

HB 1678 -- Student Requests for Transfer

Sponsor: Hoskins (80)

Prior to the beginning of the 2011-2012 school year, this bill requires the Department of Elementary and Secondary Education to establish specific criteria for the admission or rejection of a student from an unaccredited district who wishes to transfer to an adjoining accredited district. The accredited district cannot deny admission of the student unless the criteria for rejection are met. Appeals by either the district or the parent can be made to the State Board of Education.
