FISCAL ANALYSIS

ASSUMPTION

Officials at the **Office of Secretary of State** states many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$2,500. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with the core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process.

Officials at the **Department of Agriculture (AGR)** assumes this proposed legislation will reduce the risk of loss for Missouri sellers of grain and require some businesses to file increased securities in the form of bonds, letters of credit, or certificates of deposit. The bill will require some businesses to increase their net worth as set forth in financial statements submitted with license applications. AGR assumes there is no fiscal impact from this proposed legislation.

Oversight assumes there is no fiscal impact from this proposed legislation on state or local government funds.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

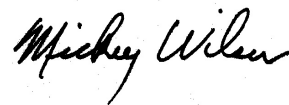

FISCAL DESCRIPTION

The proposed legislation appears to have no fiscal impact.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
