

## HB 1282 -- Conservation Violation Code and Point System

Sponsor: Houghton

This bill requires, by no later than January 1, 2013, the Department of Conservation to provide a copy of its current violation code and point system list to every applicant for and licensee with a department-issued hunting, trapping, or fishing license or permit. The department must also make the code and list available to the public on the department's website. The department must also notify any licensee who has points assessed against his or her license regarding the imposition of the points. After January 1, 2013, the department may not temporarily or permanently revoke a hunting, trapping, or fishing license or permit based on an accumulation of points unless the department has met these requirements. The department must reimburse any licensee whose license was temporarily or permanently revoked in violation of these requirements in an amount equal to three times the original license fee.
