FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of Prosecution Services, Department of Public Safety - Missouri Highway Patrol**, and the **Office of the State Courts Administrator** each assume the proposal would not have a fiscal impact on their respective agencies.

For the purpose of this proposed legislation, officials at the **Office of State Public Defender (SPD)** cannot assume that existing staff will provide competent, effective representation for any new cases arising where indigent persons are charged with the proposed new crime of unlawfully intercepting computer and electronic communication device information with becomes a new class D felony.

Passage of bills increasing penalties on existing crimes, or creating new crimes, requires the State Public Defender System to further extend resources. While the number of new cases (or cases with increased penalties) may be too few or uncertain to request additional funding for this specific bill, the SPD will continue to request sufficient appropriations to provide competent and effective representation in all its cases.

Oversight assumes the SPD can absorb the additional caseload that may result from this proposal.

Officials from the **Department of Corrections (DOC)** state this proposal creates the crime of unlawfully intercepting computer and electronic communication device information. Penalty provisions, the component of the bill to have potential fiscal impact for DOC, is for a class D felony.

Currently, the DOC cannot predict the number of new commitments which may result from the creation of the offense(s) outlined in this proposal. An increase in commitments depends on the utilization by prosecutors and the actual sentences imposed by the court.

If additional persons are sentenced to the custody of the DOC due to the provisions of this legislation, the DOC will incur a corresponding increase of direct offender costs either through incarceration (FY10 average of \$16.397 per offender, per day, or an annual cost of \$5,985 per inmate) or through supervision provided by the Board of Probation and Parole (FY10 average of \$3.92 per offender, per day or an annual cost of \$1,431 per offender).

ASSUMPTION (continued)

The following factors contribute to DOC's minimal assumption:

- DOC assumes the narrow scope of the crime will not encompass a large number of offenders;
- The low felony status of the crime enhances the possibility of plea-bargaining or imposition of a probation sentence;
- The probability exists that offenders would be charged with a similar but more serious offense or that sentences may run concurrent to one another.

In summary, supervision by the DOC through probation or incarceration would result in some additional costs, but it is assumed the impact would be \$0 or a minimal amount that could be absorbed within existing resources.

<u>FISCAL IMPACT - Local Government</u>	FY 2012 (10 Mo.)	FY 2013	FY 2014

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

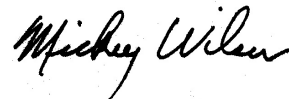

FISCAL DESCRIPTION
