; and  
28  
29

30 **Whereas**, today, school nurses are facing increased pressures from every direction.  
31 Overwhelming amounts of paperwork, strict administrative policies, diminishing school budgets,

32 and serious concerns regarding legal liabilities leave an insufficient amount of time and resources  
33 to provide students with the quality of care they deserve; and  
34

35 **Whereas**, as schools grapple with a resurgence of H1N1 and mandates from the  
36 federal government to vaccinate students, many districts have few or no nurses to prevent or  
37 respond to outbreaks, leaving students more vulnerable to a virus that spreads easily in  
38 classrooms and takes a heavier toll on children and young adults; and  
39

40 **Whereas**, a 2008 survey by the National Association of School Nurses found that  
41 only 45% of public schools have their own full-time nurse, another 30% have a part-time nurse,  
42 and 25% don't have any nurses at all; and  
43

44 **Whereas**, given the vital role of our professional school nurses, school districts  
45 should recognize the dedication and contributions made by professional school nurses and  
46 compensate them as like-degreed professionals:  
47

48 **Now, therefore, be it resolved** that the members of the House of  
49 Representatives of the Ninety-fifth General Assembly, Second Regular Session, the Senate  
50 concurring therein, hereby recognize the important health and educational services that  
51 professional school nurses provide and strongly urge every school district in this state to  
52 recognize the dedication of professional school nurses and the valuable role they play in Missouri  
53 schools by compensating them as like-degreed professionals; and  
54

55 **Be it further resolved** that the Chief Clerk of the Missouri House of  
56 Representatives be instructed to prepare properly inscribed copies of this resolution for each  
57 school district in Missouri.
