

SB 170 -- VOTES OF PUBLIC GOVERNMENTAL BODIES

(Vetoed by the Governor--Overridden by the General Assembly)

Currently, a vote taken by roll call in a meeting of a public governmental body consisting of members who are all elected, except for the General Assembly and any committee of a public governmental body, must be cast by a member who is physically present and in attendance at the meeting. This bill allows a member to cast a vote if he or she is participating in the meeting via videoconferencing.
