

HB 745 -- Adjusted Gross Receipts Tax on Gambling Boats

Sponsor: Brown (85)

This bill requires 10% of the adjusted gross receipts tax on gambling boats to be used for services necessary for the safety of the public visiting an excursion gambling boat including the areas of law enforcement, fire safety, emergency medical services, and infrastructure. A home dock city or county must establish a panel of representatives from each of the four areas whenever it is unable to provide services in all four safety areas. Each home dock city or county must provide an annual report to the Missouri Gaming Commission detailing how the safety funds were spent.
